ASK COUNCIL FOR ANOTHER NIGHT COP

A petition is being circulated among the business men and residents of the city, asking the council to make provision for the appointment of an additional night policeman. Ray Trabert was in charge of the document Thursday afternoon, and at that time there were over thirty signatures. Not a single resident has refused to sign.

The requests sets forth a number of reasons why an additional night man is deemed necessary. It is absolutely impossible for one man to patrol the streets and alleys of Alliance during the night time in a manner to give the necessary protection to the business and residence districts, the petition says. It also calls attention to the fact that there have been several burglaries and larcenies committed during the past two weeks and a single policeman is utterly powerless to prevent such crimes.

Representatives of the Kelly Well company of Grand Island have been in the city the past days day or two and have tried out a new rotary pump on well No. 5. The test has shown that the well will furnish 800 gallons per minute. The rotary pump, which is shaped like an augur will produce a constant stream of water and is not only speedier, but more economical of operation than the plunger pump at present in use. The pump purchased for the well is too large, as the well will not produce sufficient water to keep the pump supplied without sucking out the quicksand from the sides of the well and filling the cylinders, thus putting the well out of commission. The council contemplates the purchase of a rotary pump for this well, and will have it installed in the near future. It is believed that this well will furnish sufficient water to supply the city if so equipped. The rotary pump now here is equipped with an "open head" pump. In order to force the water into the reservoir, a pump with a force head will have to be purchased.

CHURCH OF CHRIST

Holy Writ says that, "Jesus is the Light of the world". How many in this present age realize the importance of that statement? That Light is the motive back of all the good deeds which make life worth living.

Next Lord's Day morning the minister will preach on the subject: Living in the light. The Communion service will be observed as usual at the regular worship. At the evening Union services, our esteemed fellow-citizen Dr. Minor Morris will address the audience. A splendid meeting is assured. Do not forget the Bible School and C. E. prayer meetings. Come to the church with a message and a welcome.

Stephen J. Epler, Minister

The paving has slowed down considerably the past week. The chief difficulty seems to be in hiring men, and in getting them to stay hired after they have agreed to go to work.

The man in charge of the curbing gang had the pledges of fifteen men to go to work the other morning, and out of the fifteen but a single man showed up, and he came over to say he had decided not to take the job.

No brick was laid this week, and no cement poured, save for the curb. The grading for the Third district has been going on, however, and the pouring of cement for the base will be begun next week.

Brick are coming in every once in a while, and are being unloaded as fast as they arrive.
