A Complex Machine

Your Kodak is more than a box with levers and buttons to push. Do you UNDERSTAND thoroughly "how it works?" It will be a pleasure to us to show you the inner mechanism of the Kodak, so that you will not call it "luck" when you get good results. You will KNOW HOW to get them every time.

See what our system of kodak finishing—tank development of films and modern machinery—will do for your record of outings. If the film is good we will always get correspondingly good prints.

We have the one day service and a film box at bottom of stairs to drop your films in. All city and mail orders given personal care.
