THE PARSON'S CORNER

By Rev. B. J. Minort, Pastor of the First Baptist Church, Alliance

The Ku Klux Klan.

The editors of the local papers are to be commended upon their stand upon this new menace to the American government, for such it is.

The K. K. K. has for its avowed object the enforcement of the law; but in its own way and by its own methods. Now there is no reason why men cannot organize themselves to assist the peace officers to enforce the law, but when it comes to take the law into their own hands as this bond has thus far done it becomes an outlaw.

We mourn the fact that lawlessness seems to be growing in this country, but lynch law is a poor substitute for law enforcement. It takes a man and without trial or chances of defense it metes out punishment to suit itself. But let us inquire into the causes of all this lawlessness. Right minded men are often tempted to take the law in their own hands because of the lax law enforcement on the part of the present peace officers. When a great corporation will defy the Federal government as the Pennsylvania railroad did a few weeks ago, and demand, and used the word "insist" that the railroad labor board hand down its decision to suit its claim, and that corporation is allowed to go unpunished; when a band of men takes up arms against the government, and the only punishment given them is admonishment to not do it again, can you blame the law loving folks from getting

discouraged and feeling like taking the law into their own hands?

Now the writer does not believe that there is a real need for the K. K. K. or any other organization of that character; but as our own attorney general said lately before the national bar association, "there is a great need of something being done."

In our own little town we have an example of what is going on over the country. Take the farce that has been pulled off here the last few weeks in connection with the Rodgers rooming (?) house. Come in on a midnight train any night and you will see the keeper of the rooming (?) house before the door as of old pointing likely looking men upstairs. And this is known to the officers but what can be done? We are told that the court will not enforce the law.

It does not take a lawyer to know that the marshal and sheriff secured sufficient evidence to apply the Albert law to that building in their recent effort to eliminate that ulcer on the body of Alliance, but the court's decision was the poorest imitations of an application of the law.

Why a restraining order to sell liquor? Have we not a statute against this business? Why the order? By issuing the order the court admitted that the defendant had sold it, why not punish them accordingly? It is such farces as this that are responsible for the existence of lynch bodies.

It is high time that the American people retire the lax law enforcers and put men in their offices that will either enforce existent laws, or use their influence to repeal them.

A lax enforced law will do more as a breeder of criminals than anything else. A poor man without influence will receive a heavy fine for a trifling offense, a corporation will be given a bonus for a flagrant violation of the law, then we complain if people will organize themselves to see the law enforced.

A poor preacher will go fishing and ignorantly will pull out a fish measuring six inches or less, and be hauled into court. A wealthy business man will go out into the sandhills and violate the same law by killing a dozen grouse or prairie chickens, and come back to town and boast about it, but nothing is done about it. Then we wonder why the poorer man is tempted to do likewise.

We believe in law enforcement provided it is the other fellow against whom it is enforced. Let us both keep the law and help the legal enforcers in their effort to enforce it and we will not be worried with any K. K. K's. A real estate agent will beat a poor widow out of her home and lot and be called shrewd. The poor widow will take a pile of coal from the railroad track and be called a thief. Let us give the widow at least the same protection as the rich man, and law will be respected.
