NORTH PLATTE—On the site of old Ft. McPherson, 20 miles east of this city, the only remaining evidence that a military post was once located there is the flag-staff stone. This marker lies near the roadway, on one pays attention to it and should it sometime be removed, the last vestige of the old fort would disappear. In the early history of Lincoln county Fort McPherson played an important part, for the cavalry stationed there guarded the wayfarers on the old California trail and protected the ranches of the early day cattlemen. The Daughters of the American Revolution of this city propose to protect this historic flag-staff stone by enclosing it with an iron fence.

A SAFE TEST

For those who are in need of a remedy for kidney troubles and backache it is a good plan to try Doan's Kidney Pills. They are strongly recommended by Alliance people. Ask your neighbor!

Mrs. C. O. West, 303 Yellowstone, Alliance, says: "Doan's Kidney Pills are a standard medicine for kidney trouble in our home and have been in the house all the time and whenever any of the family needed a kidney medicine it was always Doan's that was relied upon to straighten them up. I sometimes had attacks of dizzy spells, headaches and backache. Whenever I had one of these attacks I took Doan's Kidney Pills and they always cured me of the attack promptly. It is a pleasure to give Doan's my hearty endorsement."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get

Doan's Kidney Pills—the same that Mrs. West had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Stop Movie Flirting.

OMAHA—Omaha has a new commissioner of police! James C. Dahlman, now mayor, has taken over the reins of the police department, while Commissioner Dunn is leading a posse against vagrant ducks up in the northern part of the state. "My first campaign as police commissioner will begin next week," announced Mayor Dahlman, "and I intend to turn loose the department on the movie vamps, who appear to be creating so much disturbance nowadays. Personally I have never happened to meet a movie vamp face to face. But I hear that they infest the dark corners of the theaters and spoil the picture for members of the opposite sex. Male or female, I intend dealing harshly with them—this practice must stop."

War's Lesson

The American people have learned to save. Billions of dollars were raised to equip our Army and Navy, and it all came from the pockets of the men, women and even the children of this great country.

To help our boys to win, we denied ourselves many petty luxuries and invested the money in Liberty Bonds and War Savings Stamps. Thus War taught us the value of Thrift.

Get the Habit

if you were able to sacrifice extravagance to help bring peace to the world, you should be willing to keep it up to win success and independence for yourself in later years.

Put the interest on your Bonds into a Savings Account at this strong, conservative bank and add part of your pay to it each week.

Nation Wide!

The telephone was at first only a community affair. Later on, devices were perfected which made conversation possible to nearby villages. But not until 1915 could conversations be had from coast to coast.

In less than fifty years a nation-wide telephone organization known as the Bell System, composed of the American Telephone and Telegraph Company and eighteen Associated Companies such as this, has been built up.

The Companies of the Bell System, co-operating with the Independent telephone companies, have made nation-wide telephone service possible, by connecting over 12,000,000 American telephones. This is more than two-thirds of all the telephones in the world.

How You Should Figure Your Oil Costs

Polarine MOTOR OILS

Automotive engineers and garage men agree that improper lubrication causes 90% of all engine troubles. So when you figure oil costs, add practically all repair and overhauling costs to what you pay for oil.

Plenty of oil is important. So is replacing old oil with fresh oil. But no matter how much oil you use or how often you renew it, you can't prevent engine wear and tear unless the oil maintains correct body.

Polarine provides a cushioning film that protects against wear and keeps down friction-load. In the cylinders Polarine forms a gas-tight and fuel-tight seal that insures full compression and maximum power.

Polarine is made in four grades—light, medium heavy, heavy and extra heavy—but only one quality. Get the proper grade for your car next time by referring to Polarine chart at our Service Stations or dealers—and you will start cutting down motoring costs.
