Nebraska News Notes

Hospital Welcomes Investigation.
KEARNEY—When informed that members of the executive committee of the American Legion, state headquarters, would make an inspection of conditions at the state hospital, with regard to treatment of ex-service men quartered there, R. J. Sidwell, superintendent, was more than pleased.

The superintendent was not severely critical of his fault finders, with one exception, that being an ex-soldier whose compensation had been reduced from \$100 per month to \$10 per month and who apparently held that against the hospital, having no other grievance at the time of his discharge.

There were numerous misstatements in reports to the Disabled Veterans of the World War in their session at Grand Island last Saturday, Dr. Sidwell asserts. There are only 160 patients at the hospital, its capacity number, instead of 230 as reported. On this number only twenty are ex-service men, the superintendent states.

Referring to the \$250 per day allowed by the government for care of these men, Dr. Sidwell said: "Why including the entire federal and state allowance the hospital is not credited with that sum, for operating purposes, per day. It is an absurd statement based undoubtedly upon misinformation."

As to other specific cases mentioned regarding food and clothing furnished he preferred to make a detailed report upon conditions to the authorized committee when it appeared, he stated.

Reavis to Retire
FALLS CITY—Congressman C. F. Reavis of Falls City, who has represented the First Nebraska district at Washington for the past seven years, will retire at the end of his present term. A statement given out Tuesday noon by Mr. Reavis, in Lincoln, confirms the information published two weeks ago that he would not be a candidate for re-election.

The announcement from Reavis means that Walter L. Anderson of this city, speaker of the Nebraska house in the past legislative session, and perhaps others will file for the republican congressional nomination in the First district. Mr. Anderson's friends have known for some time that he intended to get into the race if the present congressman did not.

Mr. Reavis has received offers from leading law firms in New York and Chicago to become associated with them in the practice of his profession, but he has not yet made any definite arrangements in that regard. What

he will do at the end of his term in March, 1923 is still to be decided. He many conclude to remain a resident of Nebraska, living at Falls City or Lincoln.

An Instance of Low Cost.
HASTINGS—The high purchasing power of the low German mark was shown Tuesday in the remittance made by J. H. Lohmann of 1,400 marks for the reservation of four first class tickets for the Passion play at Oberammergau, Bavaria, next year and lodging and meals for a party of four, first class, for a day and a half. In American money, the marks cost only a little over \$6. Mr. and Mrs. J. H. Lohmann and Superintendent W. S. Fast and Mrs. Fast will make an extensive European tour. Mr. Lohmann is cashier of the Nebraska National bank and Dr. Fast is superintendent of the Hastings State hospital at Ingleside.

Beggar Had Bank Account.
GRAND ISLAND—Martin Estergaard was taken in by the police over Sunday. He had been begging. When searched the police found certificate of deposit on a Fullerton bank for \$1,305. Estergaard explained that when he tried to draw on the bank they would not let him have it unless he waived the interest accumulated since October at which time he made the deposit. Estergaard was the beneficiary of advice and thereupon released.

Mrs. Tacina Acquitted.
SCOTTSBLUFF—A district court jury Monday afternoon declared Mrs. Paul Tacina not guilty of first degree murder in connection with the shooting of Fred Reisbeck, farmer, on the Tacina homestead near Minature on July 17. Mrs. Tacina, mother of four small children, admitted shooting Reisbeck three times with a small calibre gun, but said she did so to protect her husband from his assault and because the county attorney had told her to do so.

strange and unfamiliar sights from his customs since his arrival in America.

The comparatively high and somewhat steady price of furs has aroused

keen rivalry and competition among both local and state buyers and prices paid for furs at this point is the very highest which is quite different from a few years previous when an occasional

our of town buyer made this territory a few times during the season which forced the trapper to sell at one price or ship direct to the market and accept what was paid.

THE SAFE, SANE AND SURE WAY

CHIROPRACTIC IS BEING RECOGNIZED.

Chiropractic has been recognized by the railroad men of the United States as being a very necessary part of the hospital system of the railroads, and several of the Eastern railroads have recently adopted chiropractic adjustments in connection with their hospital work, particularly the Missouri Pacific railroad.

Aside from the railroads, the Franklin Automobile Co. of Syracuse, N. Y., and other large industrial organizations of the East have adopted the chiropractic policy for the benefit of their employees.

Chief among the reasons for the remarkable growth of chiropractic is the fact that it removes the cause of practically every ill known to mankind, by relieving the pressure upon the nerves that carry the life-giving force to every organ and cell of the body.

Chiropractic is winning new converts every day purely upon its merits.—California Breezes, Aug. 1921.
