Garden County News: W. A. Olinger made a trip to Alliance the fore part of the week, returning home Monday evening. He reports that he made the trip over there on the G-P-C highway and came back by the way of Bridgeport, inspecting the North Star route incidentally. He says that the possibilities of a real road on the former route are five to one against the other, but he says they are sure working on the latter route. Grading and laying the North Star is the order of the day in Box Butte county, but he says that nothing has been done this spring on the G-P-C so far as he could notice. Mr. Olinger, who is a road man and a good judge of such matters, says that the road from Broadwater to Alliance could be made a good one and that it is in fairly good shape to commence with right now, but a little work should be done right away. This report doesn't sound as though the promises made to the road boosters of work on the route as soon as possible were being carried out.
