ALLIANCE WINS OPENING GAME OF THE SEASON

TRIMS MINATURE TO THE TUNE OF 8 TO 2.

Only a Fair Crowd Present. But Plenty of Enthusiasm—Play Sunday at Bridgeport.

Alliance had little trouble in winning from Minature, 8 to 2, in the opening game of the season at the fair grounds Sunday. Garvin started the game for Alliance, and pitched and good brand of ball, for his first start, although he was hit hard at times, tightened up in pinches and only allowed one run in the six innings that he worked. Fenning was in mid-air on form, being put in the box in the seventh, striking out five men in the three innings he was on the mound and allowing two hits and one score.

Alliance ran wild on bases having a credit for six stolen bases, and scored at every opportunity offered. Fielding on both sides was ragged, Minature having four errors and Alliance three. Hitting honor for the game went to Griffis with three hits, and as many scores out of five times at bat.

Only a fair crowd attended the game the unfavorable weather evidently keeping a number away. A light shower fell during a part of the game, but not enough to hamper the players.

The next game will be with Bridgeport at Bridgeport next Sunday. Another game will be played on the 30th, or Decoration day. This will be with Hemingford at Hemingford.

The score:

Morvich's Full Sister Brings A Great Price

Thomas Fortune Ryan bought Runelise, a full sister of Morvich, the derby champion, for \$15,000, at an auction in the paddock at Jamaica track Wednesday. Benjamin Block, owner of Morvich, bid \$12,000 for Runelise. Runviso, a half-brother of Morvich, brought \$10,000. Both colts go to the Oak Ridge stables, owned by Ryan.

Washington and Navy Crew Sign For Big Regatta

The University of Washington and the United States Naval academy have been officially entered in the Poughkeepsie regatta, June 28, receipt of the entries being announced Wednesday. Washington and the midshipmen will row only in the three-mile varsity race. Navy's entrance is a matter of gratification, as it had been reported that the sailors would rest on their laurels won in other races with eastern universities.

FROM FLY-PAPER TO A MILLION

Five years ago Erich von Stroheim was a boat-man on Lake Tahoe, California. Prior to that he had peddled fly-paper. In "Foolish Wives," the Universal super-picture showing at the Imperial theatre May 30 and 31, he superintended the spending of more than a million dollars on sets and salaries, and handled thousands of "extra" actors and actresses. The picture is a remarkable picturization of life and intrigue at Monte Carlo.

Berea Tops List of League Teams In County Ball

Berea defeated Snake Creek 21 to 7, in the feature contest of the county league, Sunday. The game was at Beria. This puts Beria definitely at the top of the list, having won four games, and lost none. Snake Creek, the latest team to fall before the Beria machine, and until this game tied for first, is now in second place, having lost one game and won three. Pleasant Hill failed to climb from the cellar position, losing to the Red Sox, 12 to 6. Pleasant Hill has as yet failed to win a game, although they have usually put up a good battle. Lawn furnished the surprise of the day by losing to Marple 9 to 3. This was the best game of the day. Lawn was picked to win and was given a good chance to place high in the league race. Ash Grove took Fairview into camp, 23 to 10.

Clayton of the Beria team turned in a rather remarkable performance, when he hit six times in as many times at bat. This gives him a batting average of 1000 for the game. About 250 people witnessed this game. Good crowds attended all the games, the Beria-Snake Creek battle, however, attracting the most attention.

The standings now are:

W	L	Pct.
Berea	4	0 1000
Snake Creek	3	1 750
Ash Grove	3	2 500
Lawn	2	2 500
Marple	2	2 500
Red Sox	2	2 500
Fairview	1	3 250
Pleasant Hill	0	4 000

Still Talk of Matching Dempsey With Jess Willard

The old talk of matching Jack Dempsey with Jess Willard, out of the game for three years, sixty pounds overweight, over forty years of age, and never a great fighter, to battle with Jack, who is in his prime, in training, and while not what might be described as a fighting champion, he has at least had enough battles to be somewhat in training. Willard might last to the second round, but this is doubtful. Probably any first class heavy of the present day could wallop the elephantine Willard in five rounds. The next move now should be to match James J. Corbett, Jim Jeffries, or possibly Al Wolgast against the champ. Willard, Gibbons, Greb, Carpenter, Brennan, any of the present crop of heavies have been touted as contenders by the champ, except one real contender, the negro Harry Wills. Wills could at least make Dempsey step. It is now thought that Wills and Dempsey may fight in Montreal, July 1, 1922 but after all the talk of signing contracts, posting forfeits, obtaining verbal agreements it is unlikely that Dempsey will meet Wills by the summer of 1923, if at all.

Box Butte Spuds Are Making Good in Texas Fields

Professor R. F. Howard, chairman of the horticulture department in the University of Nebraska Agricultural college at Lincoln, who has just returned from an extensive tour of the potato growing districts of Texas, is elated over the excellent showing made by seed potatoes from Box Butte and adjoining counties in western Nebraska.

"The creditable performance of certified Nebraska potatoes as seed stock in the Rio Grande valley of Texas offers a new, undeveloped output for Nebraska potatoes that will mean thousands of dollars to the potato growers of western Nebraska," said Professor Howard. "In conclusive experiments carried on by the horticultural department in the southern states it has been proven that dry land certified seed potatoes from western Nebraska were equal or superior to those from other states."

"The potato dealers and growers greatly appreciate the interest shown by Nebraska in following up their sales with such investigations as Professor Howard has just made. This desire on the part of the buyers for good service, coupled with the advantage that Nebraska has in the big item of less transportation charges is another encouraging consideration in the outlook for the industry. In the irrigated district near Brownville and San Benito along the Rio Grande, Professor Howard found the potato plants about a foot in height and those from Nebraska certified seed remarkably free from diseases, while those from miscellaneous seed stock were already affected to the extent of 15 to 25 per cent of the yield. Some fields also showed only two-thirds of a stand due to poor seed."

Last year on the seventy-five cars of certified seed shipped to Texas and Louisiana, the growers of western Nebraska received \$1.00 more per hundred-weight than the same potatoes would have netted as table stock.

At the present rate of Tanlac sales, it is estimated the grand total will reach 24,000,000 bottles at the end of the present year. F. E. Holsten. 51

Mr. Skrivan does not believe in fish stories and when he brought the fish home took several people as witnesses and to weigh some of the fish. One bass weighed 6 pounds and several from two to four. Several good catches were made by different parties that day.

Potash Plants to Be Taxed on a Valuation of \$2,000

The potash plants of southern Sheridan county, located at Antioch, Hoffland and Lakeside, will be taxed on a valuation of \$2,000 each, according to the decision of County Assessor George S. Peters who met with representatives of the different plants in Antioch for a conference.

These plants, which were all erected in the year of 1918 at an average cost of from \$500,000 to \$1,000,000, are idle and there is very little prospect of their re-opening. The cottages around the plants, of which there are a large number, built for the workmen are to be assessed at the going value of other buildings in the towns mentioned, as will the lands also.

Representatives of the potash companies who attended the conference were: Nebraska plant—Henry E. Miller and J. M. Litteras; Alliance plant—George Dettlein; Western, American and Union plants—Charles Vastine; Hoffland plant—Charles Rooney; the Standard of Lakeside—E. R. Kirkpatrick; Hord of Lakeside—Fred Blumer.

President Harding Makes Appeal For the Flood Sufferers

The chairman of the Red Cross chapter for this county has just received an urgent appeal from Chairman John Barton Payne of the American Red Cross, supplemented by a special letter from President Harding for a half million dollars to assist the destitute men, women and children stricken by the floods in the Mississippi valley.

Thirty-one thousand homeless are being fed by the Red Cross in the state of Mississippi alone and the first needs in Illinois, Arkansas, Mississippi and Louisiana have already been met by an appropriation of approximately \$100,000 by the national Red Cross organization, but it will require the additional sum to continue the care for the health and comfort of the stricken people in these struggling communities.

Our local Red Cross chapter is requested to secure generous aid immediately from our people in behalf of these families without shelter, food or proper clothing.

The fact that President Harding and Judge Payne of the American Red Cross have united in this urgent appeal is sufficient indication that the need is acute and that the co-operation of the American citizenship everywhere is required to answer that need.

We all remember when the great flood disaster in Pueblo, Col., overwhelmed Arkansas valley with death and wreckage, how the American Red Cross by its appeal to the American people got response of over half a million dollars for re-establishing families. The present flood covers a much wider expanse of territory in the very heart of the busiest and richest industrial and agricultural districts of the country.

No one can tell when a disaster, cyclone, great fire, cloudburst or floods will strike any community and funds are maintained by the National Red Cross for just this kind of community insurance, but there have been 70 disasters cared for by the national Red Cross in the past year and a half, ending June 30, last and funds must be secured on a wider scale to meet the urgent requirements. The local chapters and branches in the counties affected by the flood have already contributed liberally and to the extent of their resources. This contribution is meeting the first needs, but naturally is utterly inadequate in the face of such a great calamity. The people of this county may be expected to quickly respond to this call with warm-hearted generosity and with entire confidence that their money will be applied most effectively, under the auspices of the Red Cross for the purpose for which it is intended. Contributions may be sent to the office of the local Red Cross chapter which will in turn forward it to the national organization.

LIGHT-SIX

Your satisfaction with a car depends upon your satisfaction with its performance, appearance, economy, comfort and price.

These are the vital points. And you must get satisfaction in each one if you are to be satisfied with your car as a whole.

Consider the LIGHT-SIX from this angle. It is essentially the same car as it was when introduced. It was right before it was offered. And it has made good in the service of thousands and thousands of owners. It is dependable. Its L-head motor is powerful, flexible and freer from vibration than any car at anywhere near its price.

Its gracefullines are enhanced by a lasting finish. Cowl parking lights and the cowl ventilator not only add to its good looks but are necessary for complete satisfaction.

The LIGHT-SIX stands up in service with a minimum of repair expense. This, with low fuel consumption, means satisfactory economy.

We never heard of a LIGHT-SIX that was not comfortable to ride in.

And the price, \$1045 f. o. b. factory, is out of proportion to its value. This price includes the theft-proof transmission lock which reduces the rate of theft insurance to the owner 15 to 20 per cent; large plate glass window in one-piece rear curtain, inside and outside door handles and other refinements.

And you get the priceless ingredient—prestige and high standing of the maker—who for 70 years has been building quality vehicles and selling them at fair prices.

Third-proof transmission lock reduces rate of insurance to LIGHT-SIX owners 15 to 20%
