MEARLY FOUR HUNDRED MISSING

Island Among the Missing -Story of a Survivor-List of the

LOWESTOFF, Eng., Jan. 31.—The hor rible details of the loss of the German presents unusual advantages. Thousands of acres of vacant government land, in close proximity to those already being brought under irrigation, may those already being brought under irrigation, may luttilet pop tagait.—State freight are being discussed here by crowds of people gathered at different places where the survivors remain, although a regular blizzard is blowing Another bill increasing the num- and under ordinary circumstances but ber of judges of the supreme court was introduced Tuesday. It is a vailing and the lack of news from any joint resolution for the submission point along the coast shows that there is shall hold their office for a term of five years. Davies also introduced same question: "How did it occur?" and many lives would have been saved. That, of couse, is a matter which cannot The dispute over legislative em- be decided until all the facts in the crew. rut many more might have been

into the matter. The agents of the North German Lloyd company at South cation with the German vice consul short time after the disaster became known. It is not yet definitely established that the Crathie was the offend esting points in this distressing story which require definite explanation before all the facts in the case will become generally known. For instance, there Ramsgate life boat put to sea yesterday evening in answer to signals of distress supposed to have come from a steamer storm, it is believed that she is lost and that the steamer she attempted to assist also went down. Then again, the word say it could not be the boat from which th Wildflower rescued the survivors of

The following statement of the disaster was officially given this afternoon to the Associated Press correspondent by

"The collision occurred 45 miles from Merchelling light ship. Though both the Elbe and the colliding steamer were going full steam ahead, the concussion school fund, it cannot take up the was very slight. Immediately after the stern first, her bow mounting high into More bills are being introduced the air and rendering it impossible to reach some of the boats. As everybody of the captain, who was standing on boat to touch the water was immediately is feared that she capsized. Into the boat, at the last moment, when the water was up to the promenade deck, there crowded 19 men, the women and children having rushed to the other side owing, it is said to the command that they should get into the boats there. This third boat pulled away from the ship and in so doing shortly afterward passed a lady passenger, Miss Anna Buckner, who clung to the gunwale or before she could be pulled into the boat. The 20 survivors drifted about until 11:10 a. m., the heavy seas repeatedly washing over the small craft, which was and drenching 'ts occupants, who Bueckner lay in the bottom of the boat, half drowned sad in a semi-conscious

condition. The lights of many vessels were seen all around but not one ap proached, although after daylight a steumer and two fishing vessels passed. Their crews, however, did not notice the signals of the lifeboat. Finally the waving of a shirt from the boat attract-

ed the attention of the crew of the fishing smack Wildflower which rescued the survivors with extreme difficulty *fter the collision an unknown steamer pased under the stern of the Elbe and proceeded on her course without paying any head to the cries of the people on board the sinking steamer."

Eo far as can be ascertained 374 of the assengers remain missing.

Atthough it is generally believed that the Elbe sank almost immediately after the collision, some of the survivors assert that they did not see her go down, and they express the hope that she may

Story of a Survivor. Mr. Carl Hoffman, one of the cabin passengers of the Elbe, who was resened from the lifeboat of that vessel belongs at Grand Island, Neb. He says that had the vessel which collided with the Eibe stood by the latter steamer the majority of the passengers and crew might have been saved, for he says the Elbe remained perfectly steady for many minutes after the collision before the volume of water poured into her and caused her to lurch.. Then all became confusion. Mr. Hoffman this morning, sp akin; of the disaster, says: "Those who were drowned suffered less than we who are saved." Sobs shook the rame of the strong man as he made the statement. He is a German-American, about 35 years of age, of the type comm in the western part of the United States. His face was sermed with tears which had wet his sleepless pillow all night. Continuing, Mr. Hoffman said: "There was no confusion among the passengers. They behaved well, and the only confusion was with the crew, who tried to save themselves.

"It seems strange sir, but to see these here—so few out of the saved, out of Lill, A. Wirtzelhoefer and wife, Anna the 20 saved .15 are members of the

noise of the collision sounded no louder a big drum. But when we rushed on around the boats, and the crew running here and there and cutting the rope in the tackles by which they were lowered. They were to proud on that ship. Painted ropes which should have been oiled, then they would have been lim-

entered the boat they took my boy from me. Oh God! My 7-year-old darling. Sir, had I known it was not the captain who ordered the women and children to the sta-board side of the ship they would never have taken them from me. But you see I have been a military man, and obeyed orders." · Where did you serve?" Mr. Hoffman

'In the Fi teenth Prussian Uhlans for three year ."

"Were you married in Germany." braska of German parentage. Her mother is now at Grand Island.

"It was all so sudden. When the boat got away with a great deal of us at first, we had hardly got a hundred vards from the ship when I saw a wonan floating in the water. I tried to throw something to her, but somebody shouted, "No. save ourselves"

"I could not do that, sir. Finally they got the boat up to her and with the help of another man I drew her into the boat, which was an ordinary ship's boat, about 15 feet long. I afterward found out that her name was Anna Bueckner. Poor girl! She was almost dead with fright and cold. We put her in the bo'tom of the boat and did all we could to help her. We were all wet with water which was pouring in at our collars and descending into our boots.

"We first tried to row, but we found we made no headway and therefore rigged up a short mast and with a small sail tried to keep the bow of the boat to the wind and seas. After a while we saw a smack and did all we could to signal to her, although we failed to attract her attention. We had cut a piece of canvas and made a small flag which we used for signalling. This flag blew away and the smack sailed off, causing us to despair." Here a fresh paroxysm of grief overtook the unhappy man and ai he bewailed the loss of his wife and child, his utterances were almost choked with grief. Some minutes elapsed before Mr. Hoffman was able to resume

his story and then he said: "We made a new flag with our handkerchiefs and an undershirt which somebody pulled off. I held them up against he mast and we eventually sighted the hour elapsed before we were taken aboard. She had her nets out and it in our boat had been transferred to the smack, the lifeboat seemed to slide back into the water and it appeared as if the others must be lost. But a rope was thrown to us from the smack's stern and gradually we were hauled up and ail of us were transferred to the Wildflower. When I reached her deck I fell down exhausted and offered up a prayer to God for my dead darlings and

thanked Him for having saved me." anything had been heard from the the terrible calamity. other boat, his eyes casting as pitying, appealing a glance at the reporter as ever the latter beheld and then the poor man sank back upon his pillow exlaiming: "Oh, for some telegrams.

ROTTERDAM, Jan. 31. - Interviews which were had this afternoon with Captain Gordon of the steamer Crathie. and with the second officer of that vessel, now leave no room for doubt that she was the steamship which ran into and sank the Elbe. Captain Gordon said that the Crathie, at 5:30 a. m. yesterday, was about 35 miles from Waterways. The wind was north by west, a half west. It was very dark and the sea and wind was strong. Continuing, he said: "I stood at the bottom of the cabin staircase and was going on deck when there was a heavy shock, a crack and the water began to pour into the deck. I ran on deck and saw a large,

> Mihalo Giodas, Jan Kowal, Martin

strange ship across the bows of the Crathie "After the collision we returned to the spot where it occurred or near as we could make out, but we were unable to see any sign of the steamer which we thought had proceeded on her voyage. We followed after her for some time but lost all sight of her. We waited for two hours and then proceeded to Maas Luis. We reached there yesterday and came here today for repairs which will take five weeks.'

Deal Involving \$30,009,000. NEW YORK, Jan. 31 .- All of Wildflower. But a full long terrible Brooklyn warehouse interests, with a single exception are now grouped into one.
