Train No. 7 came in Wednesday morning several hours late, although leaving Grand Island on time. Fireman Watkins says it was the worst night he ever experienced on the road, and if he had possessed a couple of dollars when he reached Kearney he would have been tempted to do like the officials sometimes do "resign."

Wednesday night a broken rail some distance east of Chappell caused the derailment of the engine and four cars of train No. 8, the local east bound passenger. No great damage was done other than the delaying of trains a few hours. Frank Tracy was in charge of the engine and it is said is marvelous how he escaped unhurt.

The 821 and the wreck of train No. 8 was towed into the yards this morning and it was a sorry looking spectacle. It is wonderful how the engine crew escaped unhurt. Fireman Bickensederfer was thrown clear of the debris, while engineer Tracy was caught by one foot in such a manner that he was unable to release himself without other assistance.

Train 23, the local freight, was started out Wednesday morning but only went as far as Nichols, by which time the locomotive had evaporated all her aqueous fluid and was compelled to "run for water" to Hershey. Life Pence, Colorado's populist statesman who was defeated for reelection last fall, after the fourth of next month will enter the service of a New York street railway company. Just whether his labor will consist in driving a pair of mules or mules or ringing up cash fares the dispatches do not indicate. It is that this party of vagaries loses its army of patriots for political preference.

Almost any day we expect to hear of our populist agitator, Dr. Somers, administering m-m-moth boluses to his victims, instead of his favorite pellets, by reason of a political change of heart.

According to the official report of the state relief commission which was submitted to the legislature Wednesday Lincoln county has received from that organization from Jan'y 7th to Feb'y 1st as follows: 67 barrels clothing and provisions, 65 sacks clothing and provisions, 6 1/2 cars supplies and flour, 2 cars coal, 77 boxes clothing and provisions, 40 barrels flour, 555 sacks flour. The same report states that during the period named the commission has shipped out about 5,000,000 pounds of relief goods, or something like 306 car load, which would indicate that the commission has been getting in pretty good time for about twenty days.

Yesterday's Lincoln Journal contains the following special dispatch from Washington, D. C.: "C. F. Idings, of North Platte, who came here several days ago to consult with the comptroller of the currency with regard to the resumption of the North Platte National bank, has left for home. Comptroller Eckels is said to have informed Mr. Idings that not only must the assessment on the local stockholders be paid up before authority for resumption is given, but that such stockholders indebted to the bank must make it safe before New England debtors are called upon to straighten up their accounts, and authority is given from the treasury department for the reopening of the bank's doors. It is probable that this will be done within the next few days and that the bank will resume its business."

Carpenter returned from St. Paul, Neb. the first of the week and Frank is happy once more. Wm. Roberts of the Birdwood was in town Monday and seemed as jolly as ever. Hard times don't affect a man who owns an irrigation ditch and raised a good crop. A party from North Platte was in town Tuesday looking up a location. How he made out we did not hear, but the old saying is that "straws show which way the wind blows" and they seem to be falling in the direction of Sutherland just at present, as a good many inquiries are being made and several business changes are likely to take place in the near future. The infant child of Mr. and Mrs. Simon Nordquist died on Tuesday last week and was buried at Pleasant Hill cemetery.
