TO SUPPRESS CRIMES AMONG YOUTH

OKAHA, May 9 .- The fifth state division convention of the Boys' and Girls' National Home and Employment Association for Nebraska convenes at the Y. M. C. A. rooms in Omaha, Thursday, May 16. The city council and school board of Omaha have passed resolutions endorsing the convention, and asking the city councils Commander Newman's Annual Report. and school boards of the state to send one delegate each to represent them at the convention and take part in the discussion of the questions on crimes among youth. The objects of the meeting are summed up briefly:

1. The convention will present for the consideratian of city, town and village officials a proposition to restore all trampfing and truant boys and girls to their

2. To compel all children and youths under 14 years of age to be off the streets and at their own homes at 9 o'clock at night unless accompanied by their parents. 3. To imprison all youths apart from old criminals.

4. To open a free public intelligence office in cities, towns and villages. 5. To protect children in hor

vicious and immoral parents. The call of President Sawyer for the convention, which was published some time ago, requests that all ministerial associations and benevolent orders in Nebraska send one delegate each. There is a prospect of a large attendance. President Hogeland, of the national association, is here co-operating with the Omaha local board in order to secure the best results. Mr. Hogeland stated to an Associated Press reporter today that he considered this the most important convention, so far as getting reliable statistics on crimes, ever held in the state, bringing out, as it will, newly discovered plans for the suppression of crimes among youth. He stated further that this meeting would set a precedent for similar meetings in every state in the Union, and if these were held promptly they would inspire city and state legislative enactments that would reduce crimes among minors in the United States fully one-half in the next five

From All Sorts of Material. Moody's method of sermon making is original, says McClure's Magazine. In reality his sermons are never madethey are always still in the making. Suppose the subject is "Paul." He takes a monstrous envelope, capable of holding some hundreds of slips of paper, labels it "Paul," and slowly stocks it with original notes, cuttings from papers, extracts from books, illustrations, scraps of all kinds, nearly or remotely referring to the subject. After accumulating these, it may be for years, he wades through the mass, selects a ranges them and finally makes a few jottings in a large band, and these be carries with him to the platform.
