Many more articles space will not permit to mention will be found in our store

### The Large Trade

which we had during the last month has given us the opportunity to make room for more goods, and we are filled larger than ever.

### AS TO PRICES AND QUALITY,

It is not necessary for us to boast. These are known to the public. We are the leaders in Quantity and Quality. This can be proven by the looks of our store—that we are filled "chock" full, from one end to the other, with the choicest of goods manufactured in the country. Our eight years' experience in business has taught us to handle the best quality of goods going, and we find it to be very successful and satisfactory to our customers as well as to ourselves.

### SHOES AND OXFORDS.

Our stock of Ladies', Misses', Children's, Men's and Boys' Shoes and Oxfords is still in the lead to defy all competitors.

Respectfully yours,

## THE BOSTON STORE.

## NORTH PLATTE PHARMACY,

NORTH PLATTE, - NEBRASKA.

WE AIM TO HANDLE THE BEST GRADE OF GOODS, SELL THEM AT REASONABLE PRICES, AND WARRANT EVERYTHING AS REPRESENTED.

Orders from the country and along the line of the Union Pacific Railway Solicited.

### NORTH PLATTE'S CELEBRATION

The people of Lincoln county and all the surrounding country are invited to visit North Platte on July 4th and participate in properly celebrating the anniversary of the nation's birth. Our citizens are determined to make this the greatest celebration ever witnessed in western Nebraska, and neither pains nor expense will be spared to make it so. An excellent programme of sports is being arranged for the entertainment of visitors, and it is said to say that all who visit us will heartily enjoy themselves and be royally received.

A meeting of the executive committee was held last night at which the various sub-committees were appointed with instructions to get immediately to work and be prepared to report on Thursday night. If they are able to do so we will give the program in detail in Friday's issue of this paper.

T. Fulton Gantt has been invited to deliver the oration, and it is a safe guess that he will rise to the occasion and deliver an address that will be worth hearing.

### TO DESTROY CUT WORMS.

EDITOR TRIBUNE.—The "American Florist" for June 1st, gives the following remedy for destruction of cut worms, which seems to be reasonable, and as I hear much complaint of the ravages of these pests this season, it is worth while to try it: Paris green 3 lbs., sugar 3 lbs., wheat bran 80 lbs. Mix dry, and sift on the ground inhabited by the worms.

For small gardens and flower beds about one-twelfth of this quantity would probably be ample.

Yours truly,  
F. E. BULLARD.

### FAIR WARNING.

As one of the indignant citizens whose slumber was assaulted by the horrible dim of the charivari performance last night, I would most anxiously wish to know it is necessary for a citizen to file a complaint before our officers will act in the matter of suppressing this lawlessness. If this is needed I shall in the future know how to proceed, and an information will be promptly lodged with the proper officers. This is a fair warning.

SECOND STREET.

—Isaac Folk, of Cottonwood Springs, was on our streets last Saturday. He informed us that he had our dentist extract all his teeth and that since the good rains had set in that he intended having the doctor make him a new set so as to be ready to devour his share of this year's crop when it matures.—Gothenburg Independent.

—The juvenile bicycle riders of this city will have a road race on the 4th of July. The route will be from the South river bridge up Spruce street. This will attract considerable interest and be the means of a great deal of amusement.

—With an excellent corn crop prospect this year in western Nebraska, and a protracted drouth staring a portion of the people of Illinois and Indiana in the face, it looks as if our citizens would be able to reciprocate the charity shown them last winter.

—Hans Gertler this week received a cargo of genuine imported "Woodland" Schweitzer cheese which he is serving to his patrons.

### Nichols and Hershey News.

Another fine rain prevailed in this locality last Sunday.

We were informed yesterday that the eagle would not scream at Hershey the coming Fourth of July as was reported last week, but would take its flight to Sutherland, where he will appear in all his pomp and glory.

J. W. Prickett and wife and D. H. Eyerly and wife attended M. E. quarterly meeting services at the Lemon school house about seven or eight miles north of the hub last Saturday and Sunday.

It is stated that a soda and salt-petre factory will soon be erected at Hershey, as a certain party from that section sent a quantity of what is known in that country as alkali to Washington recently, where it was analyzed and pronounced soda and salt-petre instead of alkali.

Mr. and Mrs. D. H. Eyerly are enjoying a visit at this writing from a daughter residing down the line.

Some of the sand hill grangers who moved into the valley during the past winter and spring, now wish they were back upon their old

stamping grounds since the recent rains.

Notwithstanding the inclemency of the weather on last Sunday W. J. Crusea accompanied by A. M. Mason came up from the Platte and preached to a few who had assembled at the school house.

Will Brooks completed his work as assessor of this precinct and returned the books to the county clerk the first of the week.

S. H. Phinicie has some of the finest spring grain that we have seen in many a day.

Superintendent Funkhouser and several others, from these parts transacted business at the Platte Saturday.

There has been quite a quantity of water flowing in the South river since the recent heavy rains.

C. L. Patterson of the county seat was visible in this locality last Friday.

We understand that Henry Fogel has about, if not quite, recovered from his recent accident.

It is with pleasure that the horny handed granger can now pass through his fields of growing grain without having to take a shovel to work in the mud and water to irrigate the same.

W. O. Thompson is superintending an irrigation ditch in the vicinity of Cedar Rapids at present.

A few indulged in a social dance in the town site hall at Hershey Friday evening.

Nate Trego, of McPherson county, was the guest of the Browns recently. He expects to depart for Philadelphia soon on a visit to his mother whom he has not seen for about nine years.

An icecream and strawberry festival will be held under the auspices of the Baptist society at Hershey on Friday evening, this week. Everybody invited. A pleasant time anticipated.

Albert Davis, son of A. L. Davis, and Guy Congdon son of engineer Congdon, all of the Platte, visited this place on their bicycles Thursday last.

Children's day will be observed at this place next Sunday with appropriate exercises.

Xavier Toillion is erecting a new fence around his residence which will add to its already fine appearance.

Mrs. J. H. Hershey, from the western part of the precinct, and mother, Mrs. McCrary, of Council Bluffs, called on Mrs. M. C. Brown Saturday last.

Another carload of lumber for the construction of checks and bridges along the F. & M. canal was sidetracked at this place the last of the week.

It is stated that when a certain young man residing up the line can not take his best girl to a dance he takes her brother. "Anything to keep peace in the family."

Some of the parties who moved from the hills upon some of the low land on the Paxton & Hershey ranch up west, begin to think that "all is not gold that glitters" when they have to take a boat to get into their corn fields.

A large acreage of sod will be planted to corn in the valley this week if the weather will permit.

"Dug" Brown planted eight acres of potatoes the latter part of last week.

John Toillion residing near the school house has seven or eight acres of the finest barley in the valley.

Word was received here a few days ago to the effect that the fine young mare which Andy Struthers took from here to Sidney last fall, when he moved to that place, had recently killed herself in trying to escape from a corral in which she was kept.

—The "straight" democrati state central committee has been summoned to meet in Omaha on the 27th inst.

N. E. A. at Denver, July 5th to 12th, 1895.

The quickest time and best train service is offered by the Union Pacific System. Low rates and liberal arrangements for a charming variety of Excursions to Western Resorts, comprising a tour through the famous Yellowstone National Park; trips to San Francisco, Portland and Salt Lake City; the famous mountain retreats of Colorado; the Black Hills and renowned Hot Springs, South Dakota; the Summer School at Colorado Springs, and other attractions. See your nearest Union Pacific agent or address

All our goods at fifty cents on the dollar from now until July 4.

All our \$1 goods go at 65 cents. Our 50-cent all-wool Challies go at 35c  
All our 75-cent goods go at 40 cts. Our 25-cent all-wool Challies go at 15c  
All our 50-cent goods go at 30 cts. Our 15-cent Challies go at 10 cents.  
Our 10-cent Challies go at 5 cents.

All our summer goods must go and we are determined to make special cut prices in order to sell them out. In our Millinery department we have decided to make the same reduction. HATS AT HALF PRICE, and all goods in the store the same way. Come at once and secure these bargains before they are closed out.

## RENNIE'S. RENNIE'S.

An employe in the government printing office was discharged for writing a letter to a friend in Arkansas favoring the free coinage of silver. The man who wants to hold a job under this democratic administration ought to have better sense than to utter a word not in harmony with Czar Cleveland's policy. Our plethoric president brooks no nonsense on the part of his beneficiaries. Government employes who "talk too much with their mouths" will quickly learn that democracy is not "what it used to was."—Albion News.

C. A. Baldwin has just returned from Elm Island where he laid out three irrigation ditches, one of them in this county, and the second over the line in Buffalo county, the third one in Hall and Adams counties, the head being in Adams. Some thought the surveyer and assistants crazy as they had to wade through water knee deep in doing the work. But the rain is not going to stop the work. The parties are going to be ready for dry weather if it comes again.—Grand Island Independent.

A letter received by Mr. Bagley from a friend in Iowa, near Tipton, says there have been twelve frosts in succession, then came two days of hot south wind and then chaos as far as the crops were concerned. The people will now replant their corn the second time, the first two stands having been entirely killed. "Dry weather" is their cry of distress. Their prospect for a crop of hay was never so poor as at present. He closes his letter by saying, "Nebraska looks as prosperous as Iowa," and then advises all to stay till good times arrive.—Curtis Courier.

M. A. Daugherty last week had an interview with parties representing a Chicago firm which is looking up the irrigation district bonds with a view to purchasing them. He states that he has no doubt now of the district being able to find market for the bonds his district proposes to vote. He also had a talk with them concerning the project to organize on the South Platte. They at first looked upon the plan with suspicion on account of the river going dry during the summer months. But in considering a system of reservoirs to utilize the spring, fall and winter flow, they were favorably impressed, as they have great faith in the reservoir plan. Mat will go to Omaha Monday to see these same parties again, at which time Chas. Ross, the engineer who is making out estimates of the work, will submit his report to them for inspection.—Keith Co. News.

Farming by irrigation you use water when you want it; depending upon rainfall you use it when you can get it. There is a distinction and a difference here that is quite fully appreciated. But it is still growing upon the people, and it will one day result in a windmill and reservoir system of supplementary irrigation for a large scope of country that regularly receives an adequate annual rainfall, but which in point of time is never properly apportioned so as to produce the best effects in the cultivation of the crops grown on those lands. This is a feature of irrigation that is receiving the attention of thinking men to-day as much as is any of the seemingly more important features. The need of it has long been felt. \* \* \* The number of worms, bugs and insects generally has been sufficient this year to overdo the demands of the traditional early bird, and all of his brothers, sisters, cousins and
