MINOR MENTION.

The rehearsal for Little Tycoon will be held on Thursday evening. A North Platte young lady well and favorably known, will be led to the matrimonial altar the early part of next month.

Farmers on the north side have been using water from the Birdwood canal for ten days past. It is believed the trouble which delayed getting the water has been remedied.

The July number of the Western Irrigator, published at Sidney, is quite an improvement over the initial number. This magazine should be read by all those interested in irrigation.

M. A. Daugherty, of Ogalalla, passed east this morning enroute to Lincoln where he will institute proceedings in the supreme court to test the constitutionality of the district irrigation law.

The Sunday school of the Baptist church will picnic in the grove on the farm on Supt. W. L. Park, five mile west of town next Thursday, July 25th. All who wish to go are requested to meet at the Courthouse square at 9 a. m. and bring their lunch with them.

Not all the delegation enumerated in Friday's issue went to Omaha, North Platte representatives being confined to Messrs. Leffang and Ellis. They in company with other business men from points down the road interviewed the officials of several roads at Omaha, but failed to secure at the time any concession in regard to freight rates. They were promised, however, that the matter would be taken up later and more fully considered.

The debate at the Y. M. C. A. rooms last night was one of unusual interest, and the attendance was much larger than usual. The question was "Resolved, That America has mistreated its Indian wards." Both sides of the question were ably handled. Messrs. Ridgely and Elliott taking the affirmative and Messrs. Neal, of Gandy, and Edmonds, of this city, the negative. The judges gave a decision in favor of the affirmative. Prior to the debate a short programme was rendered consisting of an address by Sec'y Hollingsworth, a recitation by Miss McNicol of Myrtle, an oration by Fred Elliott and two selections by the Y. M. C. A. glee club. The occasion was very much enjoyed by the audience.

All members of the above organizations, and all other honorably discharged soldiers, and their families are respectfully invited. The start for the grounds will be made from the court house at 9 a. m. Those not having conveyances will be furnished transportation.

M. MASON, Commander.

—THE TRIBUNE's exhibit of agricultural products has been augmented by excellent samples of wheat and oats stalks grown by W. H. Null.

—The Gordon cornet band is now under the direction of that old veteran Prof. N. Klein, and weather permitting, will give its usual concert next Saturday evening.

—Chas. Hendy, Ed. Elliott, Geo. McMichael and several other young men, accompanied by a number of young ladies, held a picnic at McPherson Saturday.

—The old soldiers of this vicinity to the number of thirty-five, last Saturday afternoon had their photographs taken in a group. The camera came out of the engagement in good condition.

—The editor is indebted to Henry Wilkinson, of the south side, for a liberal supply of green corn. Mr. W. has been successful with his vegetable farm this season, and has been supplying our citizens with products therefrom for a number of weeks past.

—The "anti-bloomer" ladies' bicycle club members may now be seen at 6:30 a. m. taking their morning "constitutional" ere the beginning of their daily cares. Although the ladies thus willingly disregard the sophistries of the poet Thompson, yet it appears to have a very beneficial effect upon them.

—W. E. Beach, of this city, who is visiting relatives in Milanville, Penn., writes THE TRIBUNE that it is very dry there, the creeks and springs being about dried up, and the Delaware river lower than it has been in forty years. He says farmers will have about one-third a crop.

—Rev. Graves will deliver a lecture on some educational topic at the Methodist church on Friday evening of this week. A musical and literary programme will also be rendered. We believe this entertainment will be under the auspices of the summer normal school, and a cordial invitation is extended to the public to be present. Full programme will be published in our next issue.

—Preparations are being made in this city for the formation of a full reed military band of twenty or twenty-four instruments. If the organization is conducted in a fair spirit of friendly rivalry toward other music societies, without any petty spite of jealousy, and with a determination to reach the top, THE TRIBUNE can heartily say "amen." A band organization is like that of any other society—a spirited competition acts as a healthy stimulant to the greatest success.

—Observer Piercy furnishes the following data for the coming month of August as compiled from his records for a period of twenty years: The mean temperature of the month is 71 degrees; the warmest August being that of 1881 with an average of 77. In August 1877 the fall amounted to 5.03 inches. The highest velocity attained by the wind was August 28, 1877, when it reached sixty-six miles per hour.

—Deputy sheriff Hill, of Frontier county, was in the city Monday last in pursuance of business peculiar to his office. He was armed with a warrant for Miss Jessie Ridgway, daughter of Mrs. B. B. Baker, of this city, complaint having been made by the father of Miss Ridgway, who charged her with obtaining money under false pretense. It seems the young lady was sent money by her father to come home, (to Curtis, Neb.), from school. Instead of going to Curtis she came here, and has made her home with Dr. and Mrs. Baker while here, and has shown no disposition to change her location. The officer failed to find the young lady, and was compelled to return home without her. A father's cruelty and neglect is said to be the reason of the young lady's unwillingness to return to her father's domicile.—Lexington Pioneer.

—Four young men were arrested Sunday night for raising a disturbance at the gospel tent on the north side, but were subsequently released on promise to not do so again.

He was picked up and his injuries found to be so serious that he was at once conveyed to the U. P. hospital at Denver by special train.

WHEEL CLUB MEETING.

The Wild West wheelmen held a very enthusiastic meeting at the courthouse last evening, about fifty members being present. Of course the first business considered was that relative to a track. Mr. Park stated that he had written to the Dillon heirs in regard to donating ten acres of land just east of the city for park purposes, and it was agreed to wait one week for an answer. If at the end of that time a favorable reply was not received the committee should go ahead and repair the track at the fair grounds. On motion it was decided to have an open wheel meet in this city on the 2d and 3d of September. It was also voted to grant members of the ladies' wheel club the privilege of becoming honorary members of the Wild West wheel club.

The club colors selected are peacock green, Chicago red, and Nebraska golden-rod; the "W. W. W." monograms being worked in these colors on the front of the white sweaters worn by the members. The club will wear regulation caps, and on motion it was decided to have a bugler to act as herald and to sound commands for club movements. A committee was appointed to confer with the railroad company in regard to rates in case twenty-five or more members should desire to ride home after making a trip to Kearney, or some equally distant point. Considerable other business of a minor nature was transacted prior to adjournment.

The great enthusiasm displayed at the meeting augurs well for the future of the club. A schedule of runs for the month of August is being compiled by Captain Hainline.

THE Y. M. C. A. RECEPTION.

The reception by the Y. M. C. A. to the citizens of North Platte at Keith's hall Friday evening was very largely attended, the audience being estimated at fully 400. The temperature of the room was such as to cause some discomfort, but the exercises were of a very entertaining nature and the people were unmindful of the heat. The programme rendered was not exactly as had been prepared, several numbers being cut out in order to give Prof. Clemmons a place, and was somewhat more formal than originally intended.

The programme opened with a selection by the Gordon silver cornet band, followed with a duet by Messdames Stoddard and Hinnman which was well rendered. Miss Nellie Hartman recited in a creditable manner, and the Lutheran choir sang an anthem very nicely. Prof. Clemmons, president of the Fremont Normal school, was then introduced and spoke for about forty-five minutes on the subject "What if I Could?" The Professor is a very entertaining talker and pleased and interested the audience. This was followed with a solo by Mrs. Doolittle in which that lady proved that she possesses an excellent voice. Miss Boehme entertained the audience with a recitation and the Catholic choir sang an anthem very well. Secretary Hollingsworth made a brief address and the audience was then invited to partake of lemonade and cake which was served in the Y. M. C. A. rooms by the ladies' auxiliary. About 200 accepted the invitation and were seated around small tables handsomely decorated with flowers. This part of the programme proved very enjoyable. Probably more would have remained for refreshments had it not been for an approaching storm. The reception was a success throughout.

For sale, a good heavy work team. Inquire at the Wilcox Dept. Store.
