Attorney Deuprey and Detective Lordsburg. Morse have been busy at Cooper college and have summoned several students, who are reasonably positive that they saw Durrant at the college between 1 and 2 o'clock on the afternoon of April 3. As far as it goes, their testimony will not be in conflict with the case presented against the accused student. The prosecution has made no effort to trace the movements of Durrant during the afternoon until about 2 o'clock, when Mrs. Mary Vogel swears that she saw him in front of the normal school on Powell street. The defense has been unable to find any student who saw Durrant at the college after 1:30 o'clock. WILL SETTLE THE GAME QUESTION.

China Promptly Complies With the Demands of Great Britain.

IMPERIAL DECREE ISSUED

Other Officials Implicated In the Outrages Upon Missionaries Will Be Punished. Trouble In the Far East Averted. Other News From Abroad.

Washington, Sept. 30.—Minister Denby cabled the state department from Peking today as follows: "Imperial ecree issued. Abstract; Responsibility for Szechuen riots rests with officials Viceroy Liu careless; took no notice of the beginning of the riots. He is deprived of office, never to be employed. Other officials are to be punished."

This would seem to indicate that the crisis impending in China, involving a naval demonstration by the British forces, has been averted for a time at least by a compliance with the principal demands of the British. It cannot be learned whether the decree concedes all of the demands made, and the cablegram makes no reference to the sweep ing conditions imposed by the British minister that the guilty officials be pun-Viceroy Liu, whose fall is announced, has been in trouble before. It is alleged he was found guilty last November of misappropriation of funds, and later on the French investigations showed that he was responsible for the Cheng Tu riots. He was obliged to pay an indem-nity of \$800,000 to the French Catholic missions from his own pocket. The conclusion which has been brought about by British threats will not involve the abandonment of the independent investigation into the Cheng Tu riots, which has been ordered by Secretary Olney. A considerable part of the crop will never enter commercial channels. The yield of oats is phenomenal, exceeding all expectations and making new records in Iowa and the northwest. The measure from the machine has been a constant surprise since the threshing began. The crop is estimated at 9(4, 000,000 bushels, or 210,000,000 larger than last year with 30.0 bushels to the acre. Iowa alone has over 200,000,000 bushels, with nearly 47 bushels to the acre. Quality is not in keeping with the size of the crop, much grain being stained. Condition of corn crop Oct. 1 is 92.5, a high average. It is matured, safe from frost and drying rapidly. There is every indication of a rate of yield larger than has been anticipated, necessitating a final upward revision of all estimates of the crop.
