—Mayor-elect Day tells THE TRIBUNE that the list of applications for appointment as marshal and night watchman is about as long as his arm. There are more applicants for night watchman than for marshal, probably by reason of the latter position being more easily secured. Mr. Day thinks he will write the name of each applicant on a slip of paper and mix them up in a box, draw them one at a time and present them to the council for confirmation. If the council rejects one, another will be presented. This would be a sort of a lottery plan, but it would be giving each applicant an equal show.

—A merchant's expenses, rent, clerk hire, insurance, taxes interest, fuel and lights, cost so much per minute whether he sells anything during that minute or not, now if he has sold ten dollars worth during that minute at a profit of ten per cent he has earned one dollar, but if he sold only five cents worth and made one hundred per cent profit he has gained only 2 1/2 cents. So you can see yourself how it is that while we are always glad to sell in little bits, still it isn't the cheapest way for you, nor the best way for us. People who buy in the smallest quantities always pay the highest prices. This is a law of business the world over, and you can't change it. Just keep account and see how much you can save by purchasing from **RICHARDS BROS., THE FAIR,** during the present month or year.

The action of Mr. Harrington is timely and we trust congress will heed his request.

It is said that they have no government, no laws, no written language. Fresh water is altogether unknown to them. The women have no housework, no washing, no fancy work, no amusement. There is only four months of light in the year. They keep time by dropping a bone in a bag. A bone is dropped in a bag each day that the sun is first seen. Any one will become intensely interested at once in the lecture as she stands before them a type of this peculiar people, dressed in her native costume of white polar bear skins. ## It is Easy

To advertise an article that you don't intend to supply, or hang out goods with a price on and then not have the size in that, but have something else (just as good.)

WE DON'T DO BUSINESS THAT WAY.

When we advertise an article we mean to supply just what we say we will. When we quote a price that is our regular price, and not a bait. If you buy an article of us and see one you think is cheaper somewhere else, buy theirs and bring ours back and get your money. We always treat our customers right. —The Wilcox Dept. Store will order barb wire delivered at North Platte at \$2.50 a hundred.

—It rains and snows in western Nebraska these days without apparent effort. It began raining Sunday night and later turned to a decidedly wet snow which continued part of yesterday forenoon. The precipitation of the storm amounted to one and one-fifth inches making the roads a sea of mud. Old settlers tell us that they do not remember a time when the roads in the valley were in a more soft condition. But we are thankful for the moisture, for though it interferes with sowing small grain, at present, its beneficial effects will be demonstrated later in the season.

—Judge Ray on Friday last officiated at his one hundredth wedding ceremony since assuming the county judgeship a little over five years ago. The contracting parties in this one hundredth ceremony were Joseph Gough and Miss Nellie Alexander, and as a souvenir of the occasion the Judge invited the couple to Broach's gallery, where large sized photographs of the couple and the Judge were taken, and presented to Mr. and Mrs. Gough.

The programme was unusually interesting consisting in part of a solo by Mrs. M. Doolittle, a quartette by the Misses Cooper, a song by four children, a recitation by Miss Julia Murphy, and addresses by Messrs. Hoagland and Beeler. Following this was a sham battle between the Confederate and Federal troops followed by the surrender of General Lee to General Grant, closing with a well arranged and beautiful tableau in which about fifty young ladies took part. The entertainment was a most successful one and reflected much credit upon the committee in charge.

### Railroad Happenings

Engineer Lu Farrington returns to work to-morrow after a thirty-day lay-off.

Fireman Schwaiger made final proof Saturday upon his tree claim near Paxton.

It is announced that brakeman John Simpson will entertain a number of his gentlemen friends at a "pink tea" to-morrow evening.

Liberal shipments of oranges are being made over the Union Pacific at present, and form an important share of the east-bound traffic.

It is said that the marriage bans of a well known fireman and a popular young lady will be published next Sunday at St. Patrick's church.

Several engines from the first district were sent to Cheyenne the latter part of the week, where they will be stored until business on the road increases.

A Pennsylvania exchange announces in bold head lines that a train on the Pennsylvania railroad made a run of 122 miles in 159 minutes. Runs of such nature are frequently eclipsed on the Union Pacific.

Moore Mitchell is down from North Platte visiting with his parents, Mr. and Mrs. Thos. Mitchell, of Grant precinct. Moore holds the position of brakeman on the freight division between the Platte and Sidney.

The heavy fall of rain and snow yesterday submerged the Union Pacific tracks yesterday in the vicinity of Hendry, and in the afternoon the work train and a large number of men were sent down to strengthen the embankments.

A Union Pacific "spotter" named Kendrick, was arrested in Cheyenne Saturday for stealing money from a nickel-in-the-slot machine. Such a man is certainly a bright one to send out as a detective and spotter to watch the actions of trainmen.

Some friend in Denver—presumably Joe Perritt—shipped by express Saturday a brindle bull dog to night caller Asa Searle. The express charges were \$6.75, but the animal is worth more than that to Asa as a body guard.

### INVOLVES MEN OF PROMINENCE. Suit Brought Against the Co-operative Town of Elizabethton, Tenn.

St. Louis, April 12.—A special to THE REPUBLIC from Bristol, Tenn., says: Suit was brought against the co-operative town company of Elizabethton, Tenn., asking for a receiver and also that the property of the company shall be subjected to the payment of the company's indebtedness, amounting to \$1,000,000. It is charged that the company was insolvent when its property was transferred to the Mantanga Land company more than a year ago. It is also alleged that the deal was a deceiving makeshift by which John G. Carlisle, Robert P. Porter, Benjamin Butterworth, Judgo McComas and other men of national prominence, who were directors in the company, hoped to escape the responsibility incident to the company's failure. It is said there is a deficit of \$50,000, which the stockholders will have to make up. Attorneys have been employed to bring suits for this purpose in Kentucky, Ohio, Tennessee, Virginia, Maryland and other states.

### FIFTEEN OF FACULTY LET OUT. Populists Making a Clean Sweep In Kansas Agricultural College.

MANHATTAN, Kan., April 12.—The dismissal of Professor George T. Fairchild, for 18 years president of the Kansas state agricultural college, seems to have been only the beginning of a clean sweep proposed by the board of regents. The dismissal of Professor Fairchild was followed by the discharge of 14 other members of the faculty and numerous other employees of the institution. No charges were preferred against any of the teachers released. The board of regents, which is dominated by a Populist majority, simply stated that the discharged instructors were "not in harmony with the fundamental principles of the administration." Of the old faculty but nine members were retained.
