The fire laddies in all the other companies speak very favorably of Mr. Field's system, and when the fire department endorses it there is no question but that it is a good thing.

—THE TRIBUNE is not by any means a "booster" for the waterworks company, but in fairness it is ready to give the company credit for being generous to its patrons and furnishing the city—with few exceptions—with excellent service. As to the suit pending between the city and the company there are points of law involved which of course the courts must decide, though it is generally believed by those who have investigated the matter that the city will buy no Christmas presents with the money it recovers from the water company.

S. land office examiner, who has been in the city for a couple of weeks looking up homestead and timber claims which have been abandoned by the entrymen, has found over fifty claims which he will recommend to be cancelled, and thinks that he will find as many more before he completes his work. When through with this district he will visit the Alliance, Broken Bow and Sidney districts and pursue a similar course. Ashley is a candidate for the populist nomination for county treasurer, and is firm in the belief that he can knock Holcomb and Orr out of the convention with ease, notwithstanding the existence of the court house ring.

—Thos. J. Matthews, the U. S. land office examiner, who has been in the city for a couple of weeks looking up homestead and timber claims which have been abandoned by the entrymen, has found over fifty claims which he will recommend to be cancelled, and thinks that he will find as many more before he completes his work.
