Entered at the North Platte (Nebraska)

FRIDAY, FEBRUARY 4, 1898.

-The new management of the Union Pacific is using the pruning knife in all directions and in all departments and North Platte will feel the effects thereof temporarily at least. In accordance with in structions from headquarters twenty-three employes of the local shops and round-house will be given their time this evening. In making this reduction a different plan will be pursued than heretofore. It has been customary to discharge the men who have been in the employ of the company the least time, but on this occasion the old employe will suffer with the new-a man's competency will cut a big figure as to whether he is retained or "shot out of the box." Coming in almost the dead of winter the reduction is to be deplored, but it is thought that this cut in the force will, in all probability, be only temporary, and that when the new management gets the road in good working order there will be a gradual replacement of men and that the usual number will be employed.

-Supt. Ebright has not resigned the superintendency of the city schools, as reported, neither does he expect to take such action. few small-bore populist politicians are responsible for the rumor. Mr. Ebright will have a hearing on March 18th, and if he is proven guilty of the charges preferred against him, it will then be time for our over-zealous and exceedingly pure and honest pop friends to get in their work.

-The Chicago weather forecast for North Platte and vicinity: Partly cloudy, with moderate cold wave to-night; brisk to high northwest winds; Saturday fair. The maximum temperature yesterday at North Platte was 44; minimum in past 24 hours 14; at 7 a, m., 36; precipitation 00. For the same period and time one year ago the maximum temperature was 38; minimum 26; at 7 a. m. 32; precipitation, trace of snow.

Yesterday was T. C. Patterson's fifty-second birthday, and in the evening he was considerably surprised to have a call from about forty of his acquaintances, principally grand army men and their wives. The evening was devoted to games and social conversation, followed by the serving of refreshments. The evening was pleasantly spent.

BABY'S SHARP EYES

We hear much of the "sharp' eves of little children. What a pity that when we need sharp eyes most we have so neglected and wronged these "wells of kindness" that they become wells of darkness instead. Do not allow this to be if in your case there is yet time. We make a specialty of fitting glasses to both old and young and guarantee satisfaction. Do not neglect your eyes. HHHCLINTON.
