Chas. Samelson writes friends in town that he arrived in Manila safely after a fair voyage, and that he would be assigned to the Ninth regiment which was then on the fighting line. Only a few days ago this regiment was in a skirmish and had several men killed, so it is likely that Charley by this time knows something of the "music of the Mausers."

W. F. McGlone & Co. are selling Mason fruit jars at the following prices. Pints 40c., quarts 50c., half gallons 55c.

The two women who have been in charge of the local Salvation barracks will leave Monday for Arkansas. Other Salvationists are expected to arrive to continue the work here. It is understood that the receipts at the barracks have been very light, and only by contributions of provender have the workers been able to keep the gaunt animal from the door.

Bob Arundale left Wednesday for the south part of the county for the purpose of attempting to stem the tide which threatens to drown the fusion crowd. Reports from the Third commissioner district indicate that the republican nominee is likely to be elected and in that event Bob will probably lose his job as floral superintendent of the court house lawn. And this is the reason Bob has gone south. About the first of January he will go "straight up."

Loose hay and baled hay always for sale. Harrington & Tobin.

Miss Helen Hershey and Miss Pauchon Duncan had a narrow escape from serious injury yesterday noon. They were driving home in their dog-cart and at the corner of Vine and Fourth streets a heavy dray wagon collided with the cart upsetting it and throwing the children out. Fortunately they escaped with only a few bruises. The pony was badly frightened and started to run but was stopped within a short distance.

North Platte is growing very metropolitan, the latest evidence of such growth being a holdup on DEXEY street. Dennis Moynahan's oldest boy was the victim. The only money he had in his possession was a dollar and he had self-possession enough to slip that inside of a belt he was wearing so the would-be high-way-man failed to find it. The only description the boy can give of his assailant is that he had a black beard. The episode occurred late Monday evening at the head of the alley between Fourth and Fifth streets.

End of Bank Trust.

Upon the recommendation of Receiver Doolittle, Comptroller Dawes has set January 1st, 1900, as the date for the final settling up of the North Platte National Bank trust. The assets of the bank which have not been realized upon will be offered at public sale on Saturday, December 30th. A full list of the assets which are to be disposed of on that date will be published for thirty days before the sale in order to give every one who desires to bid upon them ample opportunity. The bank has paid dividends to the creditors amounting to eighty per cent of their claims, and a final dividend will be paid when the affairs of the trust are wound up.

An Evening Party.

Mr. and Mrs. John Halligan threw open the doors of their new and beautiful home last evening and invited in a number of their friends to spend the evening. They were very charmingly assisted in entertaining by the Misses Josie Goodman, Adda Kocken, Nellie Hartman, Ruth Patterson and Jessie Bratt. No set form of entertainment had been prepared but each one contributed his share towards making the evening one of the most delightful ever spent at a social gathering.

Among those who enjoyed the hospitality of Mr. and Mrs. Halligan were Messrs and Mesdames Miltonberger, Clinton, Rincker, Redmond, Dentler, Kirschbaum, Pizer, Patterson, Tracy, Muldoon, Beeler, Ridgely, Wilcox, Parsons, Hoagland, Jr., Bratt, Birge, Baldwin, Streitz, Wood, Hershey, McDonald and Hinman; Rev. and Mrs. A. HANNAH, M. D. D. O., North Platte.

Railroad Notes.

Engine No. 1721 is out of the shops resplendent in a new coat of paint. It is being broken in today.

The roofing gang has almost entirely completed the re-roofing of the machine shops and will soon leave for other work.

G. W. Hood returned to his work as day operator in the telegraph office this morning after having enjoyed a ten days vacation.

Chief dispatcher Hilliker was in Ogallala yesterday looking after some matters in connection with the changing of the track at Bosler Hill.

The interior of the offices at the freight depot is soon to be treated to a fresh coat of paint, an improvement which will be gladly welcomed by the clerks.

D. Newman, who was formerly one of the proprietors of the upper Dewey street market, returned to his home in Gothenburg Wednesday morning.

Engines No. 1728, No. 1737, No. 1739 and No. 1740, which have seen more or less service on the second and third districts, will be sent to the Fourth district.

Jack Nelling was down from Sidney Wednesday consulting with Union Pacific officials concerning the improvements in progress on the Sidney property.

As the new fast train on the Union Pacific now seems to be almost a certainty railroad men are putting in their leisure time figuring out who will get the new runs.

Engines No. 671, No. 683 and No. 698 will be sent to Omaha and will probably see service on the First district as the ten-wheelers have all been sent to the other districts. Engine No. 687 will be sent to Kearney to be used on the K. & B. H.

Winslow Pierce, one of the principal stockholders of the Union Pacific, occupied special car No. 100 on the second section of train No. 1 yesterday afternoon. He was enroute to Salt Lake City. Judge Kelly occupied special car No. 014 on the same train bound for the same place.

The track at Bosler's hill near Ogallala was lowered the remaining three feet yesterday by a force of men working under Engineer Stenger. This last cut makes a total cut of six feet which has been made at that point. The change yesterday was made with less interruption to traffic than was caused by the previous one.

Geo. Vroman returned yesterday morning from Omaha where he had been attending the meetings of the B. of L. E. grievance committee. The differences between the B. of L. E. and the B. of L. F. and the Union Pacific have not yet been adjusted. General Manager Dickinson having asked for a thirty days continuance.

The interior of the roundhouse is being thoroughly cleaned and will

be treated to a coat of whitewash. The work of putting the new smoke-jacks in place was commenced yesterday and in a short time the engines will be headed in instead of backed in as has heretofore been done. An additional stationary engine is being installed between the old one and the new wall, the old engine having been found to have insufficient boiler capacity.

Engine No. 1734 came up from Omaha Wednesday night and will go into service on this part of the division. This engine has an extension front and a straight stack. If the straight stack proves successful on it the diamond stacks on all of the 1700s will probably be replaced by straight stacks. One of the greatest drawbacks of the 1700s has been the amount of smoke they trailed back towards the cab. The straight stacks will do away with this and if the engines steam equally well with them they will be a great improvement.
