CLINTON, THE JEWELER.
 U. P. Watch Examiner.

Mrs. A. M. Lock spent Wednesday evening visiting relatives in Sutherland.

Yesterday's summer temperature had rather a disastrous effect on the ice at Pawnee Lake.

Prof. E. C. Elliott is spending the day in town as the guest of his parents. He is enroute from Leadville to Chicago.

Mr. and Mrs. Chas. R. Osgood came down from Denver this morning and will spend a week here visiting relatives.

The Commercial Club will hereafter hold its weekly meetings on Thursday evening instead of Monday afternoon.

District court will convene in Ogallala next week. Judge Grimes, Reporter Cary and several attorneys will go up Monday.

W. T. Brown received a telegram yesterday afternoon containing the sad intelligence that his son Dave had been very seriously injured in a wreck near Rock Springs and had been sent to the hospital there. Mrs. Brown and his wife left on train No. 101 for Rock Springs.

Prof. Brandon's orchestra will play several selections during the presentation of "The Two Orphans" at the opera house next Tuesday evening.

John P. Sutton, a well known frontiersman, who was a resident of North Platte during its early history, died at his home in Russell Gulch, Col., a few days ago at the age of seventy-one. During his life time he made and lost several fortunes.

It is said that Conductor Thos. Cahill is slated to succeed N. W. Chapman as assistant superintendent on the First district and its branches. Tom has many friends here all of whom hope that the rumor will prove to be a reality as he will undoubtedly make a splendid superintendent.

Silk Gingham at The Leader. The necessary alterations and renovations in the Foley storeroom are very nearly complete and Rush & Murray expect to move into it next week. As soon as they move they expect to increase their stock. Their store will present quite an attractive appearance with new fixtures and a fresh stock of goods.

Kempton a new piano will be used. The public is cordially invited to attend.

H. T. Club Reception.

The members of the H. T. Club entertained thirty young ladies at a colonial reception at Federhoof's hall last evening. The hall was very prettily decorated with flags and bunting in honor of the occasion. The club members were gowned in Martha Washington costumes. One of the features of the evening was a minuet danced by fourteen stately dames to music from a piano which the guests were assured was originally owned by Martha Washington. An old fashioned spelling match created much merriment and effectually proved that both the club members and their guests had forgotten how to spell. As a consolation to those who were approaching dangerously near to that age where they will be spoken of by the world as old maids the president read an article which proved conclusively that now-a-days a woman was not to be considered an old maid till she had reached sixty. During the evening the guests were regaled with ginger snaps and Adam's ale from a punch bowl presided over by Miss Frances McNamara. At eleven o'clock ice cream and cake were served. The reception ended shortly after twelve, the guests expressing a hope as they bade their hostesses "good night" that the clubs receptions would be many and frequent.

Gun Club Shoot.

The live pigeon shoot held by the Gun Club yesterday afternoon was attended by a large crowd. The two teams were captained by W. S. Dolson and Alvin Pool, the former winning by a score of seventy-one to sixty-six. The captain of the defeated team was presented with a leather mule, and each member with a leather medal. A supper was served to the two teams at the Vienna Restaurant, the losing team paying the expenses.

Railroad Notes.

The shopenmen enjoyed a holiday yesterday by virtue of George Washington's birthday.

H. C. Langdon returned yesterday morning from a week's stay at Cheyenne where he had been looking after the engines on the Fourth district.

The Union Pacific is still adding to its passenger service equipment. Several more new Pullmans have gone into service and quite a number of new composite cars have been going through on the "Limited."

Since the bulletin concerning the physical examination of the railroad employes was posted the two company surgeons, Drs. McCabe and Lucas, have had their hands full as the men are all desirous of being examined as soon as possible.

G. H. Cole, of the Union Pacific claim department was in Sidney Wednesday taking photographs of some of the relics of the Sunol wreck to try and get evidence as to

the identity of the man who was burned to death in the wreck and who is believed to be Emil Pressler the Brooklyn man who has been missing since January, 1899.

The appetite of the monster ice houses for ice is still unappeased although a good many cars of ice are stowed away every day and Foreman Fries hopes to be fortunate enough to complete the work of filling the houses within a few days. Several of the twelve elevators, which will be used on the houses, are completed and in active operation. Work on the two platforms which connect the various houses is at a stand still on account of lack of material. The amount of lumber, which has been used in building the new houses and making improvements on the old ones, is something enormous.

Tuesday afternoon a bulletin was posted by Supt. Park instructing the following employes of the Union Pacific to present themselves to one of the company surgeons for examination:—conductors, engineers, firemen, brakemen, signalmen, flagmen, bridge tender, switch tenders, gatemen, switch men, train baggagemen, engine

dis-patchers and bridge and track foremen. Supt. Karty has also instructed the operators to present themselves for examination. The bulletin says that the company bears all of the expense of examination.

L. E. Hastings, C. A. Weir and Mose McFarland are enjoying a forced vacation. They have not yet learned its extent.

H. J. Hansen's condition, which has been quite serious for a number of days, now shows some slight improvement.

Nice baled alfalfa hay for milch cows, sold by Harrington & Tobin.

Nightly rehearsals of "The Two Orphans" have been held this week, and the production of the play next Tuesday evening promises to be such as to reflect much credit on those taking part.

Railroad men are putting in considerable of their spare time now-a-days industriously studying colors in order that they may be able to pass the examination in sight, that being one of the most puzzling parts of the examination.

Two nice large rooms in the Postoffice Block.
