LADIES' AND MEN'S MODELS

Clinton

THE JEWELER,

The Semi-Weekly Tribune.

FRIDAY, MARCH 15, 1901.

The Fair store employes are busy today moving the stock to the Ross building.

J. E. Bush formerly of this city has located in Ord, where he will open a drug store.

W. T. Banks denies the report that he will move his stock to the rooms being vacated by The Fair.

Miss Georgie Breyer leaves the first of the week for Salt Lake, where she will spend several months visiting.

James Ware was in town this week purchasing lumber with which to build a new house on the Keith ranch at Pawnee Springs.

H. E. Peterson, who has been at Green River for several months, has been transferred to Mr. Park's office in Cheyenne, beginning his duties at the latter place next Monday.

W. C. Reynolds returned Wednesday from a two weeks visit at Danville, Ill. He says you hear no talk of hard times in that country, everybody apparently being prosperous, happy and contented.

Messrs. Funk and Scott of Sutherland accompanied by their families, left this week for Seattle, where they will make their future home. Nels Swanson will also sell his place and move to the Pacific coast.

C. P. Ross is at work making estimates of the cost of an irrigation ditch which a mutual company propose to construct in the east part of this and the west part of Dawson county. The ditch will, if built, be one of the largest in this section of the state.

During a recent fire in Columbus E. A. Garlich, formerly of this city, had his piano and other musical instruments, clothing and room furnishings badly damaged by fire, smoke and water. He carried some insurance on the goods, but his net loss was several hundred dollars.

Sweet Pea Seeds in bulk at McGlone's, Foley block.

Land up in Garfield precinct must be rapidly advancing in price. Today there was filed in the county clerk's office a deed conveying 240 acres in section 12, town 16, range 27, from A. P. Stevens and wife to D. T. Jones for a consideration of six thousand dollars. This is said to be raw prairie land.

The Sutherland Free Lance says: Spring work has opened up in earnest this week and gang plows are at work preparing the ground for spring seeding. While the acreage of wheat will probably be reduced some this year under the ditch, there will be a considerable acreage sown.

Gus Smith and family and son George and family leave some time next week for Erin, N. Y., where they will permanently locate on a farm which Mr. Smith owns. Mr. and Mrs. Smith have been residents of North Platte for thirty years and their large circle of acquaintances will regret their departure.

The Burlington has placed an order with the Schenectady company for fifty locomotives of the prairie type. This type has an exceedingly wide fire box and an extra length of boiler and is said to save from ten to twenty per cent more fuel than any other type now made.

SEASONABLE GOODS!

Blue Grass,
Clover and Garden Seeds,
Onion Sets,
Garden Hose,
Fish.

Our Fancy Greeley Potatoes are going like hot cakes. A car load every three weeks. Have you bought any?

Harrington & Tobin,

The neatest grocery in town.

Ginn & Weingand this week shipped a casket to Gandy and also one to Lena, the former to enclose the remains of Henry Viemeyer and the latter for George Farrow.

The next attraction at the opera house will be Rosco & Hollands minstrels on the evening of April 2d. This company has been here before and gave excellent satisfaction.

Chicago forecast for North Platte and vicinity: Fair tonight and Saturday; warmer Saturday. The maximum temperature yesterday was 46; one year ago 44. Minimum temperature this morning was 22, one year ago it was 9.

Oscar Schipfer of Iowa, a cousin of E. F. Seeberger, is in town today enroute to Hershey to visit the latter. Mr. Schipfer has been here a number of times before and is well known by many of our citizens. His pilgrimage here is for the purpose of shooting geese.

Snow Flake Flour, you know the rest, at McGlone's, Foley block.

Mrs. D. H. Heagy of Lincoln, state organizer of the ladies auxiliary to O. R. C., arrived in the city Tuesday night and spent Wednesday afternoon inspecting the local auxiliary. After the meeting a fine supper was served in honor of the guest. This division was organized by Mrs. Heagy about a year ago and is in a flourishing condition.

Sheriff Goodall left this morning with his prisoner Jack Joyce for North Dakota. The charge preferred against Joyce is grand larceny. He was sent from North Dakota over into Michigan with a carload of horses which he sold, and pocketing the proceeds, about eight hundred dollars, skipped for greener pastures leaving the owner of the horses in the soup.

J. S. Hinckley of Co. E, U.S. Engineers stationed at Manila, sends a photograph of the deputation of Igorrote chieftains who visited the Philippine civil commission about February 1st last and requested that school books and American flags be furnished to the people of their province. There are five chieftains in the group, four of whom are costumed in scanty breech clouts and the fifth wearing pants. They are rather barbaric looking, but the fact that they have shown a disposition to become enlightened by requesting books is evidence that they have better hearts within them than their exterior indicates.

A republican city convention will be held at the court house tomorrow evening for the purpose of placing in nomination a city ticket and two members of the board of education. So far but one candidate has publicly announced himself—Greely Bundy, who desires to be elected city clerk. At this time it is not known whether Mayor White will accept a nomination. A letter has been written him asking whether he would accept, but as yet no reply has been received. C. F. Iddings has been mentioned in connection with the nomination for mayor, but we are not advised as to whether he would accept. He would make an excellent mayor. His long service as councilman has acquainted him with every detail of the city's business. No names have been mentioned as to candidates for treasurer and police judge. Chas. P. Ross will probably be nominated for city engineer. We have heard of but two names mentioned for members of the board of education, E. A. Cary and David Scott. The latter, however, said this morning that he would not be a candidate. In the Second ward Claude Weingand will accept the nomination for councilman if the people want him to run. In the other wards we have not heard of probable candidates.

Alfalfa Seed for Sale.

By Joseph Hershey, Locust street, North Platte, Neb.

W. E. Bomberg round-house boiler maker, had an eye badly injured yesterday by running the spout of an oil can into it. The sight of the eye was not destroyed. Owing to illness, Dr. Seymour was unable to fulfill his dates made in this city in January, but as he has quite recovered his health, he will be here without fail Thursday April 4th.

Best line of Fancy Dried Fruits in the city at McGlone's, Foley block.

The degree of Master Mason will be conferred Tuesday evening, March 19. After the ceremonies refreshments will be served through the kindness of the ladies of the Eastern Star. All Masons are cordially invited.

J. SORENSON, Master.

J. C. Walker, brother of Major L. Walker, who came here from Lead City, S. D., the latter part of December is lying in a critical condition at the Walker ranch northwest of town. The trouble with Mr. Walker is heart affection, and he came here in the hope that the lower altitude would prove beneficial. This, however, has not proved true, for although he has had excellent nursing and medical attendance his days on earth are considered but very few. The afflicted man is about fifty-four years of age.

A New Firm.

Wm. Stack and H. F. Kellner have formed a partnership and will engage in the stove business and buy and sell all classes of second-hand goods. They have rented the Lamplugh building on east Sixth street and will open their establishment the early part of next week.

The firm expects to carry a full line of stoves of all descriptions and will make a specialty of handling stove castings and doing repair work.

Horses For Sale.

By Joseph Hershey, Locust street, North Platte, Neb.

Y. M. C. A. NOTES.

Missed it! Every young man who staid away from the gospel meeting last Sunday. It was one of the best talks given in the rooms this winter. We wish to thank Mr. Verner for that talk and pray that the young men that heard it may profit much by it.

The weeks, months and years are quickly passing and with them opportunities for improvement. Young men don't waste the precious moments. Come to the meeting next Sunday at 3:30 and hear Dr. Pulis. He is a man of large experience and is able to help you. Fireman Barnell will conduct the service and the male quartette will sing two selections. All men are welcome.

Financially the association has done well for the last six months and in order to keep up this good record it will be necessary for the sixty persons owing various amounts to the association to call on the secretary or send it in. The association needs the money now. Kindly respond promptly.

We are pushing now for 350 members by April 1. A good word spoken for the association may land a member. Rooms full of good things and all for \$3.00 a year.

Wanted returned to the library at once books No. 472 1/2 Tales of the Trail, and No. 444 The Choir Invisible. Parties having these books out will please bring them in and oblige a number of persons desiring to read them.

The rooms and library committee have ordered a splendid list of periodicals for the reading room. Some new ones will be on the table, namely: Everybodies, Harpers Weekly and Youth's Companion.

The 100 Y. M. C. A. pins are all sold and enough money was realized on the sale to buy a good striking bag. It has been ordered and it is hoped it will be here in a few days.

Spikes

The latest lad for the ladies, three for five cents up to fifty cents each. CLINTON THE JEWELER.

Money to Loan

on good security, from three to five years. Address Mrs. J. D. Mathews, the Leland, 1518 Curtis St., Denver, Col.

SPIKES,

Gilt Braids,
Gilt Buttons,
Gilt Belts,
Gilt Beltings.

Our line is complete.

Wilcox Department Store.

Railroad Notes.

Supt. Baxter looked after the company's interests in this city Wednesday.

Fifty men are at work ballasting the Union Pacific between Kearney and the Watson ranch.

Engine 1401 came out of the shops the early part of the week and went out on train No. 1 yesterday.

Master Mechanic Barnum came up from Omaha Wednesday night and spent part of yesterday in town.

Engineer Stroude returned last night from a month's visit in Kansas City and Ossawatimie, Kan. He reports a very pleasant trip.

The violence of the storm Tuesday evening blew down the Union Pacific poles and wires between Grand Island and Wood River and trains run without orders.

Compound engine 1621 was sent back to the Wyoming division Wednesday. Her work on the Second district was not as satisfactory as expected.

Engine 1725 was brought from the Wyoming division Wednesday night and will go into service on the Second district with Wood White as engineer.

In abolishing the pooling system five freight engine crews will be placed on the extra list. This has caused a little "beefing" among those effected, but the older men are more than satisfied that pooling has been abandoned.

Up on the Wyoming division the company has been experimenting with the new 1600 class of compounds by replacing the single nozzle with a double one. Engine 1642 has been thus equipped and the change is said to be a success.

John Bey, who has been working in Kansas, arrived in town yesterday and will be installed as day foreman of the round house, vice H. D. Luce. This change has been on the board for some time, and was expected to have occurred about two weeks ago.

Freight conductor Jenkins and crew took supper in Grand Island at the usual hour last evening, came to this city on one of the sections of train No. 19, caught a stock extra out of here at four this morning and at eight o'clock were eating breakfast in the island.

Engine Pooling Abolished.

The system of engine pooling which has been in vogue on the Second and Third districts for a number of months has been abolished, and hereafter engineers will have assigned engines. That is, instead of going out on one engine one trip and on another the next trip, each engineer will have a regular engine. The discontinuance of the pooling system is hailed with delight by engineers. It means easier and less trying work for them and will result in better service for the company and the engines will be kept in better shape.

The pooling system was one of President Burt's hobbies, but had never been endorsed by Manager Dickinson or Supt. of Motive Power McConnell. These latter officials, evidently convinced Mr. Burt that the system was poor economy.

A Few of Our Bargains.

160 acres of hay land—close to Hershey—will sell for cash or trade for good sheep.

6 room house in North Platte to trade for residence in Fremont, Nebraska.

Corner lot residence in North Platte to trade for heifers and cows.

40 acres of land, 5 room house, within one mile of North Platte, will sell or lease for term of years.

Small dwelling in Hershey to trade for good horses.

160 acre farm under North Platte Land & Water Co. ditch. Will sell cheap. One of the best farms in the valley.

Grazing lands all over the county from \$1.00 per acre up.

JOHN BRATT & CO.

Strikes A Rich Find.

"I was troubled for several years with chronic indigestion and nervous debility" writes F. J. Green, of Lancaster, N. H. "No remedy helped me until I began using Electric Bitters, which did me more good than any medicine I ever used. They have also kept my wife in excellent health for many years. She says Electric Bitters are just splendid for female troubles; that they are a grand tonic and invigorator for weak, run down women. No other medicine can take its place in our family." Try them. Only 50c Satisfaction guaranteed by A. F. Straitz.

Going to Fence This Year?

If so you had better figure with us for either of these
Barb Wire,
Poultry Netting.
We have both in stock.

Wilcox Department Store.

E. B. Warner today handed Jos. L. Davis a draft for two hundred dollars from the Macca-bees to which he is entitled under the disability clause of the policies issued by that order. This is the fifth payment Mr. Davis has received.

H. S. Ridgley went to Cheyenne on legal business last evening.

Sensible Giving.

Russell A. Gardner, a vehicle manufacturer of St. Louis, gave \$10,000 to his employes as a Christmas present. When he balanced his books for the year he found that the company had made \$10,000 more than had been expected and more than was necessary for the business or for personal wants. The money was distributed among the employes according to their length of service.

Collection of American Poetry.

Professor Koopman, librarian of Brown university, attended the sale of the famous private library of Thomas J. McKee of New York, and through funds supplied by Chancellor William Goddard was able to purchase the books necessary to complete the Harris collection of American poetry now in the possession of the university and the best of its kind extant.

Noble to Succor Others.

It is quite certain that, of all the things that minister to the welfare and good of man, of all that make the world varied and fruitful, of all that make society solid and interesting, of all that make life beautiful and glad and worthy, by far the larger part has reached us through the activities of the struggle for the life of others.—Henry Drummond.

Inconsistency of Present Laws.

A New Jersey baker who was fined for selling bread on Sunday has demonstrated the inconsistency of present laws by buying on Sunday a cigar at the drug store kept by the justice who fined him. He also bought stamps at the postoffice, showing that the government itself violates the law.

To Protect Government Instruments. Various scientific departments in England recently held a conference in which they sought to obtain government powers for protecting the delicate instruments in the Kew and Greenwich observatories from any magnetic disturbances that arise from the working of electric tramways and railways in their vicinity.

Wireless Telegraphy for Japan.

Two wireless telegraph instruments, said to be the most powerful ever made, are to be shipped from New York to Japan. They were made especially for Japan, and will be installed on two of the fastest Japanese cruisers. It is expected that they will be able to transmit messages at least 125 miles.

Tramping Cures Consumption.

A Dayton, O., man claims that he has conquered consumption by leading a nomadic life. Twenty years ago his doctor told him he could not live six months. Then he set out to roam over the country. After all these years of wandering he claims to be cured and has returned to his home.

Country's Greatest Gold Camp.

Cripple Creek is the greatest gold camp in this country, and its production is very great. The core of the gold country there is a strip of ground six miles long by three miles broad. Out of this comparatively small area of ground \$20,000,000 in gold will be taken this year.

Meaning of True Friendship.

By friendship you mean the greatest love, the greatest usefulness, and the most perfect trust, and the most open communication, and the noblest sufferings, and the sincerest truth, and the heartiest counsel, and the greatest union of minds of which brave men and women are capable.—Jeremy Taylor.

Another Nome Rush Expected.

How many will go to Cape Nome in the spring to search for gold is the question troubling Seattle, Wash., outfitters. The first wild rush is over, but it is expected that, in spite of this, between 6,000 and 8,000 will be on their way to the gold fields when the season begins.

GUARDIAN'S SALE.

Notice is hereby given that by virtue of a license issued March 9, 1901, by Hon. H. M. Grimes, judge of the district court of the 13th judicial district of Nebraska, I will offer for sale to the highest bidder for cash, the following described real estate, to-wit: West half of Lot No. 6 in Block No. 67, and Lots Nos. 3 and 4, in Block No. 151, all in the city of North Platte, Lincoln county, Nebraska. Sale to be made at one o'clock p. m. and kept open one hour, of April 6th, 1901, at the east front door of the court house in the city of North Platte.
Dated March 13, 1901.
MARGARET SHEA,
Guardian of Daniel Shea.

Chinese Doctors Have Ability. The Chinese are not so far behind us in the practice of medicine as has been supposed. While the yellow physicians are deficient in their knowledge of anatomy, and therefore amount to nothing as surgeons, in their treatment of common ailments they are in some cases practically abreast of the most advanced practice in this country.

Loss of \$150,000 in Racing. Mr. Justin McSweeney, formerly one of the most prominent owners on the Australian turf, and a well-known Sydney citizen and man of business, has made some revelations of a sensational character regarding horse racing in the antipodes. He confesses that he has lost \$150,000 in horse racing, and that within his limited experience he has seen about thirty wealthy men ruined on the turf.

DO YOU KNOW

that we carry a complete line of PAINT
