IRA L. BARE, CHIEF, North Platte, Neb., July 27, 1901.

LAWTON, the new town in Oklahoma, is to have a woman for marshal. Her only weapon will be her tongue.

OHIO and Maryland have cut loose from Bryan and Bryanism, but Dr. McCabe, Pat McEvoy and John Grant still stand pat on the Colonel.

THE funny man of the Atchison Globe says that after a man gets to playing lawn tennis and drinking root beer, there is little hope for him.

THE recent rains have recuperated the corn crop in Nebraska and the yield will be larger than anticipated three weeks ago.

THE proposition to bond Hall county for a hundred thousand dollars to build a new court house carried by a majority of about one hundred.

THE convention of the republican league organizations of the state will be held at Lincoln on the 27th inst., the day before the state convention.

THERE are nearly ten million acres of government land in Nebraska which is open to settlement. Much of this is suitable for farming purposes and it is all good grazing land.

THE steel strike is spreading and the end can only be conjectured. Meantime efforts are being made to secure a settlement before the strike reaches a point where it cannot be easily controlled.

FROM the number of candidates which will be before the republican county convention, there should be no difficulty in selecting a winning ticket. The duty of the convention is to select the best and strongest candidates.

THE attempt of the sugar trust to throttle the beet sugar industry, which it is trying to do in California is likely to result in legislation which, when congress meets again, will have a tendency to throttle the sugar trust. The government has been fostering the beet sugar industry and it is not likely it will allow any monkey work on the part of the trust.

A PITTSBURG dispatch in today's Omaha Bee says: The struggle for mastery between manufacturers and men in the steel industry is now fairly launched and on the first show of strength advantage is with the former. The general strike order issued by President Shaffer of the Amalgamated association has so far been obeyed by only about 14,000 men, according to the best figures obtainable here. The first two preliminary calls were answered by about 45,000 men, so that the total number now out is in the neighborhood of 60,000.

FUSION IN NEBRASKA.

The Nebraska democrats cling to the fusion program. This is a confession that the democratic party in Nebraska is not strong enough to join issue with the republicans on either state or national issues. The populists, in deciding in favor of alliance with the democrats practically admit that there is no longer a populist party in Nebraska. The silver republicans, in deciding to put no ticket in the field, admit that the silver question has been eliminated from politics. The committee advises silver republicans in Nebraska to vote for the populist or democratic candidate. But republicans who left their party on the silver question and are still republicans at heart are not likely to vote with either the democrats or populists.

The republican vote for president in Nebraska in 1888 was 108,435; the democratic vote, 80,552; republican plurality, 27,873. In 1892 the republicans lost 21,000 votes and the democrats lost 55,000 votes. In other words Harrison received 87,213 votes in 1892, and Cleveland 24,942, while Weaver, the people's or populist candidate, received 83,134. In 1894 the democrats and populists united and elected Holcomb governor by a plurality of 3,302.

In 1896 Bryan, on a fusion ticket, carried the state by 12,935 plurality, and the fusion candidate for governor had a plurality of over 21,000. In 1898 the fusion candidate for governor had a plurality of 2,721. In 1901 republicans polled 121,835 votes for president in the state, and had a plurality over the fusion candidate of 7,822. The republicans elected their governor by a plurality of 861 votes. This is the story of fusion in Nebraska.

With the silver question eliminated, with the democratic current in Ohio, Illinois and other states turning against Mr. Bryan and against populist tendencies, there is little hope for fusion in Nebraska or any other state.

CANCER

Sufferers from this horrible malady nearly always inherit it - not necessarily from the parents, but may be from some remote ancestor, for Cancer often runs through several generations. This deadly poison may lay dormant in the blood for years, or until you reach middle life, then the first little sore or ulcer makes its appearance - or a swollen gland in the breast, or some other part of the body, gives the first warning.

To cure Cancer thoroughly and permanently all the poisonous virus must be eliminated from the blood - every vestige of it driven out. This S. S. S. does, and is the only medicine that can reach deep-seated, obstinate blood troubles like this. When all the poison has been forced out the system the Cancer heals, and the disease never returns.

Cancer begins often in a small way, as the following letter from Mrs. Shirer shows: A small pimple came on my jaw about an inch below the ear on the left side of my face. It gave me no pain or inconvenience, and I should have forgotten about it had it not begun to inflame and itch. It would bleed a little, then scab over, but would not heal. This continued for some time, when my jaw began to swell, becoming very painful. The Cancer began to eat and spread, until it was as large as a half dollar, when I heard of S. S. S. and determined to give it a fair trial, and it was remarkable what a wonderful effect it had from the very beginning: the sore began to heal and after taking a few bottles disappeared entirely. It was two years ago; there are still no signs of the Cancer, and my general health continues good. - Mrs. K. Shirer, La Plata, Mo.

Illinois Central AN INNOVATION.
Elegant New Dining-Parlor Cars Between Chicago and Omaha on the Fast Mail.

These combination cars, which have been especially fitted up for service between Chicago and Omaha at the company's shops, are run west bound from Chicago on Fast Mail, train No. 5, and east bound from Omaha and Council Bluffs on the Chicago Express, train No. 4. They are artistic and handsome in design, and convenient in arrangement. They have all the features of a regular dining car and of a Pullman parlor car, the two being in separate compartments, and entirely independent one from the other. The dining compartment has a large kitchen and an uncramped seating capacity of fourteen at the dining tables. The parlor compartment is handsomely decorated, and is equipped with ten heavily upholstered revolving armchairs. These chairs are particularly comfortable, being of a new and special shape designed for these cars. As these trains make the trip across Iowa for the most part by daylight, this innovation in car equipment, in addition to its convenience for through passengers, is especially advantageous for Omaha and Chicago passengers to or from local points.
