Real estate agents say there are no vacant houses in town, and that the demand is greater than the supply. It seems that no matter how many houses are built each season there is always a shortage of houses to rent. This is an excellent showing for the town and is evidence that the population is steadily increasing.

Teachers' Institute.

The teachers' institute convened yesterday morning with an attendance of eighty but by evening this number had increased to 115, and enrollment will be further increased today. Usually the first day sessions do not amount to much so far as actual work is concerned, but yesterday was an exception. The daily program began promptly and was carried out practically in full, the instructors displaying energy and the teachers were interested in the work from the very beginning.

The corps of instructors is a very competent one, consisting of Prof. Miller of the state university, Prof. Fullmer of Pawnee City and Miss Robertson of Ogalalla. Prof. Fullmer occupied a similar position in the institute last year. Today State Supt. Fowler has been present at the sessions and has materially aided in the work.

Next Thursday evening Prof. Ott of Drake University will deliver a lecture of the opera house. His subject is "Sour Grapes," but the theme of his talk will be along the lines of social purity. Prof. Ott is a fluent talker and considerable humor accompanies his remarks. It is hoped that he will be greeted by a large audience.

What are the five most popular novels of the day? Here they are: The Crisis, by Winston Churchill; The Helmit of Navarre, by Bertha Runkle, The Octopus, by Frank Norris; The Puppet Crown, by Harold McGrath; Alice of Old Vincennes, by Maurice Thompson. Doolittle has them all and a hundred others.

Y. M. C. A. Notes.

A good audience listened with marked attention to a fine address on "Stewardship," by Dr. Sutherland, president of the Grand Island college, last Sunday.

While out soliciting for new members and renewals the other day, the secretary came in contact with Mr. E. B. Warner, the furniture man, was kindly received in his store and went out smiling with satisfaction and a thankful heart. But it cost Mr. Warner a five dollar bill.

We want by September 1st a membership of 350. A little extra help on the part of our members will bring it to that number. S.

In no year has the value of irrigated land as compared with the unirrigated shown up more prominently than this year. On land in Lincoln county not irrigated a yield of twenty bushels of corn to the acre will be an exception, while on irrigated land a yield of seventy-five to eighty bushels will not be an exception. In fact we are told that there are fields between here and Hershey that will produce one hundred bushels to the acre. Several farmers in that section have from fifty to one hundred acres of corn and from this acreage alone, figuring corn at fifty cents a bushel, they will realize nearly as much money in one season as they have invested in their farm land and water rights. On the other hand the "dry farmer" has no corn to sell at the advanced price.

An absolutely safe investment in which man, woman or child above five years can invest \$2.50 per month or more. Better investment than building and loan. It will pay you to call and obtain particulars. John Bratt & Co., real estate, loans, insurance and collections.

Attorney Halligan returned this morning from a brief stay in Sidney. C. B. Smith came down from Cheyenne and spent Sunday with North Platte friends.

Dr. H. McLeay of Gandy, is in town today, having just returned from his old home in Canada.

Judge and Mrs. McCrary of Council Bluffs are the guests of their daughter Mrs. J. H. Hershey.

Miss Nellie Hartman returned last evening from her trip in the east, which proved a very enjoyable one.

Miss Anna Gray Clark of Ogalalla, will come down tomorrow and attend the sessions of the institute for a couple of days.

For sale or rent a good Bush & Gertz piano. Apply to Alice Beach, city.

W. J. Bryan was a passenger on train No. 101 last evening. Congressman Neville and other demonstrators were at the depot to shake hands with him.

Sanford Hartman has taken a lay-off and accompanied by Mrs. Hartman will leave in a day or two on a trip to Denver and other Colorado points.

All members of Sarah Rebekah Lodge are requested to meet at the I. O. O. F. hall tomorrow (Wednesday) morning at nine o'clock sharp to attend the picnic.

One thousand head of Kansas cattle were shipped to Paxton a short time ago and have been taken to Capt. Haskell's ranch in McPherson county where they will be wintered.

It is reported that the Union Pacific is contemplating a scheme of checking baggage direct from the house of its patrons. This will probably apply only to towns which are competitive points.

What do you want, a bargain? Well here it is, Doolittle has left: One Men's Monarch Bicycle, price \$35, reduced to \$31.50. One Men's Monarch Bicycle, price \$25, reduced to \$22.50. One Women's Bicycle, price \$25, reduced to \$22.50. These prices are for cash and offer is good only until September 1st, 1901.

State Supt. Fowler arrived in town last evening and delivered an address at the opera house to an audience of two or three hundred, about one-third of those present being attendants at the county institute. Mr. Fowler's address, while directed to teachers, was interesting to every auditor. He is a pleasant talker and injects considerable humor. His plea was for better sanitation and cleanliness in the country school houses, especially, and for thorough work on the part of the teachers. He compared the teaching of the past with that of the present, and spoke of the criticisms which are made today of the teachers and the schools. Many good points were made by the speaker which are sure to prove a benefit to the teachers. Preceding the address the Arion Glee Club rendered two selections, Earl Stamp gave a well executed cornet solo, and following the address Misses Burke and Langdon gave evidence of their ability in rendering a piano duet.

A number of engineers drew checks last Friday that hugged the two hundred dollar mark. But then, every one of them well earned all they received. Running an engine these days on the community-of-interests railroads differs vastly from swinging in a hammock.

Railroad Notes.

Conductor Fred Letts has taken a lay-off and gone to—well, nobody seems to know where.

It is rumored that the company will further increase the capacity of its ice plant at this point by the erection of two new houses this fall.

Dan Linahan, who has had charge of the U. P. repair shop at Kearney, has been given the foremanship of the round house at Columbus.

A local freight train was put on the Fourth district yesterday and will do the local work between this city and Sidney. The train leaves at four a. m. on Mondays, Thursdays, Fridays and Sunday.

Freight traffic on the Union Pacific has taken a big spurt during the past week, and the motive power department has about all it can handle. Stock shipments are being freely made and the fruit business is now in its height.

During his recent trip west Supt. Baxter gave orders to so arrange the tracks at Sidney that freight engines can take water and coal without being detached from the train. It is said that the switch engine at that point will soon be done away with.

Three of the U. P. ice houses have been emptied of their contents, and a considerable portion taken out of the other five. It is generally believed that the supply will fall somewhat short of the amount required before the end of the icing season.

Several changes have been made in the U. P. yards this week. Wm. Null, of North Platte, has assumed the duties of night yardmaster vice Lige Bruner who is running on the road. John Daugherty is day yard man in place of Frank Winkleman and W. H. Ledoy, of North Platte, is night yard assistant.—Sidney Telegraph.

A request was received yesterday afternoon at Div. Foreman Stubbs' office asking that six engineers and six firemen be sent to the Kansas division to help out the rush occasioned by the shipment of the big wheat crop in Kansas. In response to the call engineers I. E. Stroude, Joe Swaiger and Geo. Weinberger, and firemen R. W. Smith, Geo. Ledoy, Albert Brown, F. W. Voslipa and W. D. Eshelman left for Kansas City this morning. Two or three other engineers will probably go down later in the week.

The Omaha Bee says that it is figured out that the principal operating companies allied with the Northern Pacific in the community of interest scheme by affiliations and connections of the present members of the board of directors control a railway mileage of 102,411 miles, a capitalization of \$2,842,000,000, and a bonded debt of \$3,023,000,000. The mileage constitutes more than half, or, to be more exact 55 per cent of the total railway mileage of the country. The magnitude of the interests that have been bound together by these giant railway combinations could not be more graphically portrayed.
