### BLACKLEG IN CATTLE

is prevented by vaccination before the germ of the disease has entered the system. The success of vaccination depends upon proper dosage. Too large a dose will produce the disease while too small a dose will not render the animal immune. This problem is solved by Parke, Davis & Co. in their new vaccine in pill form which is injected through the skin. No mixing, filtering or time wasted and you don't have to spend a fortune to vaccinate your cattle. P. D. Co. book, "Blackleg and its Treatment." free

### Fatal Accident at Hershey.

James Chambers was thrown from a wagon at Hershey Wednesday forenoon and received injuries from which he died at 8:30 the same evening.

Chambers had driven to the depot at Hershey with a load of sugar beets when his team became frightened at an approaching train. It ran down the street and the wagon, striking an obstacle, was overturned and Chambers was thrown with great force against the wheel of a wagon nearby. He was at once picked up and an examination showed that the skull on the left side of the head had been crushed. He was taken to his home where he lingered without regaining consciousness until 8:30 p. m.

Chambers was a man about fifty-two years of age and leaves a wife and four children. He had resided in the vicinity of Hershey for about eighteen months.

### U. P. Improvements in this City.

The following article appeared in the Omaha News last Wednesday:

Apparently the Union Pacific is not through making improvements at North Platte. As told in a special dispatch last week, the company will spend many thousands of dollars in that city shortly.

Now two of the high officials of the company have given orders to a North Platte real estate dealer to secure for them from three to five blocks of ground. The purpose of the new move is not apparent.

It is known, however, that the road has determined to make that city one of its principal machine and building points, and also one of the principal store departments on the line. It is also stated that the city is to be made the principal icing station on the line, which means practically the largest in the world. That the work on the new improvements is to be pushed to completion as rapidly as possible is indicated by the fact that J. Langtry, superintendent of the carpenter department, has been arranging for storing the lumber with which to erect the new buildings.

It is stated that North Platte is already beginning to feel the effects of the movement, and that her citizens are highly delighted at the treatment the company is affording them. It is not unlikely a boom will result there in the spring.

Game Boards! Game Boards! Game Boards at Doolittle's. The higher priced Boards as cheap as the lower-priced ones were last year. 54 games on one board! What do you think of that?

The Grand Island Banking Company is providing its patrons and friends with a very neat device, calculated to inculcate habits of saving. It is a small round steel safe, with a yale lock, absolutely "anopenable," which is rented out or sold at one dollar, the bank locking the safe, keeping and registering the key. The patrons take the box home, and when it is filled, or whenever the patron desires to, he can bring the box or safe to the bank and have it opened, and the money deposited or otherwise disposed of.

### T. M. C. A. NOTES.

Sure to have good music at the men's meeting at the rooms at 3:30 p. m. next Sunday. Miss Elizabeth Burke will have charge of it. Dr J. D. Puls will speak. He always gives us interesting and helpful talks. The rooms should be full of young men.

We regret to have to announce to the people that the Quartette will not fill their appointment next Monday evening but may do so later on in the season. Should they not do so, the committee will secure another company so that five numbers will be given in the course.

### W. C. T. U. NOTES.

The meeting at Mrs. Bank's was a very interesting one. The attendance was not large but the faithful few were there. The parliamentary drill was on organization. The same subject will be continued at our next meeting. One new member was secured. Plans were begun for having a gospel temperance meeting in the near future.

Our president suggested that we have a roll call at each meeting and that each member respond to her name by giving a bit of temperance news or a temperance quotation. We hope that a goodly number may be present to respond to roll call next time.

Those interested in the Loyal Temperance Legion were much pleased to see so large a crowd at the meeting last Sunday. We are glad that fathers and mothers are realizing the importance of this work and are sending their children. These meetings will be held every Sunday afternoon at 2:30 at the Methodist church. Come everybody. This time was set in order that no confessions be made with any meeting of any church.

The W. C. T. U. will hold its next meeting with Mrs. Slack next Tuesday afternoon, Dec. 10, at 3 o'clock.

### BETWEEN THE RIVERS.

A gang of men have been repairing the headgates to the old canal lately.

E. F. Seeberger as usual was looking after business interests in this vicinity this week.

Wm. H. Sullivan, A. F. Beeler and Louis Toillon were among those from the valley who were transacting business at the county seat on Tuesday.

There are a few sugar beets to be snipped out of the valley yet that were grown this season.

They are beginning to talk Christmas tree at Hershey.

Dick Shinkle who has just finished baling hay in the valley will soon move his press over to Wallace where he will bale for parties in that vicinity.

Corn shelling in this locality is in full blast and the yield and quality are both very good.

J. C. Gyger, of the Nichols creamery was at the county seat supplying his patrons at that place with butter on Tuesday.

King Cole who is fattening several hundred head of hogs will soon have several carloads to market.

Mr. and Mrs. Charles Toillon's children have about recovered from a run of typhoid fever.

James Hogg and Ed Gentry are attending district court at the county seat as jurors from Nichols precinct.

Hay shipping out of the valley for this season is about completed.

Mr. and Mrs. R. W. Calhoun's little child that was quite ill recently has about recovered.

As W. J. Crusen is conducting a series of revival meetings at the McNeel school house at this time. A. F. Parsons, of North Platte, will meet his appointments both morning and evening at Hershey.

A few farmers are holding their corn for a better price. The present price is about sixty cents per bushel.

We understand that the real estate deal between W. A. Paxton and Chas. McAllister and A. J. Eaton has as yet failed to be consummated.
