Promotion for David Patterson.

The Omaha Bee of last Sunday contained the following relative to a former North Platte man:

A circular just issued by General Manager H. N. Mudge of the Atchison, Topeka & Santa Fe Railway company announces the appointment of David Patterson, formerly of Omaha, to the position of division master mechanic of the New Mexico and Rio Grande divisions of that road.

This advancement crowns thirty-four years of active railroad work in the mechanical department by Mr. Patterson. He was for twenty-nine consecutive years in the employ of the Union Pacific system and rose step by step from the position of machinist's apprentice, which he held in North Platte in 1868, to his present position.

Mr. Patterson was in turn an apprentice, machinist and tool-maker at North Platte and Evans-ton, general foreman at Denver and Omaha, division foreman at North Platte, master mechanic at Salt Lake City, leaving the service of the Union Pacific in September, 1897. He then entered the employ of the Kansas City Southern and has since been master mechanic for that road at Pittsburg, Kan. He is well known to old railroaders in the motive power department of the Union Pacific in Omaha.
