L. S. Phillips Assaulted.

L. S. Phillips, porter at the Pacific Hotel was stabbed on the left side of the face last night with a knife in the hands of a drunken man, whose identity Phillips does not know. The gash extends from the lobe of the ear downward about two inches, and had not Dr. Lucas been on the scene at the time to render aid, Phillips might have bled to death, as the wound is a deep cut.

The story as told by Phillips—who by the way is a quiet and orderly young man—is that while at the depot about midnight he was approached by two men. One of the men lives in the country and is an acquaintance of Phillips, the other was a stranger to the latter. Phillips spoke to the man he knew, and also to the stranger, who was under the influence of liquor. The drunken man invited Phillips to take a drink, which the latter refused to do, whereupon he began abusing Phillips and intimidated that he, Phillips, was a "scab." The drunken individual, with the remark "one slash is all I want at you," made a lunge at Phillips with the above result.

Phillips' wound is not a dangerous one, but this morning it was giving him considerable pain and he feels weak from loss of blood.

The local officers are at work today attempting to locate the man who made the assault.

Piano Repair Shop.

Prof. Leonhardt, the well known piano tuner, has opened a repair shop at his home at Gibbon, and supplied with all the proper facilities, is prepared to rebuild, or make any class of repairs to pianos. Prof. Leonhardt for a number of years was in the employ of several of the best piano factories in the United States, and is conversant with every detail of the mechanical work. Parties having instruments which need repairing should address Prof. Leonhardt at Gibbon, or see him during his next visit to this city, which will be about August 15th.

The wet weather of the past month or so has interfered greatly with haying operations in Lincoln county. Not only has much hay been practically lost by getting wet in winrows and after being baled in the field, but much of the grass on low land cannot be reached on account of the wet ground and it has grown so rank and coarse as to be unmarketable. Prices on hay are about two dollars per ton less than at this time last year, the prices this week ranging from five to five fifty per ton on track.

The time book at the Union Pacific shops this morning showed 238 men at work. This covers mechanics, helpers, roundhouse men and car repairers, but does not include the men employed as guards or on the ice gang. Between forty and fifty imported men are at work in the shops and the round house. Prior to the strike the normal working force was about 270, showing that the force is about thirty less now than then.

Seven of the imported men quit the local shops yesterday and left last night for Chicago. Two more quit this morning. And thus it goes. One day an importation of men arrives, the next day a number of them leave.

The sugar beet crop in Lincoln county is reported to be in a very satisfactory condition. There is an occasional field which has not been properly worked and is therefore not in good condition, but these tracts are few.

The Chambers divorce case, which was to have been heard in the district court last Friday, was postponed until next Friday. The case is one which has been hanging fire for quite a long time.

The Boss Worm Medicine.

H. P. Kumpre, Druggist, Leighton, Mo., writes: "One of my customers had a child, which was sick, and threw up all food, could retain nothing on its stomach. He bought one bottle of White's Cream Vermifuge, and it brought up 119 worms from the child. It's the boss worm medicine in the world." White's Cream Vermifuge is also the children's tonic. It improves their digestion and assimilation of food, strengthens their nervous system and restores them to the health, vigor and elasticity of spirits natural to childhood. 25c at A. F. In Java

Natives do not glaze coffee with a cheap and impure coating. They have too high a regard for health as well as for the naturally delicious flavor of their popular berry. The very American roasters who glaze their package coffees do not dare to touch or glaze their high priced Mochas and Javay. Why?

Lion Coffee is never glazed or adulterated. It is JUST PURE COFFEE.

The sealed package insures uniform quality and freshness.
