A midnight prowler was discovered in a yard in the First ward last night and the owner promptly emptied both barrels of a shot gun at the nocturnal rambler. The charges, however, did not take effect.

The rainfall last month was 3.34 inches, or nearly two inches more than the average for the month for twenty-eight years past. For the first nine months of this year the precipitation has been 8.16 inches greater than the average for that period.

Three car loads of sugar beets were shipped from Nichols yesterday to the Grand Island sugar factory. This was the first shipment of the season and are unusually fine beets. In all about 700 cars will be shipped from this county.

The annual state convention of the I. O. O. F., and the Rebekah assembly will be held at Lincoln October 15th, and it is expected that quite a number of North Platte will attend. Among these will be Mr. and Mrs. J. S. Hoagland, Mrs. L. L. Miltonberger, and E. S. Davis.

The Payne Investment Co., of Omaha, have sent quite a number of prospective land buyers to this city during the past month, and the local representative of the company is quoted as saying that all who investigate the lands here are well pleased. It is probable that there will be quite an influx of farmers next spring.

The Kearney Military Academy foot ball team accompanied by a retinue of "rooters" arrived in town on train No. 11. This paper goes to press too early to give the result of the game, but Coach Walker said at noon today that his team is in fine form, much better than at any time last season, and that the K. M. A. would need play a good game to win.

The delinquent tax-list, which is published elsewhere, is the smallest for a number of years; it is only about one-eighth as large as it was in the good old democratic times when Grover Cleveland was president. The smallness of the list shows that under the present prosperous republican administration people have money to spare—above their actual necessities—to pay their taxes.

"The wet weather and bad roads make it impossible for hay men to bale and haul their hay, and as a result we are shipping only about one car a day. Could we get the hay we would be shipping ten or twelve cars daily."

When Dipping Cattle.

Remember that the coal-tar dips are the best and safest for mange, itch, lice and ticks; that Lee's Carbolic Dip, made by Geo. H. Trouble Brewing.

Mike Roach, passenger conductor on the Omaha-North Platte run was discharged this week for turning over to the Omaha strike committee \$7.50 which had been donated by the conductors' lodge of that city and of which Roach is secretary. This discharge has caused a very strenuous kick, and L. S. Mcomber of the O. R. C. protective board is now in Omaha attempting to secure a reinstatement of Roach.

Somewhat Exaggerated.

The Omaha Bee of today says that the Union Pacific blacksmith shop in this city will be dismantled and removed elsewhere. Master Mechanic Barnum, who is in town today, was asked if the report was correct, and he replied that he knew nothing of it. He said, however, that he had orders to cut out two of the six fires now in operation, and that the two blacksmiths and their helpers would be transferred to Grand Island if they wanted to go, but he understood the men said that rather than go they would quit the service of the company.

Master Mechanic Barnum is in town today.

A Kansas City dispatch states that General Manager Dickinson has resigned and will accept a similar position with Stillwell's Kansas City & Southern. President Burt and other Union Pacific officials deny the report.

The Great Northern and Northern Pacific roads have now 6,000 more freight cars in service than ever before. Cars are interchanged when convenient and yet with this additional equipment the traffic officials are unable to handle the business.

It is claimed that five conductors on the Union Pacific have been discharged for contributing financial aid to the strikers. It is further claimed that this order unless revoked, is certain to create trouble between the Order of Railway Conductors and the company.

John Spellman, who was bound over to the Douglas county district court on a charge of murder in the second degree for the killing of Earl Caldwell, one of the strike breakers employed by the Union Pacific at Omaha, has been released from jail, having furnished the seven thousand dollar bail bond required.
