Real Rose Hat Pins

It does not seem possible, yet it is true, that these Hat Pins are made out of live roses, and changed into metal by a secret process. This discovery is without doubt one of the lost arts of the ancient Egyptians. They are the most beautiful of all Hat Pins. No two are alike. Made in finishes to conform to the prevailing fashions in millinery. Six sizes at the following prices:

\$1.50, \$2.00, \$2.50,
\$3.00, \$3.75, \$4.50

Everybody is talking about them. Don't fail to come in and see them. These are the genuine DELAMOTTE Real Rose Hat Pins.

The funeral of Mrs. Mary Thayer, who was accidentally shot at the Le-Diout ranch, was held at Paxton Saturday morning, a very large concourse of people attending. Funeral services were conducted by Father Dodson of Sidney, assisted by the Catholic choir of this city who rendered the solemn requiem high mass. Quite a number of the friends of the family in this city were present. The remains were interred at Paxton.

We sell Gillette Safety Razors. They have no equal. Shaving made pleasant. DIXON, The Jeweler.

The foundation for the new residence which E. A. Cary will build in the Third ward has been laid by the contractors, White & Leskey. This will be the first real bungalow to be erected in North Platte, and will be 34x40 feet in dimension with a 7 1/2 foot basement under the entire building. There will be two large sized chimneys running from the ground on the outside, and there will be porches on two sides. The architecture of this new home is said to be very pleasing to the eye.

Notice to City Subscribers.

Beginning with the Tuesday issue of next week, THE TRIBUNE will be delivered by carrier to all subscribers who live within the free delivery zone established by the postoffice department. This delivery of THE TRIBUNE by carrier has been made necessary by the free delivery service, which does not permit the carriers to deliver semi-weekly papers.

As is customary in all towns and cities where papers are delivered by carrier, an additional charge for such carrier service will be made, in other words the price for a paper delivered by carrier is greater than though sent through the mails, and THE TRIBUNE will therefore add twenty-five cents per year to each of those subscribers served by carrier. The price of a year's subscription to those subscribers will therefore be \$1.50 instead of \$1.25. This additional twenty-five cents will pay about one-half the actual cost of the delivery service.

Charles A. Sibley.

State Senator, Charles A. Sibley, of Lincoln County, who elsewhere announces his candidacy for the republican nomination for congress, was born in Maine, educated in the public schools and at Wesleyan Academy, Massachusetts, moved to that state before he was 21, engaging in merchandising and to Nebraska in 1886, and thence to his present location, in Fox Creek precinct in Lincoln County, in April 1886, where he has since been engaged in farming and stock growing, with the exception of one year.

While always an interested and active republican, he refused to be a candidate for any position outside of his precinct until nominated for State Senator for the 30th district, and was elected by more than 1000 majority. He was an active member of the 30th session of the Nebraska legislature, which so generally met the approval of the people of this state and was watchful and aggressive for the interests of his constituents and of western Nebraska.

Of his legislative work it can be said he was credited with besting the eastern senators on the bill to repeal the wolf county. Though opposed by the state superintendent, he procured a Junior Normal at North Platte. The senate finance committee reduced the appropriation for the North Platte experiment station from \$25000 to \$20000, which he got restored. The same committee reduced the appropriation for poor school districts from \$50000 to \$25000 and it passed the senate. He was relied upon by Representative Doran, who introduced the bill and State Superintendent McBrien, to effect the recedance of the senate, which he was able to do.

He organized the senate against the three best talking lawyers for a sane pure food law; fought the Omaha selfish interests in the terminal tax law and though beaten in the senate, the house adopted his amendments and the senate receded.

The bill reducing express rates twenty-five per cent was introduced by him and successfully piloted through the legislature. Since the adjournment of the legislature he brought to the attention of the state railway commission the excessive coal rates on the Union Pacific and induced them to file complaints before the Inter State Commerce Commission and assisted in successfully prosecuting the case which has resulted in a substantial reduction in rates from Grand Island west.

There are some people who persist in running in and using their neighbors' phones. This is absolutely against the rules and all such calls in the future will be charged against the phones that are used in this manner at the rate of five cents per call. If you use your neighbor's phone pay them for they will be charged for these calls. This does not apply to doctor or fire calls. But we are not going to give some of the people free telephone service. If it is so nice to step in and use your neighbor's phone have one of your own put in and enjoy the full benefit of a phone.

A home is private and when you are continually running in you annoy and provoke your neighbors, and because they are neighbors they cannot say no. This does not apply to only a few places. There are many homes without a phone who do not impose upon the Telephone Company or their neighbors.

We are going to print new directories in a short time, so if you are going to have a phone put in now is the time, so your name will be in the new directories. We make no charge for installing a phone. All you have to pay is \$1.50 per month one month in advance. If not paid before the third of the month in advance it costs \$1.75.

There are so many ways that a phone can be used that a progressive family cannot afford to be without. You can call the doctor, order everything that is used in the house, give a fire alarm, (which alone may save you more than a phone costs for a life time), save time—and that is money. And on top of this you will be up to date, living with the times.

The town subscribers have free connections with Balch & Morrison's farm.
