Chas. G. Elicker, of Rossville, Pa., a brother of Mrs. John F. Seibert, is a guest at the Lutheran parsonage and will remain until the early part of next week.

The Wyoming division of the Union Pacific expects to handle 1200 cars of sugar beets this season. Shipments from the Hershey district will begin next week.

Prof. H. M. Steidley, of Lincoln, and Miss Minna Stoker, arrived from the west today and will participate in the Sunday school convention which convened in session at the Christian church this afternoon.

County Commissioner Kocken went Sutherland yesterday and examined the Sutherland bridge at the request of Mr. Coker, who has charge of the structure. Quite a number of the caps were found to be in a decayed condition and will be replaced.

The road bed of the North River branch between O'Fallon and Oshkosh is in fine condition and the cars ride almost as smoothly as on the main line. Today a weed burner was sent up the branch to clean up the weeds along the track.

NOTICE.

We wish to state that we carried part of our fire insurance with the Temple Real Estate and Insurance Agency, that a satisfactory settlement was reached and that we received draft in full settlement of the same just two weeks after the fire.

We recommend this agency to any one wishing prompt service. SCHATZ & CLABAUGH.

W. C. Patterson is transacting business in Sutherland today.

"The Volunteer Organist" will be presented at the Keith theatre on the evening of October 7th.

Miss Edith Terry, who had been the guest of Miss Whittaker, returned to Omaha yesterday morning.

Miss Genia McGovern went to Lexington yesterday to visit friends and attend the fair and festival.

Dr. Sample, of Kearney, is in town today on business connected with real estate he owns in this county.

We have just received our fall stock of stoves, consisting of Jewel Base Burners, Ranges, Cooks and Heaters. Also we have the well known Retort Oak Stoves, of which some are fitted to burn hard coal, also we have the original genuine Coles' Hot Blast Stoves. We invite the public to come in and examine our different line of stoves. Yours for the stoves business. WORKMAN & DERRYBERRY.

Chas. Hendy, Jr., who had been spending a few days at his father's ranch, returned to Denver last night. Mrs. Hendy will remain in town a few days longer. During his recent trip to Detroit Mr. Hendy, who is manager of the Denver branch of the Ford Automobile Co., had his sales territory enlarged and now has that part of Nebraska west of Hastings, in addition to Colorado, Wyoming and Utah.

Celebrate Golden Wedding.

Forty or more invited guests attended the fiftieth anniversary of the marriage of Mr. and Mrs. Cyrus Stebbins held yesterday afternoon at the home of their daughter, Mrs. C. A. Wyman, at the ranch west of town. The guests began arriving at two o'clock, and shortly thereafter they were seated around tables burdened with good things to eat.

Following this excellent meal, Geo. A. Austin, who in his early years lived in Pike county, Ill., the section in which Mr. and Mrs. Stebbins lived and were married, made an address in which he said that many prominent people formerly lived in Pike county; in fact there are some people who believe that the next mistress of the white house will be a lady who claims Pike county as one of her homes—referring to Mrs. W. J. Bryan. Mr. Austin complimented Mr. and Mrs. Stebbins upon their fifty years of married life, referred to their high standing as citizens and expressed the wish that they might live to celebrate their diamond wedding.

Remarks were also made by Lucien Stebbins and Rev. T. B. Greenlee, the latter in behalf of the guests presenting Mr. and Mrs. Stebbins with a purse of gold coins.

The afternoon was enlivened with music by members of the Wyman family, and by Charley Ell and John Bonner.

Keith Theatre Opened.

The Keith Theatre, North Platte's new play house, was formally opened Wednesday by the presentation of "The Burgomaster." While the attendance was not so large as the formal opening of the theatre deserved, there was a good attendance and the play was well received. Several girls—with Miss Fern Stamp as chief usher—conducted the patrons to their seats.

Between the acts of the play T. C. Patterson arose and in behalf of North Platte citizens expressed their gratitude to M. Keith Neville for his enterprise in building for North Platte such a beautiful play house, and proposed three cheers for Mr. Neville and the Keith Theatre. Mr. Neville was presented with a large bouquet of roses by the local lodge of Elks.

The theatre is one of which North Platte may feel proud, and with C. H. Stamp, as lessee and manager all can feel assured that the attractions secured will be in keeping with the beauty and excellent arrangement of the house.

China Painting.

Miss Eva M. Baldwin will arrive in town about October 1st and will give instructions in china painting and other art work. Orders for work, or information regarding same, may be obtained by Mrs. Arthur Salisbury.

Prof. W. M. Hayes, Ass't. Secty. of Agriculture of the United States says about Stock Food: "These balanced rations are often found by analysis to consist of the tailings of mills, elevators and breweries, mixed with molasses and salt, to make the compound palatable to the cattle, and one of the largest Stock Food Companies is said to use fine sawdust, finely ground, to cheaply bring up the weight of his product, instead of buying a superior and expensive balanced ration containing high fattening qualities and acting as a tonic, he has paid a high price for a feed containing, along with ordinary grain, finely ground alfalfa hay and other common food stuffs, \$5.00 to \$25.00 per ton, a high percentage of refuse, and non-nutritious matter, some of which may be positively dangerous to the health of his stock."

Make your own stock foods and remedies by using Skidoo Horse and Cattle Tablets for horses, cattle, sheep, swine and fowls; proper dose in tablets. Mix in feed or salt. They contain no sawdust, ashes, chopped feed or bran. Ask for and try once Skidoo Condition Tablets or Skidoo Worm, Kidney, Chicken Cholera, Cathartic, Heave, Fever, Hog Cholera, Distemper, Pink Eye, Cotic, White Plague Preventive, or Blister Tablets, or Loose Killer, Spavin Remedy, or Barb Wire Liniment. SCHOOL NOTES.

Owing to the crowded condition of some of the rooms in the Central building the Superintendent was compelled to find some means of relief. Wednesday morning this took the form of a rearrangement of grades and classes in such a manner that no teacher will have more than a reasonable number of pupils. The fifth grade was struggling along with 63 pupils. This condition was not best and so about 20 of these were transferred to one of the Sixth grade rooms. This necessitated transferring some of these pupils and others until the rooms were easily able to accommodate the number assigned to each.

Deputy State Superintendent E. C. Bishop is spending this week inspecting the Normal Training schools along the main line of the Union Pacific. He was in North Platte all day Wednesday and met the Normal Training classes. The Board will receive a report of his inspection in a few days. He also addressed the High School during the assembly along interesting and appropriate lines.

The high school will get out a monthly paper this year along lines of interest to the friends of the school. It will be under the management of three members of the Senior class and will have under-class and faculty editors. The first edition will be out about Oct. 1.

The Senior class met the first of the week and completed their organization for the coming year by electing the following officers: President, Roy Loudon; Vice-President, Maud Owens; Secretary, Grace Shelton; Treasurer, Paul Arnold.

At fire drill this morning the central building was emptied in a little less than two minutes. The fire escape stairs help the high school to get to the ground in a shorter time than if they had to go by the stairs.

Primers, phonic cards and teachers' manuals for the Ward system of reading have been received and are in use as the system demands. This system is not new, having been used in many of the leading schools of the country for from twelve to fifteen years. And they are still using it.

The science in the high school has been reorganized until the following subjects are being given. Agriculture 1 semester; Physical Geography, 1 semester; Botany, 2 semesters; Zoology, 1 semester; Physics, 2 semesters; Chemistry, 2 semesters. This is a strong course and prepares for the technical and industrial colleges and the scientific courses of all universities.

The enrollment in the schools Sept. 23 was as follows: First ward 98, Second ward 152, Third ward 159, Central building 451, Bratt school 17, Baker school 10, total 887. Number of teachers employed 26, pupils per teacher 34.

Can We Keep From Having Fires?

We think we are careful, and sometimes we are, but nevertheless a fire will break out once and awhile when we least expect it.

You can't prevent fires, but you can insure against them so when you have one the insurance company stands the loss, not you.

In order to accomplish this you must insure with reliable agents and companies. Temple Real Estate & Insurance Agency represents the best. 1 and 2 McDonald Block.

Roscoe Zimmer, of Sidney, is visiting friends in town today.

Geo. Sayer, confined in jail at Ogalala for attempting to obtain money on a seamy piano deal, made a grand stand play at committing suicide one day this week. He swallowed a disinfectant fluid, but the prompt arrival of a doctor with a stomach pump saved Sayer from suffering any ill effect.

New French Cleaner.

H. R. Reese, of the North Platte Pantatorium, clothes cleaner and presser, has brought a French dry cleaner and extractor for cleaning clothes, overcoats, silk, satin and wool skirts, ladies' furs, rugs, fur rugs and lap robes and in fact anything in the clothes cleaning line. It is not to be construed that this French dry cleaner and extractor is a man or a woman, for it is not; it is a new machine that he has bought which cleans clothes by a dry process, and is something new in the clothes cleaning line. This machine not only cleans clothes thoroughly but does it quickly. It makes old clothes new and the specimens Mr. Reese will display shows what the machine will do. This device has been purchased by Mr. Reese at an expense that is not warranted, but he hopes to be sufficiently compensated by increased business for the additional expense.

WHEN YOU BUY SCHOOL SHOES GET THE BEST.

That means to buy them here. We give as much attention to the high quality of young folks' Shoes as we do to those for grown ups. Shoes that are solid all through—double at toes—solid leather counters, out and in soles—and in styles that, when fitted as we fit them, do not interfere with growing feet.
