See the fine line of Christmas china at Rincker's book store.

The union Thanksgiving service at the Episcopal church yesterday forenoon was more largely attended than customary at like service. The sermon was delivered by Rev. Jno. F. Seibert, and has been complimented. Excellent music was furnished by the choir.

9-15 Bale Ties at \$1.12 1/2 per bundle.
GINN & WHITE.

The paucity of the local columns today is due to the quietude which reigned yesterday and the positive refusal of people to do anything today that would tend to make a local item. The activity of a town and its people is always reflected in the local news columns; hence you may conclude that there is nothing doing.

Chafing Dishes, Leather Goods, Hair Combs, Fountain Pens, Cut Glass, Watches, Diamonds and the finest line of jewelry ever displayed in our city. Call early and get the best selection.
DIXON, The Jeweler.

Geo. E. Prosser, treasurer of the republican county central committee has filed with the county clerk a statement of the receipts and expenditures of the committee during the last campaign. The receipts were \$420, of which \$200 was received from the state committee and the remaining \$220 was contributed by twenty-six persons. The expenses were \$405.30, leaving a balance of \$14.70 in the hands of the treasurer. The largest single item of expense was for carriage hire and helpers on election day.

BAPTIST CHURCH

Sunday will be another active day with us. Our school begins today with over sixty present. The morning preaching hour will be devoted to the second sermon in the series on Work, with the sub topic a true estimate.

The evening meeting will be evangelistic, probably followed by the ordinance of baptism.

Manager Miller announces that the two vaudeville teams appearing at the opera house this week will consolidate into one large act called "The Telephone," which ends in a competitive dance and is a scream from start to finish.

That section of the yard between the Locust street crossing and the dispatchers' office and the depot grounds have been saturated with crude oil and covered with a light sprinkling of sand. This, it is believed, will result in the Sherman gravel packing more firmly and will prevent it from becoming loosened and swept by the wind.

Diamonds for Christmas are a safe investment, as well as an always acceptable gift. We are offering this season some exceptional values in fine diamonds. Let us show you we can save you money.
DIXON, The Jeweler.

The chicken killing dog seems to have become satisfied, at least no losses of poultry have been reported for several days. This canine—or canines—succeeded in killing over 200 chickens in the yards of different citizens. It is probably such occurrences as these that tempt people to set out poisoned bait for dogs, but unfortunately it generally happens that the wrong dog gets the bait.

Discount on Millinery.

The stock of millinery at The Leader must be closed out by December 10th, and to move the goods quickly a discount of twenty-five per cent is offered. Many desirable hats of the most approved patterns are offered. Come in and see them.

In the Police Court.

In view of having a "glorious" Thanksgiving, several individuals proceeded to "tank up" Wednesday evening and there was something doing in police court.

Annie Walton rushed the can, and became overburdened with the amber fluid. She lives on east Front street, but with can in hand she wandered up to Frank Tracy's residence in the west end, seated herself in a rocking chair on the porch and was getting ready to spend the night in that position when officers were phoned for and she was gathered in. This little diversion cost her \$5.95.

Bert Boyer became too convivial and wanted to go a few rounds with any and all comers. He fell into the hands of the police who waltzed him off to jail before he had knocked out any one. "Nine ninety-five," or twenty days in jail," said the stern judge.

Chris Kosbau came in from the country and proceeded to imbibe Thanksgiving "cheer." After he drank enough for two or three men, he began impersonating an officer of the law and wanted to drag people to jail. He was having a pretty good time until a real officer appeared and Chris became humbled. The Judge thought he had \$7.95 worth of fun and he footed the bill without saying whether he had value received.

Last evening a stranger in a drunken stupor was found laying under an engine tank in the yards, the soft side of a rail being the pillow for his head. Had the engine been moved a few feet he would have been minus a head. Fortunately he was discovered and an officer took him to jail to sober up. If he has any coin left he should reward the fellow who found and rescued him from his perilous position.

Lexington 12, North Platte 11.

Before a gathering of several hundred enthusiastic spectators yesterday afternoon, Lexington defeated North Platte in the closing football game of the season by a score of twelve to eleven. Victory came to the visitors in the final four minutes of the last half.

The first half was as evenly played as one could wish to see, forward passes and punting being the features. In the final two minutes of the half North Platte failed to get a ball punted by Lexington, and in so doing allowed the visitors to obtain possession of it and make goal, followed by a goal kick, the half ending with a score of six to nothing in favor of Lexington.

Toward the close of the second half North Platte secured a touch down but failed to kick goal, and a little later supplemented this score by a touch down and a goal kick, secured by a punted ball by Halligan which Lexington failed to catch and was picked up by Baldwin and carried to goal. This made a score of eleven to six in favor of North Platte, and the crowd went wild with enthusiasm. Their joy was of short duration, however, for upon return to play Lexington secured a touch down and goal kick, thus placing the score twelve to eleven in their favor. With but two minutes remaining, North Platte by fast work got the ball to their goal line, but the touch down, it is claimed, occurred ten seconds after the expiration of time, and the game was given to the visitors by the above score.

The Farmer's Daughter.

"The Farmer's Daughter," a rural comedy of more than usual merit will be the attraction at the Keith Theatre on Thursday, December 3d. This play tells a pretty story of New England, and carries a deep and reverent moral lesson. It tells of the efforts of a beautiful young woman to right the wrong imposed upon her by a heartless man, and the trend of the story shows the outcast wandering among the bleak hills of social ostracism.

"The Farmer's Daughter" is named as the successor of "The Old Homestead" and "Way Down East," and such it is, if popular approval counts for anything. It introduces two extremely clever and funny characters, "Hy" and "Thankful" are two farm hands whose love affairs run anything but smooth, Hy is bashful while Thankful is over-bold. Thankful's effort to force Hy to propose are said to give rise to some extremely ludicrous situations, and give the audience plenty of cause for the exercise of their risibles.

YOUR HAT

May Be a Stylish One, But It Makes Trouble.

A man usually buys a hat that is "in style," but the modern hat for men has lots to answer for.

Baldheads are growing more numerous every day. Hats make excellent breeding places for the parasitic germs which sap the life from the roots of the hair.

When your hair begins to fall out and your scalp is full of Dandruff it is a sure sign that these countless germs are busily at work.

There is but one way to overcome the trouble and kill the germs—that way is to apply Newbro's Herpicide to the scalp—it will kill the germs and healthy hair is sure to result.

The Monarch actually does its work with so little fuel that it soon Pays Back Its Cost in Real Money.

The things that the Man With a Monarch Range in His Kitchen Has to be Thankful for.

Some Features of the Monarch Range that makes the Woman Who Uses One Truly Thankful.

It Pleases His Wife Thoroughly.

A woman who uses a Monarch Range is more than merely satisfied. She is pleased—enthusiastic about it. She appreciates that she has a range far superior in every respect to the so-called "Steel Ranges" that her friends are using.

It Cooks His Meals Promptly and Perfectly.

No unexpected delay because "the oven wouldn't heat." No spoiled meals that are usually blamed on the cook when the range is really at fault.

Uses so Little Fuel It Pays for Itself.

Here's the important thing. This makes the Monarch the range for poor and rich alike. It saves its own cost in a short time and continues to save, year after year. It's an investment that yields big returns regularly, long after the principal has been paid back.

The Polished Top.

Never requires any stove blackening—yet is always in perfect condition—clean and shiny.

Wellsville Steel Body.

Always retains its splendid finish without the use of stove blacking or paint. Most lasting material known for range bodies.

The Duplex Draft.

A device found on the Monarch alone which does away with sifting ashes and keeps the oven uniformly heated.

An Air-Tight Oven.

With patent non-warping bottom. Seams can never open up to admit drafts, ashes and dust as in a so-called "Steel Range." Assures Perfect baking which can be done only in an air-tight oven.

Lower Warming Closet.

A convenient storage compartment underneath the oven. With the door open it heats the kitchen like a base burner and can't interfere at all with the baking oven.

Expected Some Cussing.
A West Philadelphia husband had just comfortably seated himself for his after dinner cigar the other evening when his good wife arose and took the parrot from the room. "This one, she picked up a couple of envelopes and approached the old man, all of which occasioned that gent considerable surprise.

"Mary," said he, "what in the world did you take that parrot out of the room for?"

"I was afraid that you might set him a bad example," answered wife.

"What do you mean?" demanded the wondering husband.

"I mean," answered wife, handing father the envelope, "that I have just received my dressmaking and millinery bills."—Philadelphia Telegraph.

Don't Spend \$3.50 When Fifty Cents Will do the Work

Prof. W. M. Hayes, Asst. Secty. of Agriculture of the United States says about Stock Food: "These balanced rations are often found by analysis to consist of the tailings of mills, elevators and breweries, mixed with molasses and salt, to make the compound palatable to the cattle, and one of the largest Stock Food Companies is said to use fine sawdust, finely ground, to cheaply bring up the weight of his product, instead of buying a superior and expensive balanced ration containing high fattening qualities and acting as a tonic, he has paid a high price for a feed containing, along with ordinary grain, finely ground alfalfa hay and other common food stuffs, \$5.00 to \$25.00 per ton, a high percentage of refuse, and non-nutritious matter, some of which may be positively dangerous to the health of his stock."

Make your own stock foods and remedies by using Skidoo Horse and Cattle Tablets for horses, cattle, sheep, swine and fowls; proper dose in tablets. Mix in feed or salt. They contain no sawdust, ashes, chopped feed or bran. Ask for and try once Skidoo Condition Tablets or Skidoo Worm, Kidney, Chicken Cholera, Cathartic, Heave, Fever, Hog Cholera, Disenter, Pink Eye, Colic, White Plague Preventive, or Bilster Tablets, or Loue Killer, Spavin Kennedy, or Barb Wire Lintment.
