The primary election in Lincoln county, so far as voters taking advantage of it, was not a success. The total vote cast at the primary in the precincts outside of North Platte was less than 600.

Those citizens of North Platte who are under the impression that flour made in North Platte is inferior to that made elsewhere, can very easily convince themselves to the contrary by cutting out this item and presenting it to O. E. Well at the Vienna Bakery on Front street who will without asking any questions give you a loaf of bread made from Best XXXX or Gold Crown flour. Take it home and compare it with bread made from your favorite flour and be convinced. We believe that "Seeing is believing". Get away from that doubting Thomas class; cease to be a knocker on home enterprise; help to build up your town by encouraging home enterprise.

Work on Branch Extension.

The Bridgeport Blade of last Thursday contained the following article: The construction crews received orders to build forty more miles of the Union Pacific railroad on up the North Platte valley immediately, running the new line through Gering to the Wyoming line. Thus the prosperous and enterprising little city of Gering will be rewarded for its patient awaiting of a railroad.

The work train came up Monday evening heavily loaded with construction material and workmen, and work has already been resumed. The railroad will not build into Bridgeport but will be built on up the river valley from Northport crossing the North Platte about six miles above that place and thence through Gering to the Wyoming line.

A temporary Y and roundhouse is being built at Northport which will be known as Northport Junction hereafter. The division in all probabilities will either be located a few miles above or below Northport.

It was stated by the U. P. officials while here last week that the construction work will be rapidly pushed through to Medicine Bow connecting again with the main line, and that in the near future heavier steel will be laid over the North Platte Extension and be used as the main line to the coast from Omaha and Chicago. This only confirms our statements that we will soon be on the main line with through trains as well as locals passing through Oshkosh.

North Platte Shut Out.

In the game of ball at Grand Island Sunday North Platte was shut out by a the Red Cross team, the latter securing five runs, all of which were made in the second inning by a bunching of hits and two errors on the part of the North Platters. Hansen, of the Central City team pitched for the Islanders, did not allow a hit, and struck out seventeen men; while Paul was touched up for nine hits. With the exception of the fatal second inning the game was a fast one.

For Sale or Trade.

I have a four cylinder, five passenger, 1908 model, thirty horse power Buick automobile which I desire to sell. This car is equipped with a top, magneto, wind shield, speedometer and mud chains; it has been driven not more than 2000 miles, all of which I drove myself. I bought it new; it is as good as new; it is in perfect working condition. I would consider the right kind of a real estate exchange. This car can be bought at a bargain I expect to be in North Platte about the 26th, 27th and 28th of August. If you are interested write: M. S. McIninch, South Auburn, Neb.

If present air castles mature into walls of brick Chicago will soon have a full equipment of fine railroad terminals. Four roads announce the replacing of the old union station at Adams and Canal streets with a \$20,000,000 passenger station. Another fine station with several roads interested is planned to take the place of the Platte street station. Since its railway passenger stations are really the front doors to the modern city such improvements are greatly to be desired.

Farewell Reception.

A farewell reception, which came in a nature of a surprise, was tendered to Rev. and Mrs. John Seibert Friday evening by about 150 members of the Lutheran congregation, and at which practically every Lutheran home was represented. This evidence of good will and good fellowship came in view of the early departure of Rev. Seibert and family for Chicago, where he will take up work in the missionary field of the church.

The invading party, without heralds, knocked for admission at the rectory, and when the minister and his good wife noticed the number of the invaders there was a momentary embarrassment, but this quickly disappeared and the friends were warmly welcomed.

Later the large gathering repaired to the parish house where the ladies of the party served ice cream and cake. The occasion proved a most delightful one in all respect, though each was touched with the regret that the pastorate relationship was so soon to be dissolved.

As a memento of the occasion Rev. Seibert was presented with a handsome suit case and umbrella and Mrs. Seibert with sterling silver articles.
