#### Would Dispose of Armies.

Cyrus H. Street, a former North Platte resident, has established a monthly paper at Council Bluffs which has for its purpose the formation of an international, government for the prevention of war. This international government, according to Mr. Street's embracing all the nations and vested McKay store by the same method. walk ordinance of said city, passed and plan, would be a complete government with plenary, legislative, judicial and Here he found rather easy picking for executive functions, and clothed with authority to provide for the final disposal of all the existing armies and navies of the world.

"It is my hope," said Mr. Street, "that I will be able to prevail upon Cougress at the next session to pass a that all he cared for was money. resolution instructing the President to ask all the nations to assemble for the purpose of entering into a joint understanding by which war among nations will be forever banished."

abolition of the separate armed forces notice verifying the vote cast at the of the nations.

"It costs the nations of the world \$3,000,000,000 a year for their armies and navies," said Mr. Street. "I there was no separate armies and navies, that vast amount of money could be devoted to the peaceful progress of the world. Of this great total \$300,000,000 a year could devoted to the payment of national debts, most of which are due to wars.

"Educational institutions could be endowed to the extent of \$300,000,000; an equal amount could be used in the the implovement of existing water ways and the building of new ones could be carried on at the rate of \$150,-000,000 a year; harbor improvements would benefit to a like amount; the reclamation of arid and submerged lands could be advanced at the rate of \$150,000,000 a year, and another \$150, 000,000 a year could be used in conserving and preserving the natural resources of the several countries. One hundred million dollars a year could be set aside as a fund for the relief of the victims of catastrophes, such as earthquakes, fires, tidal waves, drouths and plague Aged persons and helpless children of all lands could be carrred for with \$200,-000,000 a year.

"If \$500,000,000 of this amount should "If \$500,000,000 of this amount should chase price. Address be loaned every year for the building JOSEPH W. ADKINS, Circleville, Ohio. of railroads and steamships, there would yet remain \$700,000,000 a year for further investment in the peace of the world.

"The United States alone spends \$500,000,000 a year on its army and navy. That amount represents fully one-half the total cost of the government. With only one-half of that 8500,000,000 we could build a 200-foot Bank Of boulevard from Washington to San Francisco and park it ten feet wide in the middle along its entire length."

Mr. Street lived in North Platte prior to 1875 and for a time was clerk in the United States land office under Messrs. Goodwill and Langley. Later he moved to California, and fifteen years or so ago was married to Miss M. S. Honn, a former city teacher and county super-

In many cities both east and west large stories are told of the mortgaging of homes for this purpose. It would be interesting to know how many of these tales are founded on fact. If it is literally true that the people are plunging into debt for this luxury of course at the curb line on the east side of we have the seed well sown for another panic, and a real one.
