There will be decided in court tomorrow the question whether a city can cut down trees planted on ground where a sidewalk should be laid. The case comes from the Third ward, where William Woodhurst was ordered to lay a walk. This he did not do within the specified time, and the city ordered its contractor to lay the walk, which he started to do, whereupon Mr. Woodhurst got out an injunction restraining the destruction of two trees growing on the line of walk. The contractor, however, continued to lay the walk by leaving circular spaces around the trees. If the court declares the city has the right to remove the trees, such will be done, otherwise they will stand in the walk, a menace to all pedestrians at night.

Are You Entertaining Your Club?

"Have you selected the prizes? Why worry about such trifles, when you can step into our store and have us assist you with our suggestions?"

We know what is the appropriate thing to give, and realize it should not cost much.

Don't you think a prize looks better when it is put up in one of our boxes with our name on it, than if you buy it in a department store, where you would pay just as much and do not get the values you could and would if you were to look at our collection?

When down town, step in and let us show you some correct prizes the ladies will like, and can use.
