During the month of June the Burlington railroad made the best record of accurate railroad operation that the west has ever known. Four trains daily were run from Chicago to Omaha, a distance of 494 miles for the thirty days of June, and only twice were any of the trains late in coming into Omaha. There is a record of 1,975 miles each day or a total of 59,280 miles and, in this distance, there were two trains late one thirty-seven minutes and the other ninety-eight minutes, in all 135 minutes.

The Late Isaac Dillion.
The funeral of the late Isaac Dillion, whose death was mentioned in these columns Tuesday, was held from the family residence at 2:30 yesterday afternoon, Rev. Chas. F. Chapman, of the Episcopal church, conducting the service. A large number of friends were present to pay this last respect to an honored and pioneer citizen.
Mr. Dillion was born in Wisconsin, October 14, 1845. His parents moved to near Davenport, Iowa, and there he received his education and grew to manhood. When about twenty-two years old he went to New York and engaged in railroad construction work, and afterward in the same line in New Jersey and Connecticut and other places. He met Miss Nancy Hall while sojourning in Connecticut and married her June 25, 1870. He afterwards removed to Long Island where he was engaged in construction work for two years, and from thence to New York City where he had charge of similar work for the New York Central and Hudson River Railroad. From New York he came to North Platte in April, 1877, and engaged principally in ranching and stock raising, purchasing the interest of M. C. Keith in the firm of Keith & Barton, which continued until 1882; when Mr. Barton sold his interest to Dillion and Collins, which firm, finding the range for cattle restricted by the invasion of homesteaders, were compelled to find new pasture for their great herd. This they did by removing to Northern Wyoming in the Powder river region about 1886, where the business was finally closed out.
During his entire residence here, Mr. Dillion was personally engaged in raising horses, and at one time owned one valued at \$3,000. He had some very fine speedy animals in which he took great pride. Latterly foreseeing the promising future for mules, he imported from Missouri, one of the largest and best breed jacks to be found, and placing it on his ranch at the Birdwood, continued to take deep interest in the live stock business. He was also interested in real estate, and owned at the time of his death some three thousand acres of land, more than one-third of which is in the best part of the valley near North Platte.
For some years he was president of the North Platte Land and Water Company, the first irrigation enterprise in Nebraska, and successfully conducted its affairs until it passed into the hands of the present owners. In 1893, he, together with Col. W. F. Cody, built the canal bearing their name, principally for their own use, but completing it down the north line of the city of North Platte, it proved a boon and was successfully operated.
Mr. Dillion, during his thirty-three years residence in North Platte, proved himself a man of integrity, a man whose word was as good as his bond; of a kind disposition he never hesitated to help those in need; his cheerful disposition brought sunshine to others; he was a companionable man, and every acquaintance was a friend and well wisher. In truth Isaac Dillion was a man of value to the community, and his death is sincerely regretted by all.
He is survived by a widow, son Sidney and two daughters—Mrs. L. W. Walker of this city, and Mrs. Donald Goodwill, of Minden.

Announcement.
I hereby announce myself as a candidate for re-election for representative of the 54th district subject to the approval of the republicans at the August 16th primaries.
I have no extended platform, but agree if elected to work for the passage of good progressive legislation and for the best interests of the district and state. As this is census year the next session will be the proper time to re-district the state and I consider it very important that this be done and that the west gets proper representation.
Respectfully submitted,
B. K. BUSHEE.

FRANK E. BEEMAN
Republican Candidate for Congress.

I am a candidate for the republican nomination for Congress from the sixth district. I believe in good government, a square deal, and that the Roosevelt politics should be put into operation. I have always been opposed to boss rule and machine politics. I believe in representative government; in government by the people and not by the

corporations. I believe in loyalty to republican principles and the protective tariff but do not believe that downward revision has been fully accomplished, particularly with reference to the woolen, cotton, lumber and wire schedules.
I believe a congressman should have convictions and courage enough to vote them; that he should not dodge, sidestep and vote "present;" that he should not inure at home and stand pat in Washington. That he should keep his ante-election promises and vote against Mr. Cannon for speaker after having promised the people to do so; and he should not vote to tax barbed wire at \$15.00 per ton after publicly announcing that it should be placed on the free list. A congressman is elected by the public and paid by the public to serve the public and not to serve himself. He should be satisfied to render public service for the public salary and not seek to further enrich himself at the expense of the public by acquiring coal claims in Alaska belonging to the public domain. His duty is to conserve the public resources and not to absorb them unto himself and Mr. Ballinger's assistance in acquiring a coal claim in Alaska is not sufficient proof of either the regularity or the ethics of the transaction.
