

# ILL-FITTING GLASSES

Some people wear glasses with grace and ease, because they are fitted properly. They fit both their face and their eyes. Not only do we employ skill in the selection of the lenses, but in the fitting as well. So in buying your glasses from us, you are assured a graceful appearance together with a scientific adjustment of the lenses—which means so much that we cannot understand how any one with improperly fitted glasses can neglect this important matter, when such service as ours is at their disposal.
