On the 27th day of April, 1897, there came to the pleasant home of George Green and wife a fine son, somewhat boisterous on his arrival but he soon became as quiet and gentle as a summer breeze, with fine prospects of making the pathway of life for George and his good wife very pleasant. He pulled the beam heavily at nine pounds.

T. H. Jones, of Howe, probably feels like suing THE ADVERTISER for damages. He ordered an advertisement in this paper, but in putting the same in type we made it read that Republican Jr. could show a 5:40 gait at 2 years old without training, when it should have said a 2:40 gait—quite a difference in the time made. Attention is called to the corrected advertisement.

Dr. J. L. Melvin.

Office at residence, south of Minick store building.

On account of the extensive wash-outs on the A. & N. the St. Joe and Denver freight trains now run through Nemaha. The passenger trains go up on the opposite side of the river, crossing at Nebraska City.

He tore down some old corn cribs a few days ago and with the assistance of another man or two, some boys and dogs they succeeded in killing 271 rats. He killed 150 rats one day last fall, but the supply does not seem to have been decreased much.

Deputy Sheriff Hill gave us a pleasant (unofficial) call last Saturday. He has been doing some lively rustling for two or three weeks, arresting the hog thieves who have been committing depredations near Brownville. He traced two fellows to St. Joe and from there to Sioux City, Iowa, where he captured them. He has done some fine detective work on this case, as well as some very hard work.

The Dairy Department is edited by H. C. ELECTRIC BITTERS.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed when the languid, exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, indigestion, constipation, dizziness yield to Electric Bitters. Fifty cents and \$1 per bottle at Taylor's drug store.

The family of Mrs. Von George, Olive Chaney and the two youngest daughters of John Timmerman, were all made very sick on Tuesday night, from eating the eggs of a large Missouri river garr-fish, which was given to the former family by John White, a fish peddler. The fish was about to be thrown away by the peddler, who had it tied on his wagon simply as a curiosity while he was selling out his load of fish, when the young boy of Mrs. Von George carried it triumphantly home. Mrs. Von George found on cleaning it that it was full of eggs and cooked them for supper, saving the meat for breakfast. The Timmerman girls and Olive Chaney were present at supper time and ate of the eggs, and all of them required the assistance of a doctor in a few hours. Dr. Andrews was called and soon had them out of danger. Moral—don't eat fish that you know nothing about.—Stella Press.

One advantage subscribers to Wallace's Farmer (weekly, Des Moines, Iowa, \$1 per year) is that they can ask any questions concerning sick animals, grass and grain growing, law points, etc., and have them answered without charge. This privilege alone is often worth ten times the subscription price. You can get a sample copy free by writing for it. We will send Wallace's Farmer and THE ADVERTISER both one year for \$1.60.

Aug. J. Bogel, the leading druggist of Shreveport, La., says: "Dr. King's New Discovery is the only thing that cures my cough, and it is the best seller I have." J. F. Campbell, merchant of Safford, Ariz., writes: "Dr. King's New Discovery is all that is claimed for it; it never fails, and is a sure cure for consumption, coughs and colds. I cannot say enough for its merits." Dr. King's New Discovery for consumption, coughs and colds is not an experiment. It has been tried for a quarter of a century and today stands at the head.
