DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will find just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble.

When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Birmingham, N. Y. The regular fifty cent and dollar sizes are sold by all good druggists.

CONSTIPATION

The Nebraska Advertiser

W. W. SANDERS & SON, Prop's.

FRIDAY, DEC. 4, 1903.

With a three-foot precipitation in ten months, Nebraska cannot be classed as an arid region.—O'Neil Frontier.

Nearly ten million bricks were made and sold by the Table Rock brick yards this year and twice as many more could have been sold if they could have made the brick.

Emperor William of Germany has withdrawn his offer of a cup for an international yacht race in 1904, giving as a reason poor health, and has substituted for it the offer of a cup to be raced for in 1905.

Some of the papers are booming Hon. E. J. Burkett for United States senator to succeed the present senator, C. H. Dietrich. There is no doubt but that Mr. Burkett would make an excellent senator for Nebraska.—Leigh World.

It would be difficult to conceive a meaner law than the one which allows a husband to will away all his property from his wife, and yet such is the state of affairs in Nebraska, and there are men mean enough to do such a thing.—Sargent Leader.

The University of Nebraska football team covered itself all over with glory again this season, winning every game played. In only two games did the opposition team make a score. This is the second year this team has won every game played.

We would suggest that a good investment for some of our local capitalists would be the opening of a brick yard in Nemaha next spring. The clay here is of excellent quality and fuel can be bought here as cheaply as anywhere in the state probably. We believe the investment would be a profitable one if well managed.

We notice Albert D. Gilmore favorably mentioned as a candidate for Secretary of State on the republican ticket next fall. Mr. Gilmore has made a most efficient officer wherever he has been tried and we believe if he was elected to the position of secretary of state he would make as good an official as the state ever had. We hope he will be nominated.

The Fremont Tribune has a full column editorial endorsement of Congressman Burkett as successor of Senator Dietrich. It is the first gun fired in the United States senatorial campaign. Several papers second the nomination. Mr. Burkett is universally conceded to be a strong man, with a good clean record and has won a prominent place at Washington by his industry and activity.—Pender Republican.

The high price of meat products as compared with the price of live stock has stimulated the entrance of competition to the packers' combination in St. Louis. A new beef dressing company has been organized there by business men, who have subscribed capital to the amount of a million dollars to put a new enterprise on its feet. If the present margin between live stock and meat is maintained a strong temptation will exist for capital to enter the slaughtering business in every city in the country.—State Journal.

Final returns from the sugar beet crop are beginning to come in, and the crop is shown to have been generally profitable. The Randolph Times tells that J. O. Sandberg had a little over five acres in beets and sold seventy-five tons, or thirteen tons to the acre. He received \$4.20 to \$4.30 per ton, or about \$276 for the five acres. His expenses for his seed and all hired help were about \$75, and he sold the tops for \$20 on the ground.

This is a fair illustration of the way the crop has been running this year, but owing to the fact that the owners' labor is not included in the estimate of cost the net profits are made to look larger than is generally the case. The total cost usually amounts to from \$25 to \$30 an acre, but even at this the Randolph beet grower made \$25 net per acre.—State Journal.

An enterprising Kansas auctioneer has provided himself with a large tent which he intends to carry with him to his sales in the winter to shelter the crowds while he does the selling. The plan will make sales possible regardless of weather, and by adding to the comfort of the occasion will make the attendance better and render the work of the auctioneer more effective than it could be with the bidders shivering in the cold.—Ex.

Reports from Washington tell of the interesting feature of the drawing of seats by members of congress on the opening day. Mr. McCarthy got a fairly good location where he can catch the speaker's eye when occasion demands, and yet near enough to the door to insure a quick exit when the house gets to blood shed and the hurling of spittons. Burkett and Hinshaw got right into the middle where the language will flow thickest. Mr. Hitchcock, the poor lone dimmycrat, went away back and sat down in the "Cherokee strip" but there is reason to believe he regards himself very lucky in getting any kind of an old seat in the chamber.—Fremont Tribune.

Chicago, Nov. 30.—Following its announced policy of centralization the International Harvester company has decided to lay off 7,500 of its 19,000 employees and thus effect a saving of \$5,000,000 a year. The first step in the direction of economy was taken Saturday night when 1,500 employees of the Deering division were notified their services were no longer required. These men were employed in the factories at Irondale. It was announced yesterday the Irondale men were not the only Chicago employees of the company who were to suffer. Of the 7,000 workers in the Deering division 2,000 in all are to be laid off. The McCormick division will not discharge so many, but 1,500 of the 7,000 employees being slated for dismissal. The other 3,000 workers to lose positions are those employed in the mills in Milwaukee, Springfield, Ohio, and Plano, Ill.

Washington, Nov. 30.—Two officials of the naval observatory are arranging to send a New Year's greeting from Washington to all the countries of the civilized world by the employment of a series of signals to all points to mark the exact second of the beginning of the new year. A similar plan was employed successfully last year in the case of the United States and it is now intended to extend the service this year to cover the continent of North and South America, the distant insular possessions of the United States and all points in the world having the necessary cable and telegraphic connections, in case the co-operation of foreign governments can be secured, of which there is scarcely a doubt. Last year the receipt of the midnight signals was accurately timed at the Link observatory in California and it was found that it took only six one-hundredths of a second in transmission from Washington.

The Chicago Tribune.—Nineteen lives were lost on the football field during the season of 1903. One boy was driven insane from injuries. Thirteen players were severely injured some of them being disabled for life. The number of minor, but painful accidents, goes into the hundreds and the list of the severely injured necessarily is incomplete.

"The feature of the year's tabulation is that it shows serious casualties practically were confined to untrained players. No member of the first class elevens were killed or permanently disabled. One Yale player and one Harvard player suffered a broken leg.

"No player in any of the teams of the 'Big Nine' in the west was the victim of any worse injury than a wrenched shoulder, a bruised head, a sprained knee or a turned ankle.

"In consequence of the injuries sustained by their players several of the minor schools have forbidden the game of football. Two towns—Columbus Junction, Pa., and Greenfield, Ohio—have stopped the sport as the result of petitions circulated by parents."
