She will be greatly missed, both at the home of Mr. Hawxby and in the community and school.

Clyde Harford on U. S. S. Minnesota May Get Promotion.

A very interesting item regarding Clyde Harford of this county, who is an electrician on board the U. S. S. Minnesota, in "Fighting" Bob Evans' fleet, appeared in the Pamona Daily Progress which is as follows:

Clyde Harford, a second class electrician on board the battleship Minnesota, was a guest at the home of Jesse Edmunds on Tuesday. He was a friend of the family in the east and although having been but a short time on the Minnesota has been advanced in position and in all probability will be head electrician by the time the fleet arrives again in New York. He is enthusiastic in his work and the wonderful achievements that electricity has been able to accomplish in adding to the efficiency of the war vessels. Almost everything about a battleship is done by electricity, from the raising of the huge anchor to the peeling of potatoes. An electrician finds ample opportunity aboard a battleship for all his ingenuity and knowledge of this subtle power.—Herald.
