Lincoln, N-b., S., t. 20. -The most stubbornly confested election that has cossay and been chosen and that the vote ever be a called upon to numin de a congreisman in Nebrack etasbern in seeden at the Metropolicon rink since & o'crock | onight. Five candidates were entered in the race, viz. W. J. Connell, S. M. Chapman, E. E. Brown, L. W. Celby and Isham Reavis.

D. G. Courtney, chairman of the contion. This, as usual, waved the conventional committee on credentials, and a gentleman from Douglas placed Hon. Frank Ransom, of Otoc, in nomination for temporary chairman, and he was chosen by acclamation. On taking the chair Rausom thanked the convention for without an extended speech. A. L. Melvin, of Nemaha, was chosen temporary secretary, and Edward Geary assistant.

After a short wrangle over the question of nominating speeches the convention decided that the eagle might soar five deputy sheriff of Dallas county was in that a call should be made by counties, honors should name its man.

E. H. Woolly, of Cass, presented the name of S. M. Chapman; Judge Baldwin, named W. J. Connell, and his nomination was seconded by W. H. Dickinson, of Saunders, and Henry Clark, of Sarpy. Judge Field, of Lancaster, waxed cloquent in naming E. E. Brown. A gentleman from Richardson presented the names of Isham Racvis, and John Ellis, of Gage, did a like homor for L. W.

Thomas Clark, of Lancaster, nd Mr. Emery, of Gage, were found to be neces sary appendages to the convention, and they were elected assistant secretaries and

Chairman Ransom then ordered the cali of countres, and the first ballot was taken, resulting as follows: Conneil 54. Chapman 29, Brown 36, Reavis 15. Colhy 27.

After three hours' steady balloting the fifty-fifth ballot found all five still on The men had lighted the lamps in the the track, with Consell in the lead, Chapman second, Brown third, Colby fourth and Reavis fifth.

The Richardson county delegation then held a consultation and Reavis was T. U. state convention met here today child. dropped. Shocking Performances at Church

Raleigh, N. C., Sept. 22.—There was a strange stew in a church in Burke county yesterday evening. People who had occasion to enter the building were horrified at seeing a dead man lying on the floor and beside him a bottle of liquor. An investigation of the case was at once begue, and a most disgraceful state of affairs was brought to light. The dead man wa Horace Cardwell, and, in company with two other abandoned fellows, John Mitchell and Columbus Mitchell, he bad gone to the church to have a drunken spree. The three had purchased five quarts of brandy, and in a night drank it all but half a pint. When daylight came the Mitchells left. Cardwell by unconscious Ritchie, Omaha; H. Emerson, Lincoln, on the floor. He never awoke, and was found horribly awellen and distorted. church and had a regular orgy.

BLACK ART IN INDIA.

A COUNTRY WHERE WITCHES AND SORCERERS LIVE AND THRIVE.

How Auxious Hindoo Mothers Try to Render Their Children Witch Proof. The Oreat Occult Powers of Screerers. Brahmins Who Excel in the Black Art.

There is senreely a village in Eastern and Southern India that does not possess its witch, visitors and clubs from towns of several | to whom terrible powers are attributed by miles distant put in an appearance and the popular mind. The witches, they say, can such the blood of healthy children; and the anxious mother, directly she sees the to console each other over lost hopes. At witch approach, catches up her child and being sucked to death. Of course the best autidate to the occult influence of the drouded ployed to counteract their malignity. They are sometimes detected by sait being placed times the trembling mother spits on the head their bearers marched, the sight might of her child, or gently bites his little flager, have been a pleasing one, but as it was, in order to render him witch proof. No woman of the lower orders who lives in a village infested by a witch would venture to the lights could be seen moving in every | leave her house with her child until she had made herself and her child safe by putting a certain mark on his forebead TREATMENT OF THE BEWITCHED.

There are various modes of treatment for give them credit for their peaceableness, persons supposed to be under the influence of a witch. The forehead of a child suffering from illness brought on by a witch's curse is sometimes marked with burnt turner procession were the B. & M. band of this sprinkles water over her child and rubs his forehead over with burnt wicks of earthen amps fed with mustard oil. Sometimes The ladies' democratic clubs of this branches of particular trees are waved over the putient, who is made to chew the leaves of plum trees. But should these simple reme-

with the procession and were the main dies fall, as they often do, to produce any effect on the bewitched child, what would mppen then to the poor sufferer! There is no need to be in despair in this matter; for, ty having a candidate for congressional sheriff has just seized over four hundred this city entertained their lady friends as the dock grows side by side with the nettle, so in India there lives close by the itch the sorecrer, the practitioner of the black art, who is always called in when the uple remedies inil.

Lake the witches, the soreerers are believed a possess great occult powers; but, unlike the former, they often me their skill for bearileent purposes. The common soreerers in Italia are a people of very low easte, or o caste at all, belonging mainly to the 2071 That races who are still outside the pale of Lindboism. Their treatment, though fiet, violent, does not in modern tim s result ad ath, as it did in some authenticated cases which happened years ago. The sorecrer, taking his place in front of his patient, with flowers in his hand and a lamp and incense surning before him, gives burnt turmeric and charmed mustard seed to the bewitched person to smell, and dashes cold water with violence upon his face. Cometimes the treatment of the patient at the hands of a sorcerer vicariously tortures the witch. Thus it is said that in one instance, upon the sorcerer squeezing the juice of a certain plant into the eyes of a bewitched child, the witch im-

mediately complained of pain in the eyes,

which she lost, and the child was cured.

METHODS OF BRAHMIN SORCERERS. By far the most formidable ungic powers ire, nowever, attributed to a class of Bral mins, who are par excellence the professors of the black art in India. LIGHTS OF THE SOUTH.

A Payorite Lump Burley the Days of the Confederany-Pine Eners.

In their numy exigencies and narrow strain the people of the Confederacy were towhere put to a more crucial test than in he matter of lights. In the cities gas, the amos of which were as offernive to the oline tori - as its radiating power to the eye, afford of a wrotched posterne of illumin In the country, where even the miserable gas was not to be had, the makeshifts to supply ight were many. There was but little coal oil in the south, and as Hitle sperm oil, and the fallow of the country went in large measure to the armies for military purposes,

A favorite lamp, and one easily fitted up, was a saucer of lard with a dry sycamore ball floating in the midst of it. A blaze applied to the sycamore ball readily ignited it, and it burned with a feeble, sickly plare until its sea of lard disappeared, and left it no longer a flery bland. In the recipes printed in the current newspapers, setting forth the proper manner of preparing the sycamore balls for use as candles, special insistence is made that they are to be "gathered from the tree and dried in the sun." If allowed to become overripe and fall to the ground before use their fibrous covering would less its hold upon the core and drop away into the land.

In the slave quarters, "fat" pine knots blazed upon the hearth through winter and summer nights alike, while the night scenes of the negroes merry makings in the open air were Illuminated by means either of the same material or of crude tar piled upon the bowls of broken plantation shovels, set high in the midst on tripods unde of three limbed saplings. Peculiarities of Porpoise Leather,

Everybody knews that porpoise skin makes good shoe strings, good, at least, so far as durability is concerned. It is not so well known that perpoise leather also makes good shoes and that there is quite a demand for shoes, and that there is quite a demand for them. A perpoise leather shoe, if made well in the first place, always fits well, for, while it is very stretchy meterial, it can never be made to cover micre surface, no matter how much it is stretched. What it is extended in one direction it losses in another. This peculiarity makes it very close fitting, and at the same time soft and pliable on the fact. It used chiefly for shoes by poppie anxious to keep their feet dry, as it is absolutely impermeable to water. When it is wet, howshoes, and that there is quite a demand for The Gulf Stream touches it and so makes a made to cover more surface, no matter how permeable to water. When it is wet, however, it swells to twice its usual twickness, There are thirty-seven tunnels more than | which temporarily spoils its good looks. -New York Sun.
