THE COUNTY CAMPAIGN.

J. L. UNRUH.

Now that the county conventions have been held, and candidates nominated for the different offices, THE HERALD wishes to urge every man that believes in republican principles to work faithfully, until after the polls close in November, for the success of the republican icket.

But THE HERALD wishes to remark at the beginning that it is not its intention, and does not advise members of the party, to indulge in extravagant mud slinging at the opposing candidates, or what is the duty was removed from these worse, to seek to place them before the public in an unfair light. Wa desire to meet the enemy on an man that favors the free entry of supremacy.

We believe there are but two lavoring the position of the repubrequisites that should serve as a guide to every voter; viz., capability factory manner. In choosing candidates for which to vote, THE HERALD will not fear the result, if every voter will consider carefully the capability of the republican nominees

We are aware, that oftentimes in held as men, regardless of party affiliations. But this is no year for republicans to be thus governed. The members of the party of all sections should work in unison for the success of the republican ticket because they believe republicanism is right. It is folly to say that party lines should not be drawn in local affairs. We believe that the party should be kept in thorough organization from the lowest municipal election to that of the president of the United States. By our votes we shall either help republicanism or do the cause harm. It behooves every member of the party to vote keeping this one thing in view, and give the enemy no encouragement at the expense of the republican ticket.

The other tickets are in the field. There is not a man opposing the republican nominees that should draw a single vote from the republicans. The republican ticket, as a whole, represents greater ability and is eminently better fitted to guide the affairs of Cass county than either of the opposing tickets.

All that is needed to assure party success is a srong, continuous and harmonious pull toward the objective point.

NEBRASKA democracy in declaring in favor of free coinage of the silver of the world, fell into the same bottomless pit into which the democracy of Ohio has fallen.

The conservative business men of all parties assert that such a course could not fail to result dispistrously to the business interests

of HE HEntry. They assert that to not give. This is plain, practical admit into circulation the proposed business. 78-cent dollars would surely withing the currency, by driving the bune. gold into hiding or export.

The World Herald appears to be looking through a republican lens, but at any rate this plain statement of affairs as the paper sees it, regardless of who favors it, is to be commended.

THE HERALD of the city is getting into its old habit of making un warranted assertions as to the purpose of the democracy. It yesterday stated that "the democracy de sires to replace the duty on sugar, tea and coffee "we have never seen any democratic declaration to that effect and we would like to know where THE HERALD gets its authrity from for the statement. Besides if they did we have excellent republicans testimony (Major McKinley for instance) that it woulden't make any difference to the people of America, because it is the foreigner that pays the tax, you know. Journ-

make the democratic platform or misrepresent the party in any form but in observing the cours cursued by the party in the past and, judging from its present policy, as other conclusion could be drawn. In glancing in retrospect at the party actions we find that at no these duties were removed, we are time since the civil war, has it taken led to conclude that they, too, favor authority we have is the once famous Mills bill, which retained these duties. But laying aside the record whom we shall elect will not be of the party, is it not conclusive that it favors a duty on these articles, in asmuch as it favors a revenue tariff: A duty on these articles could never serve as a protec tive tariff because we will never have induseries producing these products, to protect, as it is impossible to produce them here, profit ably. In accordance with a provission in the McKinley bill the articles in question were admitted free of dutyand every demoratic ora tor, and every democratic state convention that has been held this year condemns, in no unmisstakable language, the provision by which commodoties. We defy Journal to name a single democratic states open field and in a clean, honest these goods into our parts, and we and manly fight, struggle for party are quite certain that the Journal will not place its self on record as

Major McKinley party places before the voters of and the party to which he belongs this county, a ticket every member has always declared that a duty of which, as we have before stated upon this class of goods, is a tax at length, is eminently fitted to and invariably paid by the conperform the duties of the office to sumer. A purely revenue tariff as which he aspires, in a highly satis | advocated by the democratic party is always added to the price of the article. For that reason the republicans favor the free entry of this class of goods into our ports. But they favor a tariff upon other products in order that we may compete Great Brittian with local campaigns, candidates are and render the goods cheaper to favored because they reside in a the American consumer than when particular locality, or because of depending upon the foreign monothe high esteem in which they are poly a revenue tariff is as much unlike A protective tariff as democ-

The democratic party of Nebraska with its accustomed devotion to foreign, and particularly British interests, "denounces the one-sided party of favoring a duty or sugar, reciprocity proposed by the present. administration.

The democrats of Nebraska a year or so ago were commending which provided for the free entry Blaine and reciprocity. It looked of these commodoties into our to them then that this new plan of ports, as a deception and a humdealing with foreign nations was bug. The party favors a duty on on the free trade principle and these commodoties, because, if for these democrats were ready then to no other reason, that it is opposwallow reciprocity and embrace stie to republican doctrine. its illustrious promulgator. But now that reciprocity is a law and is performing its good and perfect throws off the democratic cloak and work, demonstrating that its real appears a full Independent attire. virtue lies in commanding certain advantageous concessions from work cease to exist. THE idea seems to be prevailing that Judge Chapman is particularly desirous to enter the canvass for the judgeship without opposition. the district has so highly valued his services that he has been made the choice of all parties and sections, and doubtless for this manifes tation of esteem in which he is held by the district the judge feel highly complimented and is truly grateful. He will be a candidate for reelection on the republican ticket but he will come before the people making no claims to a "pre-empted right" to the position, relying only upon this eminent fitness as evidenced by his course on the bench in the past. If the democracy has a candidate whom they desire to place in opposition to Judge Chap-THE HERALD does not desire to man, we feet puite sure that he will be gladly welcomed into the ring.

In voting at the approaching fall election, it should be borne in mind that the democratic party desires indicated by the declarations of the to replace the duty on sugar, tea state platforms thus far, surely no and coffee. The third party is not so pronounced in its views, but as it is opposed to the law by which a position other than that attributed the duty. It may appear to some to it by THE HERALD. The latest that these national questions should not enter into the discussion this year, inasmuch as the officers permitted to act, in an official capacity, concerning these questions. While this is true, it is highly important that every man who believes in republicanism vote the straight ticket, for a victory never fails to stimulate activity and arouse enthusiasm two factors absolutely essential to assure victory

> NEBRASKA ADVERTISING THE TRAIN.

We glean from our exchanges that the proposedplan for equipping the advertising train is assuming shape and there can be no doubt that all will be in readiness not later than Oct. 15th

The train will consist of five cars designed to carry the exhibit and two sleepers for the accomodation of the representatives.

The entire trip is to be made in thirty days, during which all the principal eastern states will be visited, and in addition to the exhibit prepared, the country will be flooded with advertising matter. The project if successfuly carried out can not fail to bring good results and fully remunerate in the

MAJOR McKINLEY dispensed re publicanism to the masses at Ottumwa, Ia., yesterday. Republican success is so well assured in Ohio thatthe Major seems to be losing in terest in the campaign in that state. With tin plate manufacturies starting up in several places in Ohio staple goods becoming cheaper and an increasing market for farm products, Campbell finds it quite difficult to make that tariff discussion interesting for the Major. It really shows a spirit of true manhood on the part of McKinley, to cease NEBRASKA DEMOCRATS AND RE pounding the man, that he has him down.

7 per cent money for persons wishing to build in South Park.

Look to the Future and invest now in South Park.

THE OPPORTUNITY OF A LIFE TIME.

Among other reasons why it is better to invest in South Park than elsewhere in the city, are these:

Property is more saleable if you wish to sell, more rentable if you wish to rent; if looking for an increase in value, no other part of the city will compare with it in prospect The 5th ward composed largely of

South Park, less than three years ago could hardly muster up a vote at the last general election the vote was 139 and all were not polled. It has been less than two years since the city invited us into the corporate limits, yet we have over one hundred newly built house ond others in process of construction, owned. with few exceptions, by the parties now living in them.

This part of the city has a store water mains, electric are lights, church and school priveledges and a new church edifice just erected of which the whole city is proud.

Plattsmouth's steady growth for five years past almost doubling its population; the advance stand it has taken regarding public improvements, the certainty of a new \$80,000 court house; the completion of the great Missouri Pacific railway into this city, giving us another great trunk line and competing market; the constant increasing pay roll of the C. B. & Q. shops, together with many other well known reasons, assure a steady and permanent advance in realty, which will doubtless effect South Park more favorably than any other portion of Plattsmouth.

With a view to the encouragement of still greater growth of this part of the city, we will continue to sell lots on monthly payments, furnish money with which to erect houses will exchange lots for other improved city property or for desirable improved or unimproved lands.

It is not so much the speculator as the permanent resident that we wish to purchase this disirable property. Out of over Eighty presowners of South property none are speculators hence there are no fictitous values and lots are selling at about the price they were immediatly after it was platted a strong argument why the present is a most desirable time for investments. Much additional information regarding South Park may be had by calling at my office on Main street over Bank of Cass County.
