Supreme Court Decision.

The following cases from Cass county were handed down by the supreme court yesterday:

Rakes vs. Blazer. Appeal from Cass county. Affirmed. Opinion by Justice Norval.

Under section 329 of the code a person having a direct legal interest in the result of an action in which the adverse party is the representative of a deceased person is precluded from testifying to any transaction or conversation had with such deceased person, unless the evidence of the deceased has been taken and read on the trial by the adverse party in regard to such transaction or conversation, or unless such representative has introduced a witness who has testified in regard to such a transaction or conversation.

2. On the death of an intestate his lands immediately ascend to his heirs, subject to the right of possession by the administrator pending administration and to his power to sell the real estate to pay the debts of the estate, in case the personal property is insufficient for that purpose.

3. Where, pending an action to set aside a deed to real estate and to quit title, the plaintiff dies intestate, the action may be revived and continued in the names of the heirs at law of such deceased person.

4. The mode provided by title 13 of the civil code for reviving action by conditional action of revivor is not exclusive. Section 45 of the code confers authority upon the court to allow the action to be presented by or against the representatives or successors in interest of a deceased party. For this purpose supplemental pleadings may be filed and summons served in the commencement of an action. Fox vs. Abbott, 12 Neb. 333; Carter vs. Jennings, 24 O. S. 182.

5. Held that the present case was properly revived in the names of the heirs of the deceased plaintiff.

6. Evidence held to sustain the findings and decree of the district court.

Musbaum & Co. vs. Solomon. Error from Cass county. Reversed and remanded. Opinion by Justice Norval.

During the pendency of the action in the district court all the pleadings were lost and have not since been found. The action was tried and a verdict returned in favor of the plaintiffs, in the absence of the defendants and their attorney, without the substitution of copies of the lost pleadings. Held, that the verdict be set aside and a new trial granted. Grimison vs. Russell, 11 Neb. 469.

World's Fair Notes.

Hayti has appropriated \$25,000 for its representation at the exposition. Fred Douglass has been appointed commissioner to represent that country.

A heroic statue of Columbus, by Louis St. Gaudens, will stand before the main entrance of the administration building.

The "Independent New York Schuetzen" considered the elite corps of German-American sharpshooters, have decided to attend the exposition in a body. The organization has in its membership many prominent business men. It has made two or more shooting tours in Europe, on one of which it was entertained by Prince Bismarck.

M. Seranno, Mexico's special world's fair commissioner, who visited Chicago a short time ago and made a thorough inspection of exposition progress and affairs, has made to his government a report exceedingly favorable to the exposition. He advocates an elaborate participation by Mexico. President Diaz has expressed himself in favor of making a fine showing of Mexico's progress and advantages rather than of her relics and antiquities.

The total amount reported appropriated by foreign nations and colonies for their representation at the exposition, so far as heard from, is \$3,951,053. Quite a number of those which have decided to participate have not yet made appropriations.

Jackson Park will retain as one of its permanent attractions the building which Japan will erect for its headquarters at the exposition. The building will be modeled after one of the most famous and archi-

tecturally unique of Japan's ancient temples, and with its surrounding garden will cost \$70,000. About 40,000 square feet will be occupied. The South Park commissioners have accepted the offer of S. Teguma, representative of the Mikado, to give the structure to Chicago on condition that it be kept permanent and in repair, and that one room in it be devoted to a public exhibit of Japanese works of art, which the Japanese government agrees to replenish from time to time.

A cablegram states that Switzerland will not be officially represented at the exposition, but that the government will examine the representations of citizens desirous of exhibiting and will consider the question of granting a subsidy to enable them to do so.

Austria will make a fine exhibit of glass, porcelain, bronze, leather, artistic iron and cabinet work.

The Bethlehem Iron Company, of South Bethlehem, Pa., will make an extensive exhibit, including steel rails, a battle-ship shafting 125 feet in length, guns, projectiles, an armor-plate ingot weighing 100 tons, and various naval appliances. The company will also erect a full-size model of its famous 125-ton steam hammer, said to be the largest in the world. It will be to all appearances a perfect duplicate in every respect. It will span the main avenue of Machinery Hall, and will rise to height of ninety feet. At the last Paris exhibition great attention was attracted by a similar model shown by the Creusot works, but representing only a 100-ton hammer.

E. Seyderheim, horticulturist to the emperor of Austria, has written from Buda-Pesth that he will contribute to the Exposition's floral display a collection of the rarest roses, embracing 200 standard, 200 half-standard tree roses and 400 rose bushes.

Mrs. Frana Wait, one of the lady managers of California, has offered to finish in redwood one of the large reception rooms in the Woman's Building.

The French government, through the efforts of Minister Whitelaw Reid, has agreed to permit the Exposition authorities to send into France, free of duty, electrotype of buildings and other Exposition matter intended for use in French papers, to stimulate interest in the Fair.

The exhibit which Illinois women will make in the Woman's Building will be a model hospital, conducted entirely by women. The women physicians and surgeons of the state and the Illinois Training School for Nurses will manage the matter. Three rooms in the Woman's Building have been assigned for the exhibit, and the state board has appropriated \$6,000 to defray the expense.

One of the most enjoyable social gatherings of the season took place at the residence of B. O. Marquadt, at Avoca Saturday evening, in honor of the graduation and return home of their popular and highly esteemed townsman, J. F. Brendel M. D., who has been attending the Physio-Medical college of Indiana, at Indianapolis, and graduated March 16, '92, with high honors. At 8 o'clock about seventy-five of his friends gathered at the above named residence, and the doctor was sent for post-haste and on entering the gate was greeted with a serenade by the Avoca band. He tried to look as if he was not at all surprised but made a signal failure of it and on entering the parlor was further surprised by the greeting and congratulations of his many friends. After quiet had been restored, Mr. C. A. Kaufman in a neat little speech, presented him with a beautiful and comfortable rocker, a present from the merchants of Avoca. The evening was spent in cards and other games and at about 11 o'clock refreshments were served which would have done honor to Delmonico's, after which the guests departed with highly flattering expressions of their evening's enjoyment.

The Eagle this week says that politics have reached a white heat in Weeping Water, and that the boiling point has been left a long ways in the rear.

Weeping Water is all cut up over the city election which occurs in about two weeks. It seems to be about equally divided between the republicans, democrats, prohibitionists, independents, temperance and the saloons.

Frank Bull while riding in a wagon last Thursday seated in the rear of the bed, was jolted out, owing to the horses getting scared and making a sudden turn. In striking the ground his knee was dislocated. Frank is able to get around but finds it quite painful.—Weeping Water Republican.

I. M. Ward was home from Louisville all of last week, sick. He was confined to his bed most of the time. He was well enough Monday to go over to Louisville to look after his stock that was saved from the fire. He will open up at once in the old Louisville house until the new bank building is completed, when he will occupy one of the rooms in it.—Weeping Water Republican.

An event of unusual importance transpired here last Friday afternoon, March 18th. The records of our past history showing a similar circumstance only on two occasions. The birth of a boy and girl (twins) this time at the home of Mr. and Mrs. K. S. Wilkinson. The proud parents are receiving the congratulations of friends with becoming dignity—and meekness.—Weeping Water Eagle.

Master Paul Sitzman was placed in a rather trying predicament this noon. While trying to recover some money which he had lost in the sewer man-hole at the corner of Fifth and Vine streets, he got both arms pinioned between the grating and was unable to remove them. After remaining in this painful position for over an hour, lying flat on his breast and his face pressed against the iron grating, his swollen arms were finally extricated.

Explosive Power of Benzine.

An explosion of benzine vapor at the Baldwin Locomotive Works, February 16, killed two men and seriously injured a third. The dome of a boiler had been removed, and just before the noon hour the men applied a considerable quantity of benzine to bolt and rivet heads inside the boiler to soften the rust and scale. On resuming work one of the men got inside the boiler, and a boiler maker's lamp was lowered to him. A considerable quantity of benzine vapor had probably accumulated in the boiler and mixed with air, for an explosion took place, and the body of the man inside the boiler was fired like a projectile straight upward through the dome opening and lodged in the roof trusses overhead. The overhead electric crane had to be run underneath in order to reach him. Notwithstanding severe burns and other injuries, he lived after the accident for several hours. The workman who lowered the lamp into the boiler, and who was standing directly over the dome opening, is supposed to have been struck by the body of the man inside. He was also blown upward, struck one of the roof braces, and fell on a pile of iron plates. He died in a few minutes. The third workman was standing on top of the boiler between the cab and the dome. He was thrown to the ground and badly burned and bruised.—Ex.

A TRICKY ALLIANCE.

A Plan by Which Nebraska is to Lose its Voice in the Electoral College to Defeat Republicans.

The alliance party in the city were highly hilarious last evening over news that is considered will carry the party to the height of power in a short time. As learned by the Press from a prominent member of the party, a former democrat and state senator, the situation is as follows:

The gentleman, whose name it is not permitted to give, says the plans have already been completed by the members of the alliance and democratic parties whereby the strength of both parties will be turned towards the alliance ticket. This is carrying out Gen. Van Wyck's scheme, which was given some time ago in the Press, by which he is to be elected governor and then climb into the United States senate, leaving Powers, who is the promising man for lieutenant governor, to hold the reins of state government.

By this means, moreover, not only the ends of the alliance party will be served, but those of the democratic party also. All hope of electing a democratic president by popular vote is of course ephemeral. This the most enthusiastic alliance man admits. Yet, the plan is to have the alliance electors chosen in this state. Then when the electoral college meets, these will be turned to the support of the democratic candidates, whomsoever he be. This may be a tie in the college and so throw the election onto the national house of representative, which is democratic by a safe majority, and would certainly elect the democratic nominee.

With this understanding between the managers of the two parties, the Press was informed, the whole alliance ticket would be endorsed by the democrats, from presidential electors down. And, what is more, Nebraska will be made the seat of the fusion movement instead of Kansas, as was thought at one time. This was obtained from authorities very near the throne of the alliance movement, and can be depended upon.

Yet the republicans have no right to be terrified at the movement. Although the managers of the two fusing parties are evidently determined upon the movement, it is plain it is not popular among the rank and file of either party. Indeed should such a scheme be carried out successfully, as it seems now to have been stipulated by the party leaders, it would react greatly among the body of voters in favor of the republican ticket. The result of the scheme will be watched with interest.—Nebraska City Press.
