According to the census of 1890, Chicago takes rank, by virtue of her population of 1,008,576 people, as the eighth largest city on the globe. Most of us desire, at one time or another, to visit a city in which so many persons find homes, and, when we do, we can find no better place than the "Burlington Route." Three fast and comfortable trains daily. For further information address the agent of the company at this place, or write to J. Francis, General Passenger and Ticket Agent, Omaha, Nebraska.

Mr. Van Pelt, editor of the Craig, Mo., Meteor, went to a drug store at Hillsdale, Iowa, and asked the physician in attendance to give him a dose of something for cholera morbus and looseness of the bowels. He says: "I felt so much better the next morning that I concluded to call on the physician and get him to fix me up a supply of the medicine. I was surprised when he handed me a bottle of Chamberlain's Colic, Cholera and Diarrhea Remedy. He said he prescribed it regularly in his practice and found it the best he could get or prepare. I can testify to its efficiency in my case at all events." For sale by F. G. Fricke & Co.

From the same issue of the World we also quote:

"Otis Brothers, elevator manufacturers, signed an agreement yesterday with the Elevator Constructors' union granting the shorter workday from August 1. The men will receive the same pay for eight hours that has been given for nine, and double pay for overtime."

Here are two very recent cases of increased wages "since the passage of the McKinley bill." Will some member of the democratic committee on resolutions, or some news-

paper that approves the result, comment on twenty reductions of wages to date? These two represent a hundred and several reductions he mentions.

The platform already is crumbling to pieces by reason of contention of its parties.

IT was really too bad, after Polk had promised Field the Cass county delegation, to have it go to Chapman unanimously.

Judging from President Harrison's speech to the teacher's association at Saratoga the other day, the coming campaign will be another educational one.

The congressional delegates from this county go to the convention instructed to use all honorable means to secure the nomination of Hon. S. M. Chapman for congress.

The Omaha Public, the official organ of the farmers' alliance, is making a big bid for the Bohemian vote, as evidenced by the article they published Monday concerning the plowmen.

Editor Polk of the News was at Weeping Water yesterday using his influence to send the Cass county delegation to Nebraska City. Instructed for Field. He suffered an ignominious defeat.

THE delegates to the state convention are instructed to do all in their power to secure the nomination of Lawrence Sheldon for governor. Mr. Sheldon happens to be a resident of Cass county. For a number of years he served his country in the house of representatives, is well qualified for the office and if nominated would be elected. He is also one of the foremost farmers in the county and would beat Van Wyck so handily he could not be beat running.

A DEMOCRATIC organ proudly remarks: "God reigns and will be well." That is the reason why democracy has done little reigning for the past thirty-two years. The misfortune of the United States has not yet ended, as democrats have fondly hoped, and tried to enforce, by all the engines of war within reach thirty and more years ago. The idea that such a party—the nation's destroyers—are now its exclusive patriots and most hopeful defenders is a perversion of all history and an insult to the nation's living and dead.

IT turns out that Private Iams of the Pennsylvania guards, who was half shaved, hung up by the thumbs until he fainted, and then drummed out of the regiment, was not court martialled at all for his offense of hurrahing for the would-be assassin of Manager Frick, but the punishment was inflicted by the colonel of his regiment, Streator, on his own responsibility. The public sentiment is very strong against the thumb-hanging business and the colonel will doubtless be court martialled himself for his savagery. Putting people to the torture is a relic of barbarism that will not stand for proper military discipline these days. There was enough of this brutality during the civil war to last for the entire century.—Lincoln Journal.

FACTS AND PLATFORMS.—Since the McKinley bill went into operation," says the national platform of the democratic party, "there have been ten reductions of the wages of laboring men to one increase."

We quote from that eminently democratic journal, the New York World:

"FALL RIVER, Mass., July 13.—The Cotton Manufacturers' association voted to pay all day help employed in the mills for fifty-eight hours work the same wages heretofore paid for sixty hours. All the operators employed on piece work were advanced 3½ per cent. The new list will go into effect from July 11."

From the same issue of the World we also quote:

"Otis Brothers, elevator manufacturers, signed an agreement yesterday with the Elevator Constructors' union granting the shorter workday from August 1. The men will receive the same pay for eight hours that has been given for nine, and double pay for overtime."

OPPOSED TO UNION LABOR.

The Atch. Ill. Telegraph says: "The non-union miners now employed in Adair Stevenson's coal mines, to the number of 300, called upon him yesterday and tendered him their congratulations upon his nomination to the vice-presidency. Mr. Stevenson made a speech thanking them for their call. Mr. Stevenson has not for years permitted a union miner to work on the premises."

The insincerity of the democratic papers in making their howl against Whitelaw Reid, in their attempts to prove that he is not favorable to union labor, has been proven on many previous occasions. The whole controversy has only developed the fact that he has yielded to every just demand made upon him in the name of labor, and has indeed assisted the laborers of the country on many occasions.

But now it comes to light, as in the article quoted above, that Adair Stevenson, the associate of the "stuffed prophet," has never yielded a point to labor, that he has never countenanced a union laborer in his employ, and that he is opposed to unions on principle. It's an old saying that "people who live in glass houses should not throw stones" but it is now the less applicable in this instance. Democracy opened up its old malignant nose of abuse the moment the union bill was made. Without investigating its own weakness, it began to incense the union laborers of the country against Mr. Reid. As usual there was no truth in the accusation, yet it has brought out that Stevenson is a rank enemy of union labor, and that Reid is his friend. The result has been good indeed. Democracy has been censured out of its own mouth.

August 11, at 10 a.m., is the time set by Judge Ramsey for Ava Fornoff to appear before him and show cause why John B. Meisinger should not be appointed her guardian. It is claimed by her friends that she is entirely incompetent to transact her business.

Madison (Iowa) Democrat, contains information well worth remembering: "Mr. John Roth of this city, who met with an accident a few days ago, spraining and bruising his leg and arm quite severely, was cured by one 50-cent bottle of Chamberlain's Pain Balm." This remedy is without an equal for sprains and bruises and should have a place in every household. For sale by F. G. Fricke & Co.
