DR. Miller has been sayagely attacking Vice-President Edmunds lately because the senator from Vermont was sovereign, at the hands of the lower called upon to lead in framing the "elec- court, or tribunal, which is depriving toral count" law by which the presidential contest was amicably and peaceably settled in 1877. The Dr. evidently forgets that many good patriotic demo crats assisted Senator Edmunds and his preme court; they are simple, plain, colleagues in framing that wise and just law. THAT was bitter sarcasm yesterday, when Robt. G. Ingersoll, objecting to the Attorney General of the United States making the second closing argument in the star route cases, exclaimed, when the Court-intimated that the Atty. General, Mr. Brewster, might wish to speak:

two arguments-but I object to the alike-to say that flagrant disregard of precedent. If the Atty. Gen'l wants the rules of the law must be overto say a word in this case let him have looked by a reviewing court, because the courage to make his arguments the accused is a great criminal, is to when he can be answered; not that I place the liberties and rights of every think he could do any harm. If he wants to make the closing argument, I should be delighted; but as to two closing arguments. I object."

The HERALD believes it knows what would please Col. DIAGONAL POINTERS.

Railroad matters are decidedly encouraging, and we hope very soon to be able to say to the public that the city of Plattsmouth has a weil grounded hope for the future. Years ago, the Trunk road should have been built and had not the shortsighted "dog in the manger" spirit taken possession of the usually big hearted. liberal spirited citizens of Nebraska city the A. & N. road, which today opens up the Kan-Lincoln, would have been built up the

Every decision which this court makes, is not made alone for the individual bringing his grievance before the tribunal, but is made for every member of the body politic, to be ap-"I don't know that I would call that | plied to every individual in the state good man in the community in peril. If the supreme court of this or any other state would permit itself to be lashed into a vindicative tribunal through the influence of the passions of an excited populance, how long would the liberties of the individual be safe?
