Georg was handling some queer looking mail matter at the post office this morning. It wasn't exactly mail matter either, but resembled female in tier a top knot or wad of bair used by the women to cover up wrinkles on their fore heads, called in tonsorial parlance, trizzes. The kinks had all come out and left it a mass of snarled, tangled hair, George don't wear a wig and it didn't look like a wig, so it is safe to say it wasn't a wig. Things look suspicious any way and we want to know how it got there, what is it there for and who it belongs to, and want George to tell us.

In conversation with a reporter for the HERALD today a prominent farmer said : "There are more fruit trees and shrubbery being planted this year than I have ever known." Of course the reporter asked why. "Because," said the farmer "everyone knows now that Nebraska is the state, for not only apples, but all kinds of fruit, even to blackberries, and therefore every person is planting an orchard," In further conversation he said it will not be five years until we expert port it in full blast in our next. apples as we do corn. A HERALD reporter this forenoon vis ited the delivery yards of Stockwell & Shannon, the Rochester nurserymen and ground. saw one of the finest displays of nursery stock that good fortune has yet placed in the way. They received about \$1,500 worth this morning which will be delivered tomorrow to parties in the vicinity of Plattsmouth. The selections were personally made at the Rochester nurseries, are of the finest quality regardless of expense, and are in prime lition. The cherry and apple trees are two years old and range in heighth from 4 to 7 feet. The lot embraces cherry, apple, pear, peach and prune trees, grape vines, blackberry, raspberry and current bushes, strawberry plants, all kinds of roses and the very finest quality of grape vines. We are glad to note the rapidly increasing demand for the very best that can be obtained. It has been demonstrated that Nebraska as a fruit country is unsurpassed, and it only remains now to fill it up.

Don't fail to decorate and don't you forget Phil Young has a large line of COUNCIL PROCEEDINGS.

Chief of Police and Street Commissioner Appointed.

The council met pursuant to adournment. Present the Mayor, Councilmen Murphy, McCallan, Morrison, Fairfield, Bons, Lehnhoff and Herold, and City Clerk Simpson. The reading of the minutes of the last meeting, on motion of Councilman Murphy was dispensed with.

Councilman Murphy, from the committee on streets, alleys and bridges made a statement that the petition relative to the alleys in Young & Hayes add., which was referred at the last meeting, only involved a question of law, and entered a motion that the same be referred to the judiciary com-

The report of the committee on licenses, was brought up, and after some discussion it was finally decided to lay the matter over until the next meeting for further investigation.

The matter of city police was introduced, and a discussion ensued, upon the suggestion of the Mayor, that and colored man who live in open two night policeman be employed, adultery. The following gentlemen were chosen and unanimously elected to constitute a board of health: Drs. Schildtknecht, Richmond, Meade, Wintersteen and Judge Newell.

The subject of city printing was brought up, and Mr. Patterson made a motion that the Journal be awarded the city printing at the same figures as last year. Mr. Murphy moved to amend by entertaining sealed proposals accompanied by a bond, and that it be awarded to the lowest and best bidder which amendment prevailed.

The mayor alluded to the unsatisfactory provisions made for the safe keeping of the city records, and recom mended that the council take some action in the matter, and make some suitable provision of a place for their shek, and Ed. Greusel, go to Lincoln. safety in case of fire, etc.

TO-MORROW'S CELEBRATION.

The Sixty-Fourth Anniversary of Odd Fellowship.

The different committees have been busy all day in the completion of arrangements for the grand anniversary celebration. Nothing has been left undone to make this one one of the HARRY WEBBER largest and best gatherings of the kind ever held in the state. Information has been received that there will be 75 from Beatrice, 100 from Ashland, and from the other places the exact number could not be obtained.

A grand dinner will be served in Fitzgerald Hall, prepared by Fred. Stadelman, and three hundred can be accommodated at the tables at once. All other organizations in the city will participate in the parade.

The programme as published will be

carried out to the letter. In the evening a grand ball will be given at the Opera House, to which all are invited. The citizens generally are invited to participate in the celebration. It will be a gala day in Plattsmouth.

City Printing and Democratic Re-

trenchment. The city council last evening took a commendable step in regard to city printing as compared with their action of last year. Mr. Patterson appeared in the council for the first time for months and moved that the city printing be done by the Journal at the same figure it did the work last year. This motion was promptly sat down upon and an order made that bids be received for this work. The fact is the custom during years preceding Mayor Weckbach's adminstration was to let the printing to the lowest and best bidder, and the action of the city council of last year letting the work to the Journal at its own prices was clearly illegal. The Herald cares nothing for this work as about \$200 printing for the fiscal year. It is the democratic principle of retrenchment that attracts our attention. The HERALD will bid on this work at what it considers a living rate and cheerfully endorse the letting of the work to anyone who can late the city dads on their decision pro-

tecting the interests of the tax payers.
