TWO NEGATIVES.
I gave him his first rejection
Nearly a year ago;
At Christmas, with proper reflection,
Again, in cold blood, I said "No."
There's in grammar a rule I remember—
Two negatives—how does it run?
So the cards have gone out for September,
And my white skin is brown is begun.

THE GRADUATING CLASS.
A Large Audience Attend the Exercises

A large and intelligent audience assembled at the opera house last evening upon the occasion of the first graduating exercises ever held in Plattsmouth. The stage on either side was ornamented with flower stands, laden with all varieties of house plants, and across the back wall was stretched an arched banner bearing the motto of the class in large gilt letters, "Speramus Meliora." The programme was carried out as heretofore published.

Opening with music by the juvenile band, followed by a chorus rendered by young ladies of the high school.

Prof. Drummond made a timely and well chosen remarks regarding the duties of parents, also the object of the public exercises and diplomas.

The "Qui Vive Galop," an instrumental duet, was artistically rendered by Misses Anna Livingston and Alice Jean.

"Lost Opportunities," essay by Miss Laura Overlander, was an interesting production, presenting some good ideas and was well delivered. The subject is an almost inexhaustible one, and the young lady selected only the points coming more closely under her own observation.

The quartette "Home by the River," sung by four ladies was well rendered. The oration on "Character," by Walter Holmes was very well written and gave evidence of considerable thought on the part of the writer. It contained some good maxims and would have been more forcible had it been delivered without the aid of the paper.

Another instrumental duet the "Butterfly Galop" by Misses Anna Livingston and Laura Overlander was very finely performed.

An essay on "Home Decoration," by Miss Evelyn Wise, was an able effort, displaying the taste and appreciation of the author, in the matter of a beautiful and happy home, and abounded in glowing descriptions of the same.

The quartette, by four young ladies, "Wait till the Clouds Roll By," was one of the best musical selections of the evening, and was so well liked by the audience that it received an encore.

"Special Training" the essay by Miss Alice Jean was a happy effort and evinced a depth of thought and strain of the practical in its production worthy a foremost place with all thinkers. The essay was well written and well delivered.

"Extracts from the Diary of the Man in the Moon," by Herbert Pollock was another of the well written and well delivered numbers, and clearly proved that "Bertr" had excelled in his experience in the school room, and could make a practical application of it.

The essay on "The Future," by Miss Anna Livingston, was an able production, showing the grasp of the student in the writer and the pride she felt in being among the first to graduate from the Plattsmouth schools. Her appeal to the parents in behalf of the children for intellectual advantages was well taken and deserving of more than passing notice.

Miss Katie Dornington by request played a piano solo which fairly captured the audience.

M. A. Hartigan Esq., in a neat and eloquent little speech presented the diplomas, after which Bert Pollock stepped forward and with a few appropriate remarks, presented to Prof. Drummond, on behalf of the class a handsome silver cup and saucer. The Prof. was taken by surprise, but responded in a very feeling little speech.

Robert Livingston, Jr., read the Valuedictory essay in a creditable manner, but the production was more in the nature of advice to the boys to choose and learn a trade, and become independent men rather than become creatures of circumstances.

Each of the graduates at the close of their performance was the recipient of handsome bouquets of flowers, the remembrance of friends and audience, and Miss Evelyn Wise, besides having a lovely basket of flowers sent up to her was the recipient of an elegant bound illuminated margin copy of Miss Heman's poems.

Taken as a whole the entertainment was a complete success. All acquitted themselves proudly and the event will long be remembered in connection with the history of the Plattsmouth school.

The June number of the North American Review opens with an article by Joseph Nimmo, Jr., chief of the treasury bureau, on "American Manufacturing Interests," in which is given a singularly full and instructive historical sketch of the rise and progress of manufactures in the United States, together with a very effective presentation of the present condition of the industry and the legislation in promoting diversified industries and encouraging the inventive genius of the people. Should this author's advocacy of protective legislation prove disastrous, the reader need not be surprised, in an article by the Hon. Wm. M. Springer, on "Incidental Taxation," which is an argument for free trade. D. C. Gillman, president of Johns Hopkins university, writes of the "Present Aspects of Training," and points out the increase of wealth and luxury, the development of natural science and the influence of a larger religious liberty. Edward Self presents some weighty considerations on the "Abuse of Citizenship," as exhibited in the machinations of the dynamists against a friendly power, in disregard of the obligations of American neutrality. Prof. Isaac L. Rice criticizes some of "Herbert Spencer's Facts and Inferences" in social and political science, and Christine Nilson contributes "A Few Words about Public Singing." Finally, there is a symposium on "The Moral Influence of the Drama," the participants being, on one side, the Rev. Dr. J. M. Buckley, well known as an opponent of the stage, and on the other, John Gilbert, the actor; A. M. Palmer, theatrical manager; and William Winter, dramatic critic. 50 cents a number; \$5 a year. Published at 30 Lafayette Place, New York.

Miss Dowden came among us a stranger, and in the nine months which she has been in Plattsmouth has made a host of warm friends. Jimmy Donnelly, the genial paste-board vender at the depot, arrayed himself in "fine linen and purple," strapped a turpentine greaseack diagonally over his shoulder, after loading it with a paper collar and a pantaloons button, and hid himself to Cromwell, Iowa, for the purpose of interviewing his solid girl. We are not informed how the interview will last, nor what will be said or done, but we can gamble with certainty of winning that from the smiling countenance of Jimmy, it will be "something sweet to tell you."

PERSONALS.

Mr. Edmon:—A few days since two men came to Fairbury from Plattsmouth, Neb., in the interest of the diagonal railway, now being surveyed from McGregor, in northeastern Iowa, on Mississippi river, across that state through Des Moines, Iowa, and through Plattsmouth, Neb., to be extended through Johnson, Gage, Jefferson and Thurston counties in Nebraska. This road is also to reach through Kansas to the Southern Pacific railroad. The B. & M. and U. P. railroads are playing "hide and seek" with the people of Hebron; "now you see me and now you don't," it has what appearance at least. Cannot the citizens of Hebron have a meeting and decide what they will do? We can afford to vote bonds amounting to a good sum, for the first road that comes, especially an east and west road. The eastern terminus of this road is near the lumber region, and not far from the Minneapolis lumber mills. It will cross the great trunk lines of the B. & M. in Iowa, C. R. I. & P., C. & N. W., and G. M. & St. P., and thus give the benefit of the competition of these rival lines. What is your opinion, Mr. Correll?

HORACE.

The new railroad project spoken of by our correspondent, is attracting considerable attention. Its advance agents are receiving a hearty welcome all along its proposed line. A glance at the map will show that its route will be through some of the richest agricultural region of the nation. Its projectors wisely avoid adding another to the many almost parallel east and west lines and mark out new pathway diagonally through the unexcelled farming and grazing territory embraced between the 43d and 38th parallels of latitude in the Mississippi and Missouri rivers. The suggestion of our correspondent as to calling a meeting is excellent. We do not hesitate to advance the opinion that this place will not get a railroad until its citizens show by their united and determined action that they will no longer be deprived of railroad facilities. Whenever this spirit is manifested we believe several roads will at once seek to occupy this valuable territory. We hope the call for a meeting, when issued, will meet with a hearty response from all interested.—Hebron Journal.

Capt. Paine of Lincoln, formerly of this city, passed through the city this morning en route to Monmouth, Ill., where he will join his better half who has been visiting in that city for some time.

Hon. J. M. Forbes, the great mogul of the C. B. & Q. and Mr. Stone, of the same ponderous corporation with a party of ladies in their private car passed through the city en route to Chicago from San Francisco.

A. B. Smith is in town again bringing with him the toughest and worst piece of leather in the west, viz: his mouth. He intends to punish this community with said leather for the next ten days; we need the prayers of neighboring cities.

Frank Wheeler and his friend A. F. Blundell, of the University, came down to take in the commencement exercises of the high school. We presume a portion of the exercises were more than usually interesting to Frank, we don't blame him.

Miss Josie Dowden, assistant principal of the high school, returned to her home, at Lincoln, to spend her vacation with her mother. Miss Dowden came among us a stranger, and in the nine months which she has been in Plattsmouth has made a host of warm friends. Her work, as a teacher, has been entirely satisfactory, and we hope that the Board will see proper to re-elect her.

Jimmy Donnelly, the genial paste-board vender at the depot, arrayed himself in "fine linen and purple," strapped a turpentine greaseack diagonally over his shoulder, after loading it with a paper collar and a pantaloons button, and hid himself to Cromwell, Iowa, for the purpose of interviewing his solid girl. We are not informed how the interview will last, nor what will be said or done, but we can gamble with certainty of winning that from the smiling countenance of Jimmy, it will be "something sweet to tell you."
