> IN THE BLACK HILLS. Bismarck, May 20,-The Tribune special gives additional facts as to the flood at Deadwood. The heavy snow and flood reported some days ago in a dispatch from Stevenson, was at Deadwood. Additional rain had fallen almost every day for a month, making the roads impassable and saturating the ground thoroughly with water. This was followed by a heavy fall of snow, which disappeared rapidly under the heavy warm rain of Friday night and Saturday. The gulches valleys in the hills are from a few hundred feet to probably a quarter of

a mile wide, generally. Demond is at the junction of Whitewood and Deadwood gulches. Numerous gulches in this case emptied their accumulation of water from the mountains into those two main gulches and gave volume to the water that rushed down Whitewood in resistless force. Central City, Anchor City and Golden Gate are on the Deadwood above Deadwood City. The greater portion of Central City would be above the flood but for Anchor and Golden Gate. There was no escape here, however. The gulch is not over 600 feet wide.

Deadwood is a town of 5,000 peole. The main residence portion of the city is from 100 to 300 feet above the gulch and the main business portion was also above the danger line. The portion destroyed was occupied by cheap tenement houses, second-class hotels, laundries, small traders, sporting Magnificent D ning Cars, houses, livery stables, etc. Some build ings were built over the stream, which, at its ordinary stage, was only a few feet wide. Its locality was avoided, however, by the shrewder interest, the danger was recognized. In this case timely warning was given by means of Hills, and the most valuable articles were removed.

So far but three bodies have been recovered, but it is now beijeved that Madison county, 1; Winnetago county, the loss of life has been great. The wild excitement was only equalled by that at the time of the fire. Horsemen rushed in every direction and county 6; Hillsboro, 2; Staunton and hastily loaded vehicles jostled each Mount Olive, 4 to 6; Cayuga, 1; Me- other. When theflood came it carried ings before it. The loss in Deadwood will reach \$700,000. Golden Gate, An chor City, Central City, South Bend and Crook City are heavy losers. Several of the mills in Deadwood gulch were destroyed and the damage to mines by fully given by addressing J. F. BARNARD, Gen'l Supt, weeks. All roads are impassable and seriously wounded over twenty people. trains were forced to suspend on the in St. Charles county, where a large ble to get wood to the stations. DON'T LIKE DUNN. New York, May 20 .- The nequittal of Jere Dunn in the trial for murdering Elliott has aroused the ut most indignation among the friends of Elliott in this city, and many of

molished, and had the cyclone struck | them predict that it would be "unyears an intimate friend of Elliott, and who, when the prize fighter was killed, brought his body to this city and paid all funeral expensee, frowed ominiously when asked his opinion, and said, "Yes, he was let go, and his jury, composed of twelve honest men, ought to be strung and made to tell what they got for their verdict. They are all afraid of Dunn. They want to have him kill half dozen more men before they hang him." PROFESTOR

> Orvin Kelly, another friend of Elliott, said: "The whole jury was bought by Dunn's wife. She is worth about \$100,000, and spent \$30,000 to clear him. A dead man is no good, and Elliott's friends did not have money to avenge him. It Dann ever comes here we will make it so hot for him he will never get out of it. Dunn has got rid of four men, and won't wind up until he has laid his dozen low. When he killed Logan on Honston street in 1879, he shot him down while walking along the sidewalk. Logan had no chance. Dunn followed the same plan with
