CITY CORDIALS.

Red, white and blue lantern parade tomorrow evening. Everything is completed to have a grand time at the banquet tomorrow night.

General Ben Harrison and Levi P. Morton will be unable to attend the great banquet which is to be held here Thursday night.

The opera house will be well filled tomorrow evening as everybody is going to take their ladies to the Young Men's Republican banquet.

Mrs. Campbell and Miss Paul returned from Crete, and Miss Paul is now ready to resume her work as music teacher at her room in the Herald block.

Job work at this office has crowded the printers, causing us to keep an extra man at work, and in order to keep up with the rush the job printers are obliged to work nights.

The W. R. C. of this city will give a raspberry and ice-cream festival at the G. A. R. Hall on Monday evening, July 16th. Everybody is invited. By order of committee.

It is reported by one of the leading democratic orators that after the coming banquet is over Mr. Harry Ritchie will right about face and walk under the banner of the democrats.

Secure your tickets for the Young Men's Republican banquet today, you can get them of J. C. Eikenbary, A. B. Todd, D. A. Campbell, or of Bird Critchfield, at the county clerk's office.

The "Katie Pease" will be open for engagements after the first excursion next Sunday, and any citizens wishing to take their families to a cool shady grove can engage a passage on the ferry at a low price.

We are pleased to notice that some have taken the advice we gave a few days ago and chopped down the weeds growing in front of their residences, which greatly improves the appearance of things.

In addition to the banquet program as printed, letters of regret from General John C. Fremont, General Ben Harrison, Mrs. John A. Logan, Wm. McKinley, Senators Spooner and Teller, and others, will be read.

We understand that during the absence of Supt. Thompson in Europe, Mr. Rignell, formerly of this place, assumes the vacant position, and that Mr. J. S. Peter, of the engineering department, acts as assistant superintendent at Aurora.

We thank Mr. Chas. Sherman, son of the proprietor of our local contemporary, for his assistance in the office today. He came in this morning and after informing us that they were not very busy in his father's office, took off his coat, picked up a stick and started to work.

The Nebraska City Times, an evening paper of that city, which has been issued as a daily for about three years and a half, will, next Saturday, discontinue its publication as a daily, and in the future will only appear as a weekly, the reason being that it is not profitable to run a daily paper in a weekly city.

Men are at work in the B. & M. shops at this place on the booms for two large derricks cars. These when completed will easily lift a heavily loaded freight car from the ground and place it on a flat car. One was built some three years ago and has proved itself exceeding useful. The increase of mileage renders others necessary.

We understand that the B. & M. management have recently contracted for eight chair cars and a number of combination baggage and mail cars. The shops at this point are very busy at this time, yet it is doubtless true that some of the above would have been constructed here but for the late labor troubles. Plattsmouth has lost more by the strike than appears on the surface.

Mr. J. C. Eikenbary arrested two men yesterday, this being the second time he arrested the same parties. He found them hanging around the yards, and after lodging them in Plattsmouth castle for a night, let them out with the agreement that they should leave the city at once. They put in an appearance again yesterday and were arrested a second time by him, this time holding them on a charge of vagrancy.

Members of the F. E. White hose team who gave the dance on the platform which has recently been erected on the old fair grounds, report the affair a success financially and socially. A number of police were sworn in, so that the fighting element was subdued to a considerable extent. Several roughs, it is reported, appeared on the scene at a late hour, but when the policemen did their duty, they left without causing the trouble they had anticipated.

The Nebraska City Times will cease to appear as many times, as times are hard.

The Turners society of this city have formed a new singing club and are practicing regularly.

Judge Russell issued a marriage license this morning to Mr. Paul Dusenberry and Miss Nella J. Ossenkap.

It is a matter of unusual interest that the Young Men's Republican Club admit ladies to their banquet; it is an admirable feature and it is hoped that many will avail themselves of the opportunity and attend.

When the reporter approaches many of the citizens of Plattsmouth and asks for a news item occasionally he is surprised when he receives the startling information: "It's a hot day." It's a cold day when we don't know it ourselves.

The "Katie Pease," the ferry which makes regular trips from Nebraska to Iowa, has been engaged for Sunday, by a party of enterprising citizens who intend holding a picnic in Cottonwood grove, immediately opposite this city in Iowa. We have not yet learned the course the boat will take in conveying the excursionists to the other shore. If they do not go about a mile above or below the city, by the looks of the sandbars about half-way across, they should have men at work now digging a channel. Refreshment stands will be erected and every convenience made for the picnickers. This excursion on the "Katie Pease" being the first of the season on the muddy Missouri in this vicinity, it is expected that a large crowd will turn out for a day of recreation.

A sight which was seen on the Main street a few evenings ago nearly provoked many of the citizens to sound the fire alarm. A man, whom we should take to be well up in years, judging by his tardy pace, was the victim which caused the excitement. Some of his friends, who never had the pleasure of seeing him in a hurry, except in a Dutch argument, adopted, a scheme similar to the one worked on balky horses by building a fire under them. Instead of doing that, some of them touched a match to the straw stack which was located on top of his cranium, which suddenly started a blaze that alarmed some of the spectators, and it is needless to say started the man along faster than he or any of his friends ever remembered of seeing him go before. If it had not been for the assistance of his friends, who removed the burning fibres from his head, it might have been necessary to turn a hose on him.

The publication of a love story yesterday was the first of a series, another one, of a different character, and not as spicy with business, is liable to appear within a few days. A prominent young man who is directly interested in the next publication, became excited yesterday when he noticed a local drawing the attention of readers to a love story on the first page, he thinking his time had come and turned the paper over in a hurry. In due season this second love story we speak of will appear and we are sure it will prove sensational, more so than any previous one ever written concerning Plattsmouth. The dark complexioned young man, with a smooth face and a manly physique, and the young lady with the pearly teeth, laughing eyes and auburn tresses, will be the principal characters in the story. For reasons better known to the reporter, he is at present, mum. The wedding has already taken place—even several evenings ago—and the directly interested parties are smiling over their satisfaction of winning a bet.

The Young Men's Republican Club give their fourth annual banquet tomorrow night, to which all republicans are cordially invited. Tickets can be had for \$1.00 of J. C. Eikenbary, D. A. Campbell or of Bird Critchfield at the county clerk's office.

Every republican should attend this banquet and take his lady, as there will be heard the finest lot of speakers ever assembled at one place in this state at one time. The following is the program: Address of Welcome—John A. Davies, Esq. Toast—"The Republican Leaders, Past and Present"—Judge S. B. Pomeroy, Lincoln. Toast—"Nebraska to the Front," Mayor W. J. Coal is Cash. The undersigned coal dealers, doing business in the city of Plattsmouth, deem it to the best interests of the public, as well as of the dealers, to sell coal strictly and exclusively for cash.

Coal is a commodity that is, and should be, sold on a very close margin, too small, in fact, for the dealers to trust to the delays and uncertainties of collections.

The dealers are required to pay spot cash for coal. The credit system entails a serious loss each season, by reason of the amount of bad debts necessary to be charged off to profit and loss, and in the additional expense required for bookkeepers, collectors, etc.

By dispensing with the above formidable items of expense, dealers can afford to sell coal at lower prices, and they feel assured that this will commend itself to the thinking public.

For the above reasons, therefore, the coal dealers have decided to sell for cash only.

A GOOD MOVE.

Seven Striking Engineers go to Work Here Today and Five More Will Follow Tomorrow.

Men at Lincoln and McCook Start to Work Today.

The Strike Should be Declared off. About three weeks ago a petition was passed among the strikers which was signed by some and ignored by others. Since then this move has been anticipated by everybody. The men who have gone to work looked at the situation from a sensible standpoint and have secured a small chance for themselves while, if they had remained as strikers much longer, their chance of gaining employment on the road at all would have been as one to a thousand. The boys, for their own interest, should declare the strike off, for as long as they remain as strikers, laying idle and drawing money from the pockets of those who are working hard every day for a subsistence and some who have large families to support, the more interest they lose each day. They must surely see, as plain as though printed in letters as large as a house that to get their positions again offered to them on the C. B. & Q. is an impossibility. As it is, those men who go back are obliged to work their way up and wait for an occasional chance which may be left vacant by men now working on the road. Some of the men who started to work today are working in the machine shop and round-house. The men on the road will even have the performance in any promotions.

The longer the strikers hold out in this fight, the more sympathy they are sure to lose, and especially from the brotherhood men who are working on other roads. Since they have seen for so long a time that their chances are lost, why not come out like men and say they have lost it. Then they would receive sympathy from every one, but the longer they remain in the fight now, the more blood they lose and the weaker they make the organization to which they belong. Why not do something for yourselves while there is a possible chance left open. Men have gone to work today at Lincoln and McCook. There will be twelve of the strikers go to work here tomorrow.

The claim of the Plattsmouth Water company, which amounted to \$110.74, for drinking fountains erected on the streets, was not allowed, the claim not being in accordance with the city ordinance, the water company having agreed to furnish the water if the city would erect the fountains.

A petition which was signed by sixteen tax-payers of the Second Ward was read as follows: To the Hon. Mayor and City Council:—Gentlemen:—We, the undersigned residents and free-holders, do petition your honorable body to have the water main on Elm street extended west from its present terminus three blocks, then south one block, then west one block. It is greatly needed and would reach a number of consumers.

The fire and water committee, to whom was referred the petition, examined the same and recommended the prayer of the petition to be granted. The petition was allowed by the council, the Mayor voting to decide.

It was moved by Mr. Murphy that the water main on Main street be extended three blocks. The motion was put and carried by the vote of the Mayor.

The chairman of the streets, alleys and bridges committee was instructed to look after a sidewalk on the east side of Rock street, which is at present in bad repair.

Dr. Schildknecht has a new buggy which he purchased of a firm in Chicago and which he has just received. The vehicle is a very complete rig, and is admired very much by all judges. The name is "The Abbot." For lightness, strength, and a neat little rig, we do not think it can be rivalled.

The Christian Endeavor society is holding a picnic today on "Fitz's Forty." As the society has grown to be a large one, the members with their friends will make a large crowd, and it is expected that the party had a grand time.

There will be a meeting of the Band of Hope at G. A. R. hall Thursday afternoon at 4 o'clock to which all members and any wishing to join are requested to be present. Parents please send your children.

The 4th passed off very quietly and nobody has any complaints to offer. The B. & M. band did great credit to themselves; so also did Messrs. Keister and Root. The Glee Club furnished the best vocal music we have been permitted to hear for some time, it was simply immense. The declaration was read in a very pleasing manner by Prof. Sutton.
