FOR PRESIDENT, BENJAMIN HARRISON, of Indiana. FOR VICE PRESIDENT, LEVI P. MORTON,

of New York.

THE last clinche for free trade is by Mr. O'Morrisey, of the Omaha World. Mr. O'Morrisey is running emptions on the tariff question by comparing English and German wages, and if we can judge of the symptoms of his mania, he is down on the Dutch. A three hundred yard hoss can't run in the Derby. You had better side track, Mr. O'Merrisey.

CONTINUALLY asserting with idiotic argument that a tariff for protection is a manifest injury to the country, we wit ness the democratic press and politicians denying that the party is for free trade and claiming that they favor a tariff reduction, only. Why dont you be manly about the matter? Why persistantly lie about it? If tariff for protection is ruinous to the country why are you not squarely against it and for its utter abolishment? If it is such an inquitious affair how does it come that our country has prospered so wonderfully under the wrong? You are not honest about the matter else your press and leaders would be square out for free trade before the people as you are in fact among yourselves. The people understand. You and your leaders might just as well announce their out and out free trade pro-

FOOLS AND CHILDREN, &C.

The muscular ex-pounder of free trade on the Omaha World breaks out afresh and demands of the aged sire of Bill Nye what benefit tariff is to masons, blacksmiths, cow punchers &c.; the interrogatorers are enough to dislocate the jaw of William Nye, jr , should he attempt to answer them. Considering the fact that these tame looking men. Mr. Morrisey loves to talk about, get nearly double the wages their free trade brothers in Enggland and live far better in every way, are better fed and clothed and have more freedom and are happier, the other end of the boomerang flies up with the inquiry of how is the tariff injuring them ! Such tariff arguments are stunners any-

WHAT IS A PROTECTIVE TAR-

It is a tariff upon foreign imports so adjusted as to secure the necessary revenue and judiciously imposed upon those foreign products the like of which are produced at home. It imposes the duty upon the competing foreign product; it makes it bear the burden or duty, and, as far as possible, luxuries only excepted, permits the non-competing foreign product to come in fee of duty. Articles of common use, comfort and necessity, which we cannot produce, it sends to the people free from custom house exactions. It says to our foreign competitor, if you want to bring your merchandise here, your farm products, your coal and iron ore, your wool, your salt, your pottery, your glass, your cottons or woolens, and sell along side of our producers, we will make your product pay for the privilege of doing it. It makes the competing foreign article carry the burden, draw the load, supply the revenue; and in performing this essetial office it encourages at the same time our own industries and protects our own people in their chosen employments. This is what the republican party is fighting for.

There is a conflict of interests between the several classes of producers and consumers in the United States. That which benefits one benefits all. The farmer, the manufacturer, the laborer, the tradesman, the producer and the consumer, all have common interest in the maintainance of a protective tariff. The establishment of a you will remember a few years ago the furnace or factory or mill in any neighborhood has the effect at once to enhance the value of all property for miles surrounding it. The farmer has a better and word used by our forefathers in times

The Doctor and His Patient

Some cynical Frenchman once remarked that the greater the quack the greater the doctor. I had occasion last week to look in on a physician of the first professional and social prominence. He was busy at the mo-ment of my arrival, and I was left in the reception room alone in the company of a fine, big, handsome man, with the appearance of a well to do mechanic of the best class. We fell into a chat, in the course of which he told me that he was a foreman in an iron works in Jersey City, and that the doctor was treating him for a serious organic disturbance, at special rates in view of the fact that his salary was a moderate one—only \$30 a week. Presently my new acquaintance went into the private office and had his audience. After he had gone the doctor remarked to me, in a voice of mystery:

"Very interesting case, that." "Indeed!" I replied.
"Vastly so," said the doctor. "Most seri-

ous disturbance, but I think I have mastered it. Had to do my best. Don't get such a patient as that every day. He's the biggest iron manufacturer in the state of New Jersey, and pays me a tremendous fee."—Alfred Trumble in New York News.

Lady Riders in Honduras.

In Honduras every lady has her own saddle mule. She rides with grace and ease acquired by constant practice; from early childhood. She sits on the right side of the mule-the Central American side saddle being constructed the opposite to those used in the United States. The right foot is placed in the stirrup and a tiny but effective silver spur is worn on the heel. The right hand holds the bridle and the left usually carries a sun umbrella. A whip is seldom needed with the spur, although a few ladies who have been in New York have adopted the whip and discarded the umbrella. A wide brimmed hat is indispensable, and the riding habit is of gray linen or some small check fancy in cotton.—Cor. Home Journal

Advertising for a Wife.

A Berlin merchant who advertised for a wife lately received 277 answers. Of these 87 were widows, varying in age from 25 to 52; 42 of them had no children, and 21 possessed fortunes entirely under their own control of from \$500 to \$20,000. Four ladies wise to control arbitrarily the condition of 52; 42 of them had no children, and 21 poswho had been separated from their husbands luck at marriage for a second time—one of them for a third time. A New Material for Boats. Navigators in Central Africa know that boats of iron and steel quickly corrode in tropical waters, while those of wood are attacked by white ants. A missionary society has therefore built a steam cance for Lake Nyassa of the comparatively new alloy known as delta metal, which resists corrosion, is light and as strong as steel. The vessel is 21 feet long, with a beam of 7 feet and a depth of 3 feet and draws only 16 inches of water with engine and boiler on board,-Arkansaw Traveler.

An Explanation.

What is this "nervous trouble" with which so many seem now to be afflicted? If word Malaria was comparatively unknown,-today it is as common as any word in the English language, yet this word covers only the meaning of another mearer market for his produce. The merchant, the butcher, the grocer, have an increased trade. The carpenter is in greater demand; he is called upon to build more houses. Every branch of trade, every avenue of labor will feel instantly the energizing influence of a new industry.—Republican.

We recommend that prompt action of our ferenses in the each treatment of such the reconstruction of the prohibition question to the republican primaries, of our new shippards. We denounce the Mills' bill as destructive to We denounce the Mills' bill as destructive to general business, labor, and the farming interests of the country, and we heartily endorse the consistent and patriotic action of the republican representatives in congress in opposing its passage. We condemn the proposition of the democratic party to place wool on the free list and insist that the duties thereon shall be adjusted and maintained so as to furnish full and adequate protection to that incurity.

The republican party would effect all needed reduction of the national revenue by repealing the taxes on tobacco, which are an arrogance and burden to agriculture, and the tax upon spirits used in the arts and for mechanical purspirits used in the arts and for mechanical purposes, and by such revision of the tariff laws as will tend to check imports of such articles as a e produced by our people, the production of which gives employment to our labor, and release from import duties these articles of foreign production, except luxuries, the like of which cannot be produced at home, there shall still remain a larger revenue than is requisite for the wants of government, of internal taxes rather than surrender any part of our protective system at the joint behest of the whisky ring and agents of foreign manufacturers. ring and agents of foreign manufacturers.

PUBLIC LAND LEGISLATION.

We reaffirm the policy of appropriating the public lands of the Uhited States to be home steads for American citizens and settlers not aliens, which the republican party established in 1862 against the persistent opposition of the democrats in congress, which has brought our great western domain into magnificent deour great western domain into magnificent developement. The restoration of uncarned land grants to the public domain for the use of actual settlers, which was begun under the administration of President Arthur should be continued. We deny that the democratic party has ever restored one acre to the people, but declare that by the joint action of republicahs and democrats about fifty million acres of uncarned lands, originally granted for the construction of railroads, have been restored to the public domain in pursuance of conditions inserted by the republican party in the original grants. We charge to democratic administration with failure to execute laws securing to settlers title to their homesteads and with using appropriations made for that purpose to harrass is nocenf settlers with spies and prosecutions under the false pretense of exposing frauds and vindicating the law.

ADMISSION OF TERRITORIES,

The government by congress of the territories is based upon necessity only to the end that they may become states in the union: therefore, whenever the conditions of population, material resources, public intelligence and morality are such as to insure stable local government, therein the people of such territories. inaterial resources, public intelligence and morality are such as to insure stable local government therein the people of such territories should be permitted, a right inherent in them, to form for themselves constitutions and state governments and be admitted into the union. Pending preparation for statehood all officers thereof should be selected from bona fide residents and citizens of the territory wherein they are to serve. South Dakota should of right be immediately admitted as a state in the union under the constitution framed and adopted by her people, and we heartliy endorse the action of the republican senate in twice passing bills for her admission. The refusal of the democratic house of representatives, for partizan purpesses, to favorably consider these bills is a willful piolation of the sacred American principle of local self-government, and merits the condemnation of all just men. The pending bills in the senate for acts to enable the people of Wishington, North Dakota and Montanna territories to form constitutions and establish state governments should be passed without unnecessary delay. The republican party pleages inself to do all in its power to facilitate the admission of the territories of New Mexico, Wyoming, Idaho and Arizona to the enjoyment of self-government as states. Such of them as are now qualified as soon as possible and others as soon as they may become so.

OUR MEECHANT MARINE,

REPUBLICAN PLATFORM.

The republicans of the United States, assembled by their deligates in national convention, hause on the threshold of their proceedings to income the memory of their first great leader and immortal champion of liberty and the ights of the people, Abraham Lincoln, and to over also with wreaths of imperishable remembrance and gratitude the heroic names of our later leaders who have been more recently alled away from our councils, Grant, Garfield,

called away from our councils, Grant, Garfield, Arthur, Logan and Conkling. May their memories be fauthfully cherished. We also recall with our greetings and prayer for his recovery the name of one of our flying heroes whose memory will be treasured in the history both of republicans and of the republic. The name is that of the noble soldier and favorite child of victory, Philip H. Sheridan.

In the spirit of those great leaders and of our devotion to human liberty, and with that hostlifty to ail forms of despotism and oppression which is the fundamental idea of the republican party, we send fraternal congratulations to our fellow Americans of Brazil upon their great act of emancipation which completed the abolition of slavery throuhout the two American continents. We carnestly hope we may soon congratulate our fellow citizens of Irish birth upon the peaceful recovery of home of our national influence in Central and South America, and necessary for the development of trade with our Pacific territory, with South America, and with the further coasts of the Pacific Geean.

We arraign the present democratic administration for its weak and unpatriotic treatment of the fisheries question, and its pusillanimous surrender of all privileges to which our fishery vessels are entitled in Canadian perts under the treaty of 1818, the reciprocate marintine legislation of 1830 and comity of nations, and which Canadian fishing vessels receive in the ports of the United States. We conferm the policy of the present administration and the democratic majority in congress towards our fisheries as unfriendly and conspiciously unpatriotic and as tending to destroy a valuable national industry and an indispensible resource of defense against foreign conemy. The name of American applies alike to all cilizens of the republic, and imposes upon men alike the same obligation of obedience to the laws. At the same time cirizenship is and must be the panoply and safeguard of him who wears it, should shield and protect him whether high or low, rich or poor, in all his civil rights. It should and must afford him protection at home and follow and protect him abroad in whatever land he may be on a language.

CIVIL SERVICE REFORM. The men who abandoned the republican par-ty in 1884 and continue to adhere to the demoty in 1884 and continue to adhere to the demo-cratic party have deserted not only the cause of honest government, but of sound finance, of freedom and purity of the ballot, but espec-ially have deserted the cause of reform in the civil service. We will not fail to keep our pledges because they have broken theirs, or because their candidate has broken his. We because their candidate has broken his. We therefore repeat our declaration of 1884, towit: The reform of civil service auspiciously begun under republican administration should be completed by a further extension of the reform system already established by law to all grades of the service to which it is applied. The spirit and purpose of reform should be observed in all executive appointments, and all laws at varience with the object of existing reform legislation should be repealed, and that the dangers to free institutions which lark in the power of official patronage may be wisely and efr of official patronage may be wisely and ef-ectively avoided. The gratitude of the nation to the defenders

of the union cannot be assured except by laws. The legislation of congress should conform to the pledges made by a loyal people, and be so enlarged and extended as to provide against the possibility that any man who honorably were the federal uniform shall become an inmate of an almshouse or dependent on private charity. In the presence of an overflowing treasury it would be a public scandal to do less for those whose valorous service preserved the government. We denounce the hostile spirit government. We denounce the hostile spirit shown by President Cleveland in his numerous vetoes of measures for pension relief, and the action of the democratic house of representatives in refusing even consideration of general pension legislation.

In support of the principles berewith enunciated, we invite the co-operation of patriotic pension of all parties expecially of all wavelers.
