A Warning.

The modes of death's approach are various, and statistics show conclusively that more persons die from disease of the broat and lungs than any other. It is probable that everyone, without exception, receives vast numbers of Tubercle Germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs producing Consumption and to the head, causing Catarrh. Now all this is dangerous and if allowed to continue will in time cause death. At the onset you must act with promptness; allowing a cold to go without attention is dangerous and may loose you your life. As soon as you feel

that something is wrong with your throat, lungs or nostrils, obtain a bottle of Bosshee's German Syrup. It will give you

immediate relief.

We therefore repeat our declaration of 1884, towit : The reform of civil service anspiciously begun under republican administration should be completed by a further extension of the reform system already established by law to all grades of the service to which it is applied. The spir-it and purpose of reform should be observed in all excentive appointments, and all laws at varience with the object of existing reform leg-islation should be repealed, and that the dan-gers to free institutions which lurk in the pow-er of official patronage may be wisely and cf-fectively avoided. The gratitude of the pation to the defenders of the union cannot be assured except by laws. The legislation of congress should conform to the pledges made by a loyal people, and be so enlarged and extended as to provide against the possibility that any man who honorably wore the federal uniform shall become an in-mate of an almshouse or dependent on private charity.
