ARE THEY EVER CURED!

Patients in an Insane Asylum-A Very

Serious Question. The question recently raised by expatients of an insane asylum, whether sane people are ever kept there after cure because cruel relatives will not take the legal measures necessary to get them out, has caused a good deal of talk. Every village has its unfortunate, who is pointed out as a whilom madman or madwoman. A terrible name it is to bear, too, for never can come the day, this side of the grave, when he who has once been into the dark valley is safe against a possible return. He is always a subject of suspicion and knows it, and if to this knowledge is added the belief that he was locked up wrongfully his position is doubly galling.

A reporter asked a young doctor who has served his time in the asylum whether same people were ever kept there when they ought to be at liberty.

"That is a very delicate question," he said, and very hard to answer. The dividing line between sanity and insanity is very narrow and very faint sometimes. and it is a very delicate matter to say when a person has crossed it. Sometimes a patient will be jolly and appa-Weeping Water | rently same for months and then suddenly fall back into the depths-perhaps into the dangerous stage-of lunacy. It may be laid down as a safe rule that a man who has been once insane may become so again, especially if worried and fretted, and facts like these must enter into any discussion of the question you have asked.

"Now it frequently happens here, as at all asylums, that a patient reaches the state so close to a cure that it would be hard to say that he was not all right. He begins to fret over his confinement, and if he could be taken out and not worried with the cares which invariably accompany a battle with the world, he would be far petter off, perhaps, than under the nag-ging influence of the bolts and bars, which he knows in an asylum stand between him and liberty. To send such a (MASS CAMP NO. 332, MODERN WOODMEN | man out into the world and compel him to class of cases which has undoubtedly been brought to public attention, and some of them are sad enough. I will say this: that if the medical staff of an asylum is satisfied that a patient is thoroughly cured-cured so well that he or she can face the strain of a battle with life-no heartless relatives would be able

to keep that patient imprisoned."
"But how about inebriate patients?" asked the reporter. "Well, they are a sort of exception to the rule," said the doctor. "Many a

man is kept in an asylum who is perfectly sane, who, if he were allowed the liberty of the outside world, would be sure to drink to excess. The insanity of drink is in him. Such a man, I think, is better behind asylum walls."-New York World.

## Work of a Hotel Chambermaid.

The hotel porter has to move and lift some heavy baggage. But he has an occa-sional rest. It is on the muscle and sinews of the hotel chambermaid that the heaviest and longest labors fail. There is one on my floor who has an average of thirtyfive rooms to attend to every day. That means for each room bed making, sweeping, dusting, sheet changing and looking after the toilet requisites. The house keeper has a sharp eye, is eternally vigilant, and not a room is slighted. Chamber work doesn't lock hard, but it's very wearing. I think the man of average strength would look tired after he had bent over his fifteenth bed and tucked the sheets in properly.

Every other morning this girl must arise at 4 and sweep the parlors. She can escape from the house and her toils every other day from 4 in the evening until 7 next morning. The remainder of the time, when not asleep, she is on the move. She is of the muscular draught horse breed, and, though not over 20, her shoulders are bent like a bow from years of stooping over beds while making them up. She sings at her work, and tells us that she never could get through it if she did not sing. She will be an old, over-worked woman in ten years. A fresher, younger "help" will supply her place when she tumbles out of the ranks from sheer exhaustion. None but stout girls can endure here. The landlord naturally and reasonably wants the strongest girls, for the same reason we want the strongest horses to draw our loads .- Prentice Mulford in New York Star.

For Her Precious Welfare,

Treatment of Whooping Cough.

The value of Mobin's treatment of whooping cough by sulphurous acid is receiving strong confirmation from many sources. Dr. Manly, in The Practitioner, expresses the opinion that, if it was carried out in every case, at the end of six months the disease would be unknown. The method used by him is as follows: The patient is in the morning put into clean clothes and removed elsewhere. All his clothes and toys, etc., are brought into the bedroom, and sulphur is burnt upon a few live coals in the middle of the room. The fire is allowed to remain in the room for five hours, and then the windows and doors are thrown open. The child sleeps in the room the same druggists. little under an ounce) of sulphur to every cubic meter may be burnt: this is equivalent to rather more than ten grains per cubic foot. The other room is fumigated in a like manner during the night; the patient practically living in an atmosphere of diluted sulphurous acid gas for some days, while in several cases the process is repeated at the end of a week.

## Plan for a Young Writer.

A young writer should not expect to be paid for the first articles he writes. He s lucky if he gets them into print at all. It is useful to him to have them printed. for an article in type has a different look from an article in manuscript, and faults and defects that a writer might overlook in written copy are made plain in the printed sheet. The best plan for a young writer is to spoil a good many sheets of paper before he thinks of having any-thing at all put into print. When he has written samething which he thinks is really good enough to be interesting to the public, lot him make his first experiments with printer's ink. If he has some thing to say that in worth saying, and east it in an attractive way, he will find nears of getting his articles prid for after a time.—W. H. ## A Word to Republicans.

The importance of the results of the present political campaign can not be overestimated by those who desire the success of the Republican party. The Democrats, besides the "Solid South," are, in the North intrenched behind breastworks of public patronage. It will take steady, carnest, and united work to dislodge them. No hing will so surely bring about that steady, earnest, and united work as the circulation of sound political literature, and OF THIS CLASS NO OTHER IS AS EFFICIENT AS THE DAILY AND WEEK-LY NEWSPAPER. Speeches and documents are read by the few, and when read are laid aside; the newspaper is the fireside friend, the trusted family companion. Its influence is continuous, constant.
