Great Event

In case's life is the discovery of a remedy for some long-standing malady. The poison of Scrofula is in your blood. You inherited it from your ancestors. Will you transmit it to your offspring? In the great majority of cases, both Consumption and Catarrh originate in Scrofula. It is supposed to be the primary source of many other derangements of the body. Begin at once to cleanse your blood with the standard alterative,

Ayer's Sarsaparilla

"For several months I was troubled with serofulous cruptions over the whole body, My appetite was bad, and my system so prostrated that I was unable to work. After trying several remedies in vain, I resolved to take Aver's Sarsaparilla, and did so with such good effect that less than one bottle

Restored My Health

and strength. The reputity of the cure astonished me, as I expected the process to be long and technics." - Frederica Mariz Fernandes, Villa Nova de Gaya, Portugal. "For many years I was a sufferer from scrofula, until about three years ago, when I began the use of Aver's Sarsaparilla, since which the discuss has entirely disappeared A little child of mine, who was troubled will the same comptaint, has also been cured by this medicine."- H. Brandt, Avoca, Nebr.

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotle substance. It is a harmless substitute for Paregoric, Drops, Soothing Syraps, and Castor Oil. at is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Card, cures Diarrhom and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulater the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea-the Mother's Friend.

Castoria.

" Castoria is an excellent medicine for childress. Mothers have repeatedly told me of its good effect upon their children."

Castoria.

Du. G. C. Osocop, Lowell, Mass.

" Castoria is the heat remedy for children of which I am acquainted. I hope the day issuet fur distant when mothers will consider the real interest of their children, and uso Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing optium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

Dit. J. F. KINCHELOE, Conway, Ark.

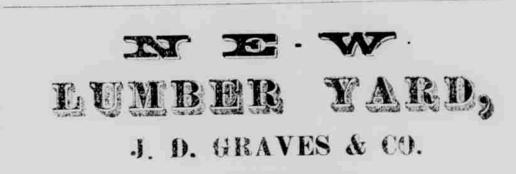

" Castoria is so well adapted to children that I recommend it assuperior to any prescription known to me." H. A. Ancuma, M. D.,

111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only mave among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

Two or three ances a night have been the rule. As a capatity of the men in society are also a business, it is difficult to see how they in be expected to sit up until 4 o'clock in the morning every night in the week and still go to their offices at the meanstomed time. Apparently there is another long felt want in society which the conditions of New York life make it inspossible for men to fulfill.-New York

Wanted to Complete His Trade.

Charles Drum, 20 years of age, who deaded guilty to snatching a parse from lady on Jackson street, got three years and a half in the penitentiary. The indge was about to sentence him to the reformatory when Drum spoke up and informed the court that he had once before been convicted, the first time for burglary. Drum's counsel let the cat out of the bag by saying that his client preferred Stillwater to St. Cloud because he desired to complete his trade. that of a tinsmith. The court did not appear to be much swayed by the defendant's preferences, and made it state prison on his admission of a former conviction.-St. Paul Pioneer Press.

Good Day for Whales.

New York the other day reports seeing eighty-four whales in one day. Some of the monsters were two or three miles away, but others came so close to the vessel that the fishy odor made the sailors sick. At this season of the year we see no reason to doubt the story .--Detroit Free Press.

tion of the earth's axis has led to some serving astronomical latitudes, and expeditions are about being fitted out in The scientists from this country will go

A newly patented egg boiler combines the sandglass arrangement with an automatic "alarm" when the egg is cooked, which would seem to be an invitation rather than an alarm, as an ingenious device lifts it out of the water, so that all the cook has to do is to eat it.

Professor John Tyndall, the famous British scientist, did not marry until he was 63, when he wedded Lord Hamilton's oblest daughter. He is now in his eightieth year.

A Won lerful Man.

Williams Kingston, of Ditch-heat. somersetshire, England, was "the meaunderful of all that wondrous knew. oncerning him a writer of The London bronicle says: I put half a sheet of paer, with pen and ink, on the floor before am. He threw off his shoes as he sat; ook the inkstand in the toes of his left at (having been born without arms) and held the pen in those of the right the then wrote three fine lines better han most can with the fingers. He feeds imself, and can bring both his meat or his broth to his mouth by holding the fork or spoon in his toes. He showed

me how he shaves. He can dress and undress himself. He is a farmer by occupation; milks his cows with his toes, cuts his own hay and inds up the bundles and carries it about the field for his cattle. In saddling and bridling his horse he does it with his teeth. He is so strong in his teeth that he can lift ten pecks of beans with them, and he can throw a hammer is far with his feet as most people can with their hands.

The Baby's Bath.

Nursery conveniences have been supdemented by the introduction of a new ponge basin. This is a pretty and deep hina bowl, decorated in quaint Greenrway figures and divided into two distinct receptacles by a porcelain partition. Hot and cold water are thus directly at nurse's hand, with a powder box and a soap cup of a pattern to match. To further increase the usefulness of this novelty, small willowware stands in white and gold are provided, on to which the sponge bath may be lifted and readily transported to any part of the room. Hage but light weight willow woven

hampers, exquisitely trimmed with white esprit and pale blue ribbons, are fitted ap with every known nursery luxury, from an ivory and silver rattle to keep the small bather quiet, to the day's wardrobe and a cushion fine enough for a duchess' toilet table: no single article is lacking. The bassinet, with its low swung rockers and graceful canopy, is done up in the same manner and leaves the infant nothing to desire. -- Illustrated
