MONDAY, MAY 4, 1891

THE new warehouse law, which promises vast benefits to the farmers of this state, was prepared by Gen. E. F. Test, of Ognaha, and in its provisions is not materially different from that in operation for a number of years in Minnesota and Dakota. In brief its provisions are as follows: The farmer can store his grain in the nearest elevator, taking receipt therefor, and wait until the price suits him before selling, paying, of course, a nominal charge for storage. His receipts represent a certain cash value, and he can, if he chooses, obtain money on them at the local bank, and when he finds it advantageous to sell, can take up bank notes, thus getting the benefit of any rise on the market. The farmer's own judgment is exercised as to the probabilities of a rise or fall in the market, and he may sell outright or store the grain accordingly. The local buyer is also enabled to handle his own grain by forwarding the surplus to some other center of his choice, and take receipts upon which he can realize, if occasion requires. The interchange of receipts ! for grain will, to a considerable extent, take the place of actual transfers, and give all parties, from the producer to the speculator at the central market, the benefit of margins, which have hitherto been advantageous to the members of the Chicago board of trade and their speculative customers.-Beatrice Express.

THE BEATRICE CHAUTAUQUA The managers of the Beatrice Chautauqua announce some rare attractions for the approaching assembly. The long list of speakers includes the great and only Sam P. Jones, Dr. P. S. Henson, Dr. A. A Willits, and ex-President Hayes, Dr. Powers, Garfield's pastor in Washington, lecture on Garfield; Hon, Ignatius Donnelly and the brilliant Prof. Freeman of the University of Wisconsin, will debate the Bacon-Shakespeare question. Prof. W. W. Freach, the great

crayon artist of Chicago, will draw pictures and talk about them in his inimitable way. Dr. Sauaubrah of India will lecture in picturesque costume and with a platform crowded with curiosities.

The class instruction will be especially fine. The music will be in charge of Prof. C. C. Case, the best known of all the Chautauqua musical directors. Madame Rosa Linde, who attracted such widr attention with the famous Gilmore and Iness bands, will be the soloist of the occasion. The Swedish Male Quartette, the finest in the whole world, will be present for a week.

Dr. M. M. Parkhurst, whose exposition of Scripture is simply marvelous, will give daily readings and will conduct the Ministers' Institute. Prof. W. W. Karnes of Chicago, one of the very best elecutionists in America, will conduct classes and give platform readings. The S. S. Normal Class for adults will be in charge of Dr E. L. Eaton, who will also conduct classes in microscopy and show the wonders of the heavens through a large telescope. There will be in all twelve different

courses of study in charge of able

and enthusiastic instructors. The grounds of the Assembly are i superb condition. The electric railway now in construction will carry passengers into the grounds and up to the tabernacle. Several new buildings are in process of construction. A unique feature of the Beatrice assembly is the beautiful steamer "Queen of the Blue," which carries 300 passengers over a six mile course unsurpassed for picturesqe beauty. We advise all who contemplate attending an assembly this year to send to the secretary, S. S. Green, at Beatrice, Neb., for the program before deciding where to go-The dates are June 23

No farmer or stockman can afford to be without Hallar's Barb Wire Liniment. Animals supposed to be permantly injured and useless, have been made valuable by its timely use. We are so well pleased with its results that we heartily recommend it to our customers. For sale by all druggists.
